OUR HISTORY

This American story starts during the hectic times of World War II at an era where basic necessities were scarce and people went through life without common comforts that are now mostly taken for granted.

My father in his early 20's, married with children and living in a very cold region of the world with few available natural resources. He longed for a warm home for his young family.

"Necessity is the Mother of All Inventions". My Father, Mourad Demirjian, with a background as a plumber came up with an idea of using diesel fuel as a heat source. He realized that if he developed a way to control the amount of diesel fuel discharging he could achieve a constant flame. He developed a drip method system that could regulate the amount of fuel discharging. Then he designed a path of travel to allow the discharging fuel to flow into a welded metal chamber. Once capturing a clean burning flame and by using special louvers and heat transfer panels he was able to radiate constant heat into the room.

Once that was achieved, next he set his sights on designing a special flue to exhaust fumes produced by the burning fuel out of the room. After a few adjustments he had created his viable fuel-efficient space heater.

My Mother, being the center of the community, had many friends and relatives stopping by for visits. Once they took notice of our warm home there was an immediate demand for my father's new space heater. As you can imagine, my father left his job as a plumber to focus on building his new space heaters to fulfill the quick rising demand. Later models incorporated a glass window to view the burning flames and a hot plate on top to keep food warm. I remember as a small child using it to melt cheese on bread for a quick snack.

In the late 60's my family immigrated to the United States. In the early 70's we started building custom commercial cooking equipment. This led us to develop our own brand of a production line-up of cooking equipment based on those one-of-a-kind designs, which is supplied nationally and internationally to the food service industry. Along with building quality equipment we have also built quality relationships. These relationships created another demand and inspired us to build our commercial grade residential cooking appliances.

FEATURES AND BENEFITS

CUISINE SERIES

- 3 sizes of burners to serve your everyday needs: 17,000 BTU (lg), 13,000 BTU (med), 9,000 BTU (sm)
- Stainless Steel Island Back Trim included & installed
- Continuous and flush commercial-grade cast iron grates allow for easy transfer of pots and pans across the entire cooking surface
- Sealed burners deliver exceptional performance at every level setting and lift off to provide easy cleanup
- Sealed burners create simmer temperatures at minimum setting
- Variable infinite flame settings for all sealed top burners
- Fail-safe system ensures re-ignition in the event the flame goes out even on the lowest burner setting
- Sealed Single Piece tooled porcelainized cook top can hold more than a gallon of spills
- Analog controls provide easy, push and turn operation ensuring child safety
- Blue LED light indicates oven functions
- Heavy metal die-cast black satin knobs with chrome bezels
- Oven front construction is a durable, precision-made one piece frame
- Innovection® System with convection fan optimizes uniform air flow
- Multiple functions include: Standard Bake, Innovection® Convection Bake, Infrared Broil and Fan mode
- Front panel switch controls oven lighting for optimal visibility
- Accommodates full size commercial sheet pan
- Two chrome racks glide at 5 cooking levels on heavy chrome side supports
- Porcelainized oven interior simplifies cleaning
- Extra-large viewing window in oven door
- Ceramic Infrared Broiler provides rapid searing at 1,800°F
- Quick Preheat times and uniform cooking temperatures are created with a 28,000 BTU Bake Burner
- Traditional and Convection Bake can be controlled to provide a range of 200°F to 500°F

HERITAGE CLASSIC SERIES

- 3 sizes of burners to serve your everyday needs: 17,000 BTU (lg), 13,000 BTU (med), 9,000 BTU (sm)

TITAN SERIES GAS STEP-UP RANGES

24"

30"

36"

