## Features

### Frost free

Keeps food fresher for longer periods. Eliminates ice and bacteria build-up, avoids unpleasant fridge odors.

### Duo cycle frost free technology

Provides more homogenous, energy efficient, and silent cooling. Prevents odor mixing.

### Hygiene+ antibacterial carbon filter

Photo catalyst carbon filter, eliminates bacteria, reduces fridge odour and ensures hygiene. The carbon filter can be reactivated easily, with just one day's exposure to sunlight.

### HygAIR ionizing technology

Eliminates airborne bacteria and odor forming molecules, by producing natural negative ions. And food stays fresher for longer.

### Illumination with white LED

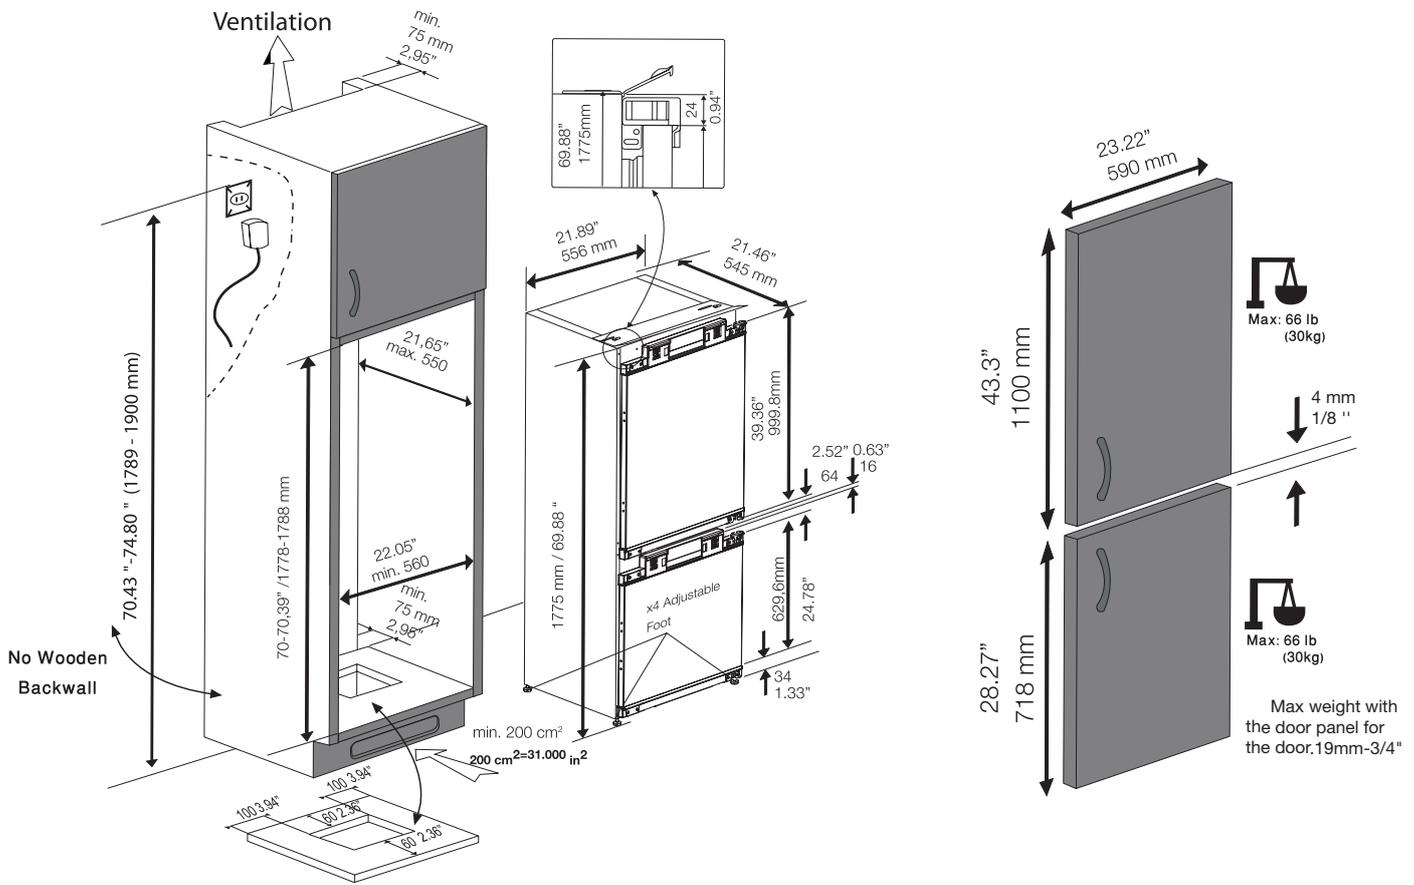

White LED provides a more aesthetic look inside your fridge and less energy consumption.
