Advanced safety features include automatic shutoff, overflow protection, child lock, and residual heat indicator light

7200W of cooking power with boost functions for all elements

Two large 8 1/4" elements ideal for fast heating of large cookware

Product Features:

| | |
|------------------------|---|
| Induction heating | Electromagnetic heating technology where heat is generated inside your cookware, ensuring a more efficient process with less energy waste, faster heating, and a safer cooking experience |
| 7200W operation | Powerful elements with fast heating to meet most stovetop cooking needs |
| EuroKera glass surface | Easy cleanup and elegant style on a smooth ceramic glass surface in a jet black finish |
| 2 large elements | 8 1/4" elements in the front left and rear right operate at 2000W (with a 3000W capacity at the boost setting) for fast, powerful heating |
| 2 standard elements | 6 1/4" front right and rear left elements operate at 1500W (or 2000W using boost) to cover most general cooking needs |
| Smart burner layout | Largest elements are located diagonally, with maximum spacing to allow large cooking vessels in use simultaneously |
| Boost function | All cooking zones include a "boost" function that lets them operate at a higher setting for up to 5 minutes, ideal for reducing cook time when boiling water |
| Timer function | Allows you to program either burner to heat at a specified level for up to 99 minutes and either turn off when finished or display a countdown with an audible alert when the time is up |
