

AGA Hotcupboard with Induction Top

Model # AHCIN

The AGA Hotcupboard with Induction Top gives owners a versatile cooking experience using advanced technology. Designed for those who love the many benefits of induction cooking and who require additional ovens for warming and simmering foods. This integrated solution attaches to the left of any 3-oven AGA Total Control or AGA Dual Control.

- Iconic AGA signature look with cast iron doors, front and top.
- Large 12”H x 12”W ceramic induction burner surface with a 9”H x 9”W defined pan area.
- Touch controls housed in the ceramic surface giving 10 Display Indicators and 9 Power Level settings including Power Boost, Residual Heat Indicator, a Timer and an Overheating Detector.
- Child Lock function to keep little hands safe and a Pause Setting to briefly interrupt the cooking session.
- Induction cooktop operates separate from the hotcupboard, is energy efficient, safe to operate and easy to clean.
- Simmering oven at the top of the hotcupboard is perfect for slow cooking meats giving you an additional slow cook oven when combined with any 3-oven AGA cast iron range.
- Warming oven at the bottom is perfect for keeping dessert warm while eating your meal and also for warming plates prior to serving.
- Seamless integration giving the look of one large range
- Includes one large handle to complete the integrated look
