### Miscellaneous
- Height with Leveling Legs Installed: 34 1/4"-35"
- Minimum Door Clearance Required: 25 1/2"
- Water pressure required: 20-100 PSI

### Gravity Drain Location
This rugged, compact drain pump installs easily. The sealed-reservoir drain pump is designed especially for applications where a floor drain is not readily accessible.
- Pumps drain water to the nearest drain
- Sealed reservoir prevents leaks and overflow, even during power outages
- Clog resistant; automatic power shut-off
- Rated at 8 ft for vertical lift and 20 ft for horizontal run
- Measures just 5 1/2"H x 4 1/2"W x 9 1/16"L

### Garden Hose Fitting (Supplied)
This fitting is designed to fit standard garden hoses. This allows the user to drain the unit when necessary.

### Water Line Connection
- If water line is connected directly behind the ice machine, allow an additional 2" clearance.
- Water pressure: 20-100 PSI

### Drain Pump for Clear Ice Machine
- 5 7/16" A
- 2 3/16" B

You appreciate little details. Only the best will do. For 80 years Aga has been synonymous with superior handmade craftsmanship. And now our signature undercounter refrigeration collection continues the tradition.
The Aga wine cellar is the ultimate combination of form and function. The signature design goes into any decor and premium features create the ultimate wine storage environment.

Precise temperature and humidity control keeps wines at the optimum storage conditions. Vibration free operation ensures your prized bottles rest quietly. Crafted of dual-pane, tinted UV-resistant glass, the door's wine-safe protects from damaging ultraviolet rays, while the ebony interior absorbs damaging light to optimize storage conditions. And a unique interior lighting softly glows through the wine cellar door.

Our wine cellar accommodates up to 54 bottles on perfectly contoured glide-out racks that cradle your wines. Even magnums and champagne bottles! Whether you're a connoisseur or someone who occasionally enjoys a glass of Chardonnay with friends, your bottles will be stored properly for years to come. So, whether you're a connoisseur or someone who occasionally enjoys a glass of Chardonnay with friends, your bottles will be stored properly for years to come.

Organization is easy too, with two signature storage options that can be used to the drawer's contents, no matter how much or how little is inside. Provides full extension drawer slides offer easy access to the drawer's contents and dishwasher safe pans are easily removed to accompany you to those used in professional kitchens. Clear lids allow you to easily check contents and its removable shelf system is compatible with Aga's undercounter refrigerator for ultimate room, bar, or kitchen.

Aga's refrigerated drawers turn convenience into a luxury. At just twenty-four inches wide, it fits almost anywhere in your home. The stainless steel interior brings commercial quality fresh food storage into your kitchen. And it is the greatest usable capacity in its class.

Aga's undercounter refrigerator offers the perfect marriage of style and convenience. Designed to fit almost anywhere in your home, it offers superior storage of snacks, beverages, and other foods in the office, family room, bar, or kitchen.

Using the most modern refrigeration technology, Aga has once again created a product that supports the competition in both style and function. Whether situated under the counter (built in an working height, of even placed side-by-side, the Aga undercounter refrigerator makes convenience a reality. A compact footprint efficiently fits 5.7 cubic feet of storage space, it has a sleek ebony interior that absorbs damaging light, low wattage lighting elegantly displays wines, and designed to fit under countertops with zero clearance for an integrated look.

Cabinet includes two glass interior shelves and three door shelves. Features include a digital thermostat that holds operating temperatures of 38 degrees to 60 degrees Fahrenheit for maximum room, bar, or kitchen.
