

24 INCH BUILT-IN BOTTOM MOUNT REFRIGERATOR

BRFB1052FFBIN

Duo cycle frost free cooling Inner digital display Interior LED lighting Field reversibility of doors 3D door adjustment

Freezer Features

Automatic ice machine 3 freezer drawers

Dimensions

H x W X D: 71 7/16" x 21 7/8" x 21 5/8" Depth is without panel / without handles - Panel Ready design Order separate kitchen cabinet door from your cabinet manufacturer

In Harmony with Nature

Blomberg understands living well also means living intelligently and responsibly. It's a distinction that earned us the ENERGY STAR® 2017 Partner of the Year award. Featuring innovative technology that safeguards your food and ensures maximum freshness, our ENERGY STAR certified refrigerators also conserve energy, save money, and help protect the planet. The ultimate in eco-friendly engineering, Blomberg refrigerators are built with 99.9% lead-free materials, 100% free from ozone-depleting greenhouse gases, and manufactured with 85% recyclable components.

In Harmony With Your Life

Duo-Cycle Cooling

Ingenious Blomberg refrigerators are equipped with advanced multi-cycle, no-frost, silent cooling technology. Independently zoned and controlled cooling systems maintain even air temperature and humidity in separate freezer and fresh-food compartments, delivering enhanced food preservation and maximum energy efficiency. No air transfer between compartments means food in the freezer section freezes faster, items in the refrigerator stay fresher longer, and odors don't circulate.

Automatic Ice Machine

Whether you are getting ready for a big party or just keeping up with your busy family life, there is never a need to rush out and buy ice. The Blomberg automatic icemaker can produce up to 6 pounds of ice per day.

3D Door Adjustment

Attaining perfect alignment is easy and fast with Blomberg's 3D door adjustment that allows the hinges to remain fixed to the door during the process.
