

With Cold Spin Technology

*How do you extract
AS COLD AS A COLD PRESS,
in a fraction of the time?*

*Juice more,
Store more,
Clean less.*

Technical Specifications

Cold Spin Technology	Allows juice to be filtered through a micro-mesh filter to ensure insignificant temperature transfer.
Elevated Juicing System	Unique elevated nozzle and super-size 70 Oz. juice jug allows a greater quantity of juice in the juice at one time.
Key Features	<p>Control Style: Features a 3 position switch 3 positions: FAST, OFF, and SLOW</p> <p>Speed: Low speed -6500 rpm High speed -13000rpm</p> <p>Quieter Operation</p> <p>Extra Wide - Whole Fruit Feed Chute</p> <p>Seal & Store 70 Fluid Ounce Juice Jug</p> <p>Durable Polymer Construction</p> <p>Removable 3.4L Pulp Bin</p>
Accessories	<p>Detachable Spout Nozzle</p> <p>Cleaning Brush</p>
Warranty	1 Year Limited Product Warranty
Wattage	850 Watts (120V) Universal Motor
Product Dimension	7" (W) x 15 3/4" (D) x 16 5/16" (H)
Weight	10.4 lbs
