THE EXPERTS IN ROOM CONDITIONING

Friedrich AP260 air purifier

Friedrich's new air purifier features a superior 5-stage filtration system and Intelligent Auto Operation. Effectively filters dust, pollen, mold spores, pet dander and tobacco smoke in spaces up to 260 square feet (approx. 16' x 16' room).

The Friedrich air purifier is ideal for those allergy-suffers, pet owners or anyone who simply wants clean, healthy air in their home.

RATED FOR
260
SQ. FT. ROOMS

Intelligent Auto Operation
Detects impurities in the air and adjusts the cleaning level. Senses day or night and adjusts fan speed and lighting to maximize your comfort.

5 STAGE FILTRATION

Removes pollutants ranging in size from large particles down to airborne bacteria, harmful allergens, gases and unwanted odors.

5 Filters For Superior Air Filtration

- 1. Antibacterial Pre-filter**
Washable filter removes large particles: larger dust, human hair, pet hair and pet dander.
- 2. Antibacterial/Antifungal Multi-filter**
Effectively filters out smaller particles: dust, pollen, mold spores and allergens, while preventing bacteria and fungi.
- 3. High Performance HEPA filter with Antibacterial Coating**
HEPA filter removes 99.97% of all particles greater than 0.3 microns from the air: fine dust, pollen, mold spores, pet dander and tobacco smoke. Antibacterial coating prevents the growth of germs & mold.
- 4. Activated Carbon Filter**
The carbon filter absorbs gaseous pollutants including VOCs (volatile organic compounds), chemical vapors, and odors (pet, tobacco, cooking etc.)
- 5. Plasma Generator**
Ionized plasma field sterilizes and disinfects harmful airborne substances such as viruses and bacteria.
