PROTECT CHILDREN:

- Do not allow children to operate the grill.
- Keep children away from the grill during use and until the grill has cooled after you are finished.

NEVER SMOKE DURING USE

SAFETY:

1. When using charcoal briquettes or wood chunks, form a pyramid and douse with lighter fluid. Wait until fluid has soaked in before lighting.
2. Cap lighter fluid immediately and place a safe distance from grill.
3. **Never** add lighter fluid to coals that are already hot or warm.
4. **Never** use gasoline, kerosene or other highly volatile fluids as a starter. They can explode.
5. As an alternative to lighter fluid, use an electric, solid or metal chimney or other starter specifically made for lighting charcoal briquettes or wood chunks.
6. Unplug and remove a hot starter with caution and be careful where you place it. Always make sure the starter is completely cool before storing.
7. **Never** use an electric starter in the rain and/or when standing on wet ground.
8. When using instant light briquettes, do not use lighter fluid, electric, solid or metal chimney-style starters. Do not add more instant light briquettes once the fire has been lit. Add only regular charcoal briquettes if more are needed.
9. Once the grill is lit, do not touch briquettes or wood chunks to see if they are hot. Keep grill uncovered until ready to cook.
10. Keep vents open while cooking. Charcoal briquettes and wood chunks need oxygen to burn.
11. Allow coals to burn out completely and let ashes cool at least 48 hours before disposing.
12. Dispose of cold ashes by wrapping in heavy-duty aluminum foil and placing in non-combustible container. Be sure no other combustible materials are nearby.
13. If you must dispose of ashes before completely cooled, place them in heavy-duty foil and soak with water completely before disposing in non-combustible container.

- Use barbecue mitts or hot pads to protect hands while cooking or adjusting the vents.
- Use proper barbecuing tools with long, heat-resistant handles.
