The Frontier Grill has an angled double lined lid which locks in the heat while keeping the exterior of the lid from becoming searing hot. Available in portable and built-in units. Ample cooking space makes it easy to enjoy delicious grilled meals that are cooked to perfection from the comfort of your kitchen or while relaxing outside.

Choose between 2 different touch controls:

### New - IntelliKEN Touch™ Control

IntelliKEN is a waterproof touch control system that integrates the latest swipe technology with user-friendly features such as Precision Control (PC) and Direct Temperature Feedback (DTF). Precision Control allows you to select the power setting (1 – 16) best suited for the food being cooked or the temperature you desire (150°F – 550°F). Direct Temperature Feedback (DTF) is our patent pending system giving you the ability to cook by temperature and time. Simply adjust the control to the desired temperature setting, set the timer and your dish is cooked to the correct temperature and time.

### Lite-Touch™ Control

Lite-Touch™ is our traditional control. Simply touch the On/Off circle and then raise or lower the heat setting by pressing the (+) or (-) graphic on the sealed moisture proof ceramic glass panel and you are instantly cooking!

The Kenyon Frontier All Seasons™ Grill is constructed of the highest quality, marine-grade stainless steel. And as all Kenyon products, backed by uncompromising quality, exclusive 3-year product replacement warranty, and the best customer service in the industry.
