ALBERTO RANGE HOOD 30 - 36 inches

ALBERTO

ALBERTO 30 - 36 inches

FEATURES

- Premium domestic range hood
- Stainless-steel construction
- Welded seams
- Hand-finished edges
- Heavy-duty blower
- Stainless-steel design filters dishwasher safe
- Time delay shut-off
- Light indicator for grease filter maintenance
- Light indicator for charcoal filter replacement
- Convertible (external venting or recirculating)
- Easy installation system
- Made in Italy

SPECS

- Motor capacity: 560 CFM
- Controls: Touch control
- Lights: 2 X LED
- ETL approved

ACCESSORIES

- Recirculation kit (not included)

PRODUCT PLUS

The ALBERTO is a box-design chimney hood in stainless steel. Change the desired extraction power level settings or turn the LED lights on or off with elegant glass touch-controls. An impressive extraction rate will have your kitchen odour free in no time. LED hood lighting illuminate your kitchen and helps you keep an eye on your cooking.

Light indicator for grease filter maintenance

The cooker hood automatically informs you when the metal grease filter designed for trapping grease in the air requires cleaning. It is of utmost importance to clean these filters to ensure cooker hood components are protected and to pre-vent bad odours caused by a build-up of grease.

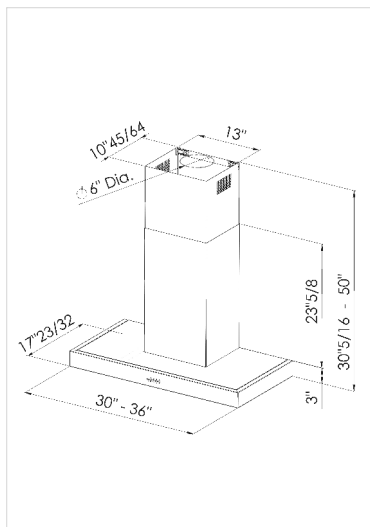

Light indicator for charcoal filter substitution

The cooker hood automatically informs you when the active carbon filter requires replacing. This filter is designed to absorb odours produced when cooking. It is of utmost importance to replace these filters regularly as they lose their efficiency and odour trapping performance.

Time delay shut-off

This function allows you to programme delayed cooker hood shutdown which, in the shortest time possible, provides the right level of air purity in your kitchen.

BELLINA RANGE HOOD 30 - 36 inches

BELLINA

BELLINA 30 - 36 inches

FEATURES

SPECS

- Motor capacity: 560 CFM
- Controls: Electronic push buttons soft touch
- Lights: 2 X LED
- ETL approved

ACCESSORIES

- Recirculation kit (not included)

PRODUCT PLUS

Combining classic design with powerful extraction, the BRAVO Chimney Cooker Hood from Forté Milano will help you keep a fresh kitchen, while bringing a sophisticated and streamlined look to your decor.

The BRAVO Cooker Hood delivers 4 different stages of extraction to allow you to tailor the power of your hood as needed, leaving your kitchen clear and odour-free. It uses washable design stainless-steel filters that capture oil and dust from the air, and can be easily washed by hand or in a dishwasher for added convenience.

The LED lighting in the hood provides improved visibility and ambient lighting while you are cooking, as well as low energy consumption. It has both re-circulation or extraction options, and is designed for wall mounting between furniture or as a stand-alone unit.

Light indicator for grease filter maintenance

The cooker hood automatically informs you when the metal grease filter designed for trapping grease in the air requires cleaning. It is of utmost importance to clean these filters to ensure cooker hood components are protected and to pre-vent bad odours caused by a build-up of grease.

VERTICE CEILING HOOD 36 - 48 inches

VERTICE

VERTICE 36 - 48 inches

FEATURES

- Premium domestic range hood
- Stainless-steel construction
- Welded seams
- Hand-finished edges
- Heavy-duty blower
- Washable grease filter
- Outlet diameter 6" 360° adjustable.
- Reduced overall dimensions of the motor box to allow installation in small spaces
- New double installation system which allows to fix the double to the masonry or directly to the false ceiling
- Light indicator for grease filter maintenance.
- Light indicator for charcoal filter replacement.
- Perimeter extraction.
- Possibility to install the motor in remote position
- Convertible (external venting or recirculating)
- Made in Italy

SPECS

- Motor capacity: 560 CFM
- Control: Remote control
- Lights 6 X LED

ACCESSORIES

- Recirculation kit (not included)

PRODUCT PLUS

Whilst this stunning VERTICE designer hood will give your kitchen a minimalist and stylish look, the performance is not compromised. The cooking fumes are forcibly extracted through a slit that runs along the perimeter of the hood which increases extraction performance whilst reducing cooker hood noise emissions. The hood boasts 4 speeds and a light indicator to inform you when the grease filters require cleaning. The powerful motor and 6 LED lights are controlled by a functional remote control. The hood can be fixed to the masonry or a false ceiling and, if required, the motor can be installed away from the unit (extraction only).

Light indicator for grease filter maintenance

The cooker hood automatically informs you when the metal grease filter designed for trapping grease in the air requires cleaning. It is of utmost importance to clean these filters to ensure cooker hood components are protected and to pre-vent bad odours caused by a build-up of grease.

Light indicator for charcoal filter substitution
