

6000IS

PROFESSIONAL STEAM IRON STATION

The 6000IS provides 60 PSI of steam pressure and up to 6 hours of continuous ironing. The 6000IS establishes a new benchmark for features, ease of use, and quality of components.

The 6000IS excels at producing quality, dry, pressurized steam. Pressurized steam is the fastest and most efficient way of ironing. It allows the fibers of the fabric to be softened quicker, with the weight and heat of the iron laying the fibers down flat. This creates the crisp and clean finish demanded by professionals.
