

Element IQ™ puts the power where it's needed most. For each of the 8 pre-set programs, Element IQ™ delivers the right power at the right temperature at the right time and when adjusted for taste, remembers that too.

8 pre-set programs: Toast, Bagel, Bake, Roast, Broil, Pizza, Cookies & Reheat.

Backlit Easy-Read LCD calculates the correct time and temperature, illuminating orange during preheating and cooking and blue once the cycle is complete.
