LG Multi-Media Features

Finally, an intelligent appliance for your kitchen. LG, a world leader in both the manufacture of refrigerators and advancement of information technologies, has created the first multi-media refrigerator. It is a convergence that marks the beginning of the future in home networking. Its revolutionary benefits include: schedule management, improved food preservation, access to a world wide web of recipes, digital snapshots, voice recording, e-mail, television, endless digital radio, and so much more.

The Multi-Media Refrigerator from LG. With it, gathering in the kitchen will reach a whole new level of excitement. Take a journey with us.

TV – Watch TV on a brilliant 15.1" digital LCD monitor with a remote control

AUDIO – Play music from hi-fi speakers and download MP3s or play radio from the Internet

INTERNET – Full functionality for e-mailing or web surfing

FILTER

Frequently Asked Questions

Does the customer need high speed Internet access?

Highly recommended (Connection speed - Broadband 10/100 mbs).

Who will set it up for the customer?

The store where you purchase the refrigerator is trained to install the unit. Please have your cable company install a cable line behind the refrigerator *prior* to the product's delivery.

What are the dimensions of the refrigerator?

37 3/4" Width x 33 7/8" Depth x 70" Height.

What happens during a malfunction in any part of the refrigerator?

A built-in self diagnostic feature detects and informs you of a malfunctioning component.

What is the operating system?

The O.S. is Microsoft® Windows® dedicated version.

Can games be installed?

No.

How big is the hard drive?

20GB.

Where is the reset button?

On the top front of the refrigerator.

What type of video/audio card does it use?

An onboard card.

What type of graphics card does it use?

An onboard card.

Does it come with virus protection?

Yes.

What type is the LCD monitor's resolution?

4096 x 4096 lines.

Will the cooling function of the refrigerator work if there is a problem with the internet operation?

Yes, food will remain properly chilled and protected if, for some reason, the Internet function fails.

Can you listen to radio stations that do not broadcast over the Internet?

No, you must have access to streaming radio.

Is the LG Multi-Media Refrigerator complicated?

No - with its intuitive graphical user interface, the LG Multi-Media Refrigerator is extremely easy to use.

Is there a demo mode?

Yes, to activate it press the Management icon on the main screen and choose Demo Mode. It will continuously loop until someone presses any function from the main screen.

What is the warranty?

1 year on parts and labor/7 years on sealed systems.

For complete warranty information go to www.lgservice.com

Who Is Buying The LG Multi-Media Refrigerator?

People on tight schedules

The LG Multi-Media Refrigerator is the perfect message board. Families can use it to organize and coordinate busy schedules.

Families whose kitchen is the hub of the home

As the centerpiece of the kitchen, the LG Multi-Media Refrigerator with TV, message capabilities and Internet connection make the kitchen the nerve center of any home.

Those interested in having music and TV in their kitchen

The LG Multi-Media Refrigerator brings the outside world right to the kitchen – cooking shows, morning news, movies, and music – everything people want right where they need it.

People who want to be on the leading edge of technology

Check e-mail, catch the news, connect to it all – all while having breakfast - the LG Multi-Media Refrigerator is the ultimate appliance for any networked home.