FEATURES

- 3 sizes of burners to serve your everyday needs:
17,000 BTU (lg), 13,000 BTU (med), 9,000 BTU (sm)
- Step-up range provides 2 unequal levels of cooking surface
- Elevated rear burners provide easy access to sauté pans, & allow larger pots to be used consecutively
- Home chef can orchestrate multiple entrees, sauces, mirepoix and/or mise en place.
- 3 Expansive front grates, able to accommodate 16" diameter sauté pans or stock pots
- Sealed burners deliver exceptional performance at every level setting and lift off to provide easy cleanup
- Sealed burners create simmer temperatures at minimum setting
- Variable infinite flame settings for all sealed top burners
- Fail-safe system ensures re-ignition in the event the flame goes out even on the lowest burner setting
- Sealed Single Piece tooled stainless steel cook tops can hold more than a gallon of spills
- Analog controls provide easy, push and turn operation ensuring child safety
- Blue LED lights indicate flame and oven functions provided with every knobs with chrome bezels
- Innovection® System with two convection fans optimize uniform air flow
- Multiple functions include: Standard Bake, Innovection® Convection Bake, Infrared Broil and Fan mode
- Two lights in each oven are controlled from front panel switch
- Full size commercial sheet pans fit in 30" and 36" oven
- Two chrome racks glide at 5 cooking levels on heavy chrome side supports
- Porcelainized oven interior simplifies cleaning
- Inconel® Banquet broiler burner provides rapid searing at 1,800°F
- Quick Preheat times and uniform cooking temperatures are created with a 30,000 BTU Bake Burner
- Traditional and Convection bake can be controlled to provide a range from 200°F to 500°F

TITAN SERIES STEP-UP RANGE CUT OUT DIMENSIONS

Island or peninsula installations - 10" min. clearance from back of range to combustible surface. Island trim 0" clearance to non-combustible surface. No side wall above cooking surface.

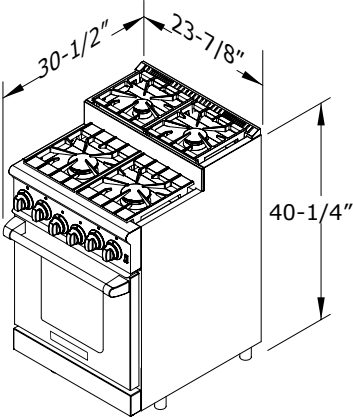

Electrical outlet - standard 3 prong 120 VAC. Allow for shut off valve at gas outlet. Island peninsula installations require a 10" minimum clearance from back of range to a combustible surface. No side wall above cooking surface.

FEATURES

ALL MODELS

- Blue LED lights indicate flame and oven functions
- Heavy die cast metal black satin knobs with chrome bezels
- Innovection® System with two convection fans optimizes cooking air flow
- Multiple functions include: Standard Bake, Innovection® Convection bake, Infrared Broil and Fan mode
- Two lights in each oven are controlled from front panel switch
- Accommodates full size commercial sheet pan
- Two racks glide at 5 cooking levels on heavy chrome side supports
- Porcelainized oven interior simplifies cleaning
- Extra-large viewing window in oven door
- Traditional and Convection bake can be controlled to provide a range of 200°F to 500°F
- Commercial grade stainless steel construction with welded control panel
- Easy to use analog controls
- Classic Chef Door or commercial-style French Doors improve oven access
- Dependent French oven doors open 130° with the pull of one handle

GAS MODELS

- Inconel® Banquet broiler provides rapid searing at 1,800°F using 18,000 BTUs
- Quick Preheat times and uniform cooking temperatures are created with a 30,000 BTU Bake Burner
- Lower oven of gas double models features Proofing Element Burner for bread making and low temperature dehydrating

ELECTRIC MODELS

- 3,500 Watt Instagrill™ broiler reaches searing temperature in 3 seconds
- Concealed 2,200 Watt Bake Element with the IR Advantage™ reduces preheat times and creates uniform cooking temperatures

HYBRID MODELS

- Best of both worlds - gas and electric combined.

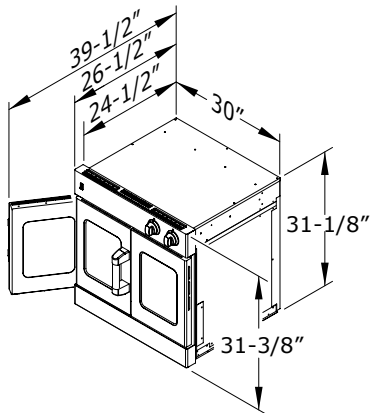

SINGLE DECK WALL OVENS CUT OUT DIMENSION

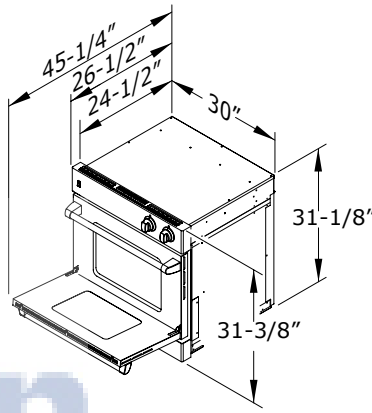

For oven support, install 2" x 4" extending front to back flush with the bottom and side of the opening. The supporting base must be well secured to the floor/cabinet and level.

