

Drop-in Cooktops

2x

Models available

Designer Fit

This 21" deep cooktop will drop easily into any kitchen counter surface for a custom-designed feel. With two size options, 36" and 30", you have cooktop options for any size kitchen.

Easy to Clean

Sealed burners on an encapsulated cooking surface, the seamless design of the cooktop and a stainless steel finish make this cooking surface easy to clean. Full coverage, deep-platform style grates allow for easy sliding of larger pots and pans.

Total Control

Sealed Dual Flow Burners™ unique to DCS appliances, put you in control. The powerful center burner—17,500BTU on the 36" cooktop, and 15,500LF burner on the 30" cooktop—boil fast, yet you can also gently simmer sauces on every burner at 140°F.

Ergonomic

The unique ergonomically designed metal dials offer complete control and at-a-glance confirmation of cooktop temperatures.

Ventilation

One-touch 30" and 36" downdraft system offers variable speed controls, brushed stainless steel finish and a retractable design that fits seamlessly into your island kitchen.
