

# CR5B36MB

2.13" x 35.5" x 20.5" (H x W x D)

36" wide 208-240V radiant cooktop in black ceramic EuroKera glass with 5 elements, including 2 large dual ring elements and a warming zone

### Highlights:

Standard 36" width fits common kitchen cutouts

Smooth ceramic glass surface made with jet black EuroKera glass offers a modern look and fast heating

Powerful 7700W operation with a smart combination of element sizes to meet all cooking needs

### Product Features:

|                                   |                                                                                                                                          |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| 36" wide 5-burner radiant cooktop | Designed to fit common 34 3/4" x 19 5/8" counter cutouts                                                                                 |
| EuroKera glass surface            | Easy cleanup and elegant style on a smooth ceramic glass surface in a jet black finish                                                   |
| Extra large 3000W burner          | Rear right burner comes with a 9 3/4" diameter and powerful 3000W cooking power to handle large pots and help boil water with more speed |
| Large 2200W burner                | Left rear 2200W element is 9" in diameter to handle larger cooking vessels                                                               |
| 2 Standard 1200W burners          | Front left and front right burners are 6.5" in diameter to meet most cooking needs                                                       |
| Dual cooking zones                | Rear burners include an inner 5 1/2" burner, allowing you to save energy when heating smaller cookware                                   |
| Warming zone                      | Center 6 1/2" element operates at a low 100W to help keep cookware warm without overheating                                              |
| Push-to-turn knobs                | Controls require a gentle push to help prevent cooking accidents                                                                         |
| Residual heat light               | Indicator shows when the surface is still hot to touch                                                                                   |