LEGEND SERIES
SLIDE-IN COOKTOPS

FEATURES

- 3 sizes of burners to serve your everyday needs: 17,000 BTU (lg), 13,000 BTU (med), 9,000 BTU (sm)
- Continuous and flush commercial-grade cast iron grates allow for easy transfer of pots and pans across the cooking surface
- Sealed burners deliver exceptional performance at every level setting and lift off to provide easy cleanup
- Sealed burners create simmer temperatures at minimum setting
- Variable infinite flame settings for all sealed top burners
- Fail-safe system ensures re-ignition in the event the flame goes out even on the lowest burner setting
- Sealed single piece tooled stainless steel cook top can hold more than a gallon of spills
- Analog controls provide easy, push and turn operation ensuring child safety
- Blue LED lights indicate flame and oven functions provided with every knob
- Heavy metal die-cast black satin knobs with chrome bezels

ACCESSORIES & OPTIONS

- Mirror chrome finish griddle plates available in flat surface & grooved surfaces
- 1" standard fabricated Island back
- 1" welded Island back
- 4" Stub back
- 20" High back with shelf
- Removable griddle plate
- Griddle cover
- Grill cover
- Wok Adapter
- Bright red knobs
- Burgundy knobs

SLIDE-IN COOKTOPS CUT-OUT DIMENSIONS

Island or peninsula installations - 10" min. clearance from back of range to combustible surface. Island trim 0" clearance to non-combustible surface. No side wall above cooking surface.

Electrical outlet - standard 3 prong 120VAC. Allow for shut off valve at gas outlet. Island peninsula installations require a 10" minimum clearance from back of range to a combustible surface. No side wall above cooking surface.

VILLA SERIES WARMING DRAWERS

27"

30"

36"

FEATURES

- Electronic controls hidden behind the front panel are kitchen-design friendly
- One-touch controls presets, adjustable drawer temperatures and on-times
- Easy-to-read digital display of time and temperature simplifies programming
- Automatic shut-off at end of cycle helps save energy
- Adjust, Add and Remove function keys make memory programming easy
- Sabbath mode for up to 84 hours of hands-free operation
- Four radiant heaters take the drawer from 70°F to 140°F in 4 minutes and to 190°F in 9 minutes
- Two convection fans hold the drawer at a uniform temperature to +/- 1°F accuracy

- Drawer capacity is truly proportional to product width - larger models have a larger drawer (30" and 36" only)
- Best quality Triple-Play cabinet slides keeps the drawer from wobbling
- Low sides on drawer make loading and unloading easy - and clean-up a snap

SPECIFICATIONS

- Computer control of time and temperature
- Standard kitchen cabinets widths
- Three-slides on the drawer for increased stability
- Timed, Continuous and Sabbath modes
- Four infrared heaters, two convection fans standard in all models
- Design protected under U.S. Patent 7,166,821

27" WARMING DRAWER		
Overall Drawer Capacity	1.4 CU. FT.	
Drawer Dimensions	19 -1/2" W x 6" D x 20 -1/2" H	
Heating Element	ARR-27WD - 800 watts	
Convection Fans	2	
Temperature Range	80° F to 195° F	
Operating Modes	Timed, Continuous, Sabbath	
Electrical Supply	120 VAC 15 AMP 60 Hz Single Phase	
Shipping Weight	75 Lbs	

30" WARMING DRAWER		
Overall Drawer Capacity	1.6 CU. FT.	
Drawer Dimensions	22 -1/2" W x 6" D x 20 -1/2" H	
Heating Element	ARR-30WD - 800 watts	
Convection Fans	2	
Temperature Range	80° F to 195° F	
Operating Modes	Timed, Continuous, Sabbath	
Electrical Supply	120 VAC 15 AMP 60 Hz Single Phase	
Shipping Weight	75 Lbs	

36" WARMING DRAWER		
Overall Drawer Capacity	2.0 CU. FT.	
Drawer Dimensions	28 -1/2" W x 6" D x 20 -1/2" H	
Heating Element	ARR-36WD - 800 watts	
Convection Fans	2	
Temperature Range	80° F to 195° F	
Heating Modes	Timed, Continuous, Sabbath	
Electrical Supply	120 VAC 15 AMP 60 Hz Single Phase	
Shipping Weight	75 Lbs
