

Crisp stir fries are cooked fast to seal in the flavor.

14" Family size high-wall heat wok

Similar to cooking with gas, the unique 1500W Butterfly Element quickly distributes heat up the walls of the wok. The heat-responsive aluminium layers then maintain this high heat to sear food.

15 precision heat settings to High Sear/425°F to emulate authentic Asian-style cooking. For best results, preheat for 10 minutes on 'High Sear' setting.

Cook 'n' Look tempered glass lid with adjustable steam vent allowing for the ideal amount of moisture in any dish.

Technical Specifications
