

BIANCO MATT FRONT DOOR PANELS FOR 36" BUILT-IN FRENCH DOOR REFRIGERATOR

SP36FDBV

Italian Craftsmanship, Reimagined for the Modern Kitchen

Italy's legacy of artisan metalwork is revered across the globe—defined by exquisite precision, flawless finishes, and timeless elegance. Bertazzoni channels this heritage with unwavering dedication, infusing every product with the same meticulous craftsmanship and uncompromising standards. The result: appliances that transcend utility, becoming refined expressions of design and performance.

Bianco Matt Finish: Understated Luxury

The Bianco Matt Texture paint embodies quiet sophistication. Its velvety, matte surface offers a serene yet striking presence, elevating your kitchen with a refined aesthetic that complements both classic and contemporary interiors.

Defining Kitchen Confidence

Bertazzoni's signature powder coating technique is renowned for its durability and visual depth. This advanced process—ideal for creating rich, matte finishes—graces our Master Series with a texture that is as resilient as it is beautiful.

Engineered for Elegance and Endurance

Behind the beauty lies robust engineering. Our coating process uses pigmented powder composed of premium resins and materials, electrostatically applied and cured at extreme temperatures. As it melts, it forms a seamless "skin"—a hardened surface that resists stains, scratches, and wear far beyond conventional paint.

Harmonized Design: Bianco Matt Panels & Gold-Accented Handles

Complete your Bertazzoni suite with Bianco Matt panels paired with Master Stainless Steel handle kits, adorned with elegant gold finials. This curated combination brings visual unity and elevated style to your kitchen—spanning cooking, ventilation, refrigeration, and dishwashing solutions. It's a statement of taste, precision, and Italian artistry.

TECHNICAL SPECIFICATIONS

Packaging dimensions H: 56 5/16" W: 42 1/8" D: 4 1/2"
