

3000IS

PROFESSIONAL IRON SYSTEM

PRODUCT SPECIFICATIONS

PROFESSIONAL IRON STATION

The 3000IS is the perfect entry level ironing system for those looking for a compact, professional quality product. Using higher grade components including an all stainless steel outer shell, the 3000IS is the perfect choice for those looking for a robust, and simple ironing station package.

IT'S ALL ABOUT THE STEAM

The 3000IS excels at producing quality, dry, pressurized steam. Pressurized steam is the fastest and most efficient way of ironing. It allows the fibers of the fabric to be softened quicker, with the weight and heat of the iron laying the fibers down flat. This creates the crisp and clean finish required by professionals.
