Refreshing.

Mistina.

Low temperature cooking.

Operation

Automatic door opening. Rotary knobs and TFT touch display operation.

Clear text display in 25 languages. Option to save individual recipes (incl.

meat probe). Information key with use indicators. Side-opening door opens up to 180° angle.

Features

2000W full surface grill behind glass ceramic

Steam evacuation.

Meat probe with automatic shut-off

function. Actual temperature display.

Timer functions: cooking time, shut off time, short-term timer, stop watch,

Sabbath mode. Automatic boiling point detection. Capacity display of filter cartridge (if

connected to GF 111 700 descaling system).

60 W halogen light on the side. Hygienic stainless steel cooking interior.

Four rack levels.

Safety

Steam evacuation. Child lock. Safety lock Cooled housing with temperature

protection. Cleaning

Cleaning program. Drying program. Descaling program. Grease filter in front of convection fan, dishwasher-safe.

Planning notes

Door hinge not reversible. No other electrical appliances should be installed above the BS combi-steam

At no point may the drain hose be positioned higher than the bottom edge of the appliance. The outlet hose must also lie at least 4" lower than the appliance drain (see "waste water" drawing).

The outlet hose must not be longer than a maximum of 17'

The water connection (1) for the inlet hose must always be accessible and not located directly behind the appliance.

The connection of the outlet hose to the siphon (2) must not be directly behind the appliance and should be accessible.

If the water hardness exceeds 7° dH, GF 111 700 (3) or another water softening system must be installed when connecting the appliance. (Please contact your plumber for details.) The front of the appliance extends 1 7/8" from the cabinet front. When handle (optional) accassory is installed, the outer edge of the door handle extends 3 11/16" from the

cabinet front. Consider the overhang, incl. the door handle, when planning to open drawers next to the appliance.

Plan a gap of at least 3/16" between the appliance and adjacent cabinets. When planning a corner solution, pay attention to the 90° door opening angle.

To achieve the 21 5/8" installation depth, the hoses and connecting cable need to follow the slanted edge on the lower left hand corner of the housing and then be led down and up, respectively. The power outlet needs to be planned outside of the niche Plan a power outlet outside of the cutout niche.

Cold water connection (no hot water connection).

Supply hose 118" with 3/4" connection. Outlet hose (ø 1 ") 10 " (3.0 m) (HT-Hose).

Rating

Total rating 3.2 kW. Total Amps: 13 A. 208 / 220 - 240 V / 60 Hz Connecting cable 47 1/4" without plug (hardwire required).
