The GENESIS *of* LUXURY

It all began in 1916, when Thermador broke boundaries with the first built-in heaters. We've since invented the wall oven, the Star® Burner, and exclusive Culinary Preservation Centers. Today marks a new beginning not just for Thermador, but for you. Because from this day forward, the kitchen will transform in ways you never knew it could.

Introducing all-new Thermador products across two collections: Masterpiece® and Professional. Each offers a distinct style all its own, but there's one thing they have in common: incomparable Thermador innovation.

Welcome to a New Age of Exceptional.

Predicted Reliability & Owner Satisfaction

Results in the following chart are gathered from Consumer Reports' 2018 Spring Survey of 2,597 built-in refrigerators, owned by members who purchased a new unit between 2008 and 2016.

Our predicted reliability ratings are based on a statistical model that estimates problem rates within the first 5 years of ownership, for refrigerators that are not covered by an extended warranty or service contract. Higher ratings are indicative of better reliability. Brands receiving a red or orange rating cannot be recommended by CR at this time.

Our owner satisfaction ratings are based on the proportion of members who are extremely likely to recommend their built-in refrigerator to friends and family.

A water and drain connection eliminate the need to empty a drip tray, while water replenishment flows water directly into your machine from your plumbed water source, eliminating the need to fill a water container.

Thermador non-plumbed Built-in Coffee Machines can be installed without an additional water line in your home—enabling installation in the bedroom, guest room, office and beyond.

When two appliances are installed side-by-side a sealing kit must be used. For combinations that involve a freezer column, this kit is included. For all other (non-traditional, i.e. two wine columns, two bottom freezers, etc.) side-by-side combinations or instances where any appliances are installed less than 6" (152 mm) apart from one another but not connected side-by-side, purchase this kit.
