Technical Drawings

1948 Vittorio Bertazzoni Sr founds SMEG (Smalterie Metallurgiche Emiliane Guastalla) in Guastalla, near Reggio Emilia in Italy.

1955 Production of ranges begins, reaching its peak with the presentation of the first SMEG brand range, Elisabeth, in 1956.

1963 The company presents Leda, the first SMEG-branded washing machine, thanks to an increase in production capacity to include laundry appliances.

1970 Niagara is released, the world's first 14-place setting dishwasher, meeting modern requirements for large wash capacities.

1971 Production of built-in appliances such as ovens and cooktops begins; these products will become part of the defining elements of SMEG's success.

1977 Franco Maria Ricci, one of Italy's most illustrious publishers and graphic designers, creates the SMEG logo which incorporates references to the burners of a gas cooktop and the round knobs of an oven. SMEG also begins its sponsorship of legendary Ferrari driver Gilles Villeneuve.

1985 Instinctively and incisively understanding new consumer requirements for more-elegant products, the company begins working with architect Guido Canali to create ovens and cooktops.

1991 SMEG's collaboration with important designers continues, with the company offering ovens and cooktops designed by architect Mario Bellini.

1995 The company begins working with architect Renzo Piano, a collaboration which will lead to the production of cooktops, ovens, fridges and the SMEG home garden.

1997 The FAB assortment of fridges is created, a product line destined to become an international style icon and status symbol.

2002 Guido Canali designs the SMEG Headquarters, for which he receives an honorable mention at the Milan Triennale's "Medaglia d'Oro all'Architettura Italiana" architectural awards in 2006.

2008 SMEG celebrates its 60th anniversary and presents products designed alongside Marc Newson, which leads to winning the Wallpaper Design Award the following year.

2010 SMEG receives the Good Design Award for an oven and cooktop from the Linea Aesthetic Line. The same prestigious recognition will also be assigned in 2012 and 2013 for other products in the range.

2012 The first denim-covered fridge, created in collaboration with Italia Independent, is released, followed by the SMEG500, a cooler designed with the appearance of a Fiat 500 car.

2014 The '50s Style small appliances line, created together with the deepdesign© studio, makes its debut and immediately wins over both customers and critics. SMEG wins the Good Design award once again, as well as the iF Design Award, and Red Dot Design Award.

2016 A collaboration between SMEG and Dolce&Gabbana creates the mesmerising 'Frigorifero of Art': a special edition of 100 FAB28s hand-painted by Sicilian artists. Portofino ranges are also introduced in North America.

HISTORY

SMEG has been producing domestic appliances with the finest Italian designs for more than 70 years, with a particular focus on aesthetics, ergonomics, and functionality.

Today, SMEG, an acronym for "Smalterie Metallurgiche Emiliane Guastalla", indicating the company's foundation in enamel work and metallurgy, has reached its third generation family ownership, and represents an international group with direct subsidiaries and distributors on five continents.

THE SMEG HEADQUARTERS DESIGNED BY ARCHITECT GUIDO CANALI

EXHIBITED AT THE 13TH VENICE ARCHITECTURE BIENNIAL IN 2012. IT WAS SHOWN IN THE ITALIAN PAVILION AS AN ARCHITECTURAL EXAMPLE OF EXCELLENCE MADE IN ITALY, A STRUCTURE IN TUNE WITH THE CULTURE OF THE REGION, THE LIFE OF THE PEOPLE, AND ENVIRONMENTAL SUSTAINABILITY.

SMEG believes that objects of daily use should not only fill an environment; they should create an atmosphere. This sensitivity, which has inspired a collaboration with great architects and designers of our time, is the perfect expression of the Made in Italy philosophy, which combines art and industrial expertise in everyday objects.

SMEG PRODUCTS

SMEG products, the perfect combination of refined aesthetics and technological reliability, have transformed simple kitchen appliances into designer furnishings, undisputed examples of the finest Italian design: a range of fully-coordinated domestic appliances with unmistakably-refined aesthetics and a well-defined identity of its own.

RANGES

SMEG's philosophy, "Technology with Style", fully emerges in its truly versatile series of pro ranges. SMEG's acclaimed pro ranges reflect the artistry and techniques of the passionate cook by offering a wealth of functions and features.

CPF48UGWH

VERSATILITY

an ample range of style and dimensions

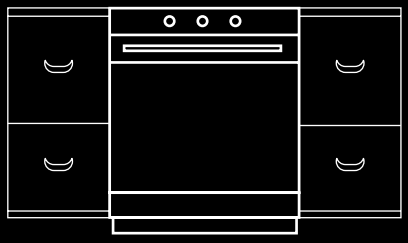
SMEG ranges are icons of design, combining classic SMEG style with outstanding performance. Inspired by the ranges favored by the world's great chefs, SMEG offers products where style and elegance meet versatility for people who genuinely love to cook.

PORTOFINO

OPERA

PROFESSIONAL STYLE

VICTORIA



BUILDING-IN SOLUTION

SMEG ranges can be elegantly slotted in-between kitchen furniture for a distinctive look that is totally safe, thanks to the excellent, insulation and outercooling system that prevents the sides of SMEG pro ranges from overheating.

MULTIPLE CONVECTION FANS

Many SMEG ranges have two convection fans that ensure uniform heat distribution, and allow you to cook large meals with ease.

AIR COOLING SYSTEM

The forced air recirculation system means that the sides, door and components inside the oven, remain cool, ensuring greater safety, and a longer life for the appliance.

VICTORIA RANGE

powerful traditional style

A passion for cooking deserves an outstanding tool to realize that passion, one that perfectly blends functionality with style.

EXTRA VOLUME
SMEG produces ovens with a wider cavity. 36" wide ranges have a net volume of 4.4 cu ft, which allows the use of wide baking trays.

TWO FANS
Many ranges with electric ovens have two fans that ensure uniform heat distribution, and allow you to cook large meals.

AIR COOLING SYSTEM
The forced fresh air recirculation system means that the sides, the door, and the components inside the range remain cool, ensuring greater safety, and a longer life for your appliance. The cooling system remains in-operation even when cooking is finished, continuing to function with the oven switched-off, so as to dissipate the heat that has accumulated inside the range.

EVERCLEAN ENAMEL
The specially-coated EverClean enamel prevents grease from adhering to the oven walls, to reduce cleaning time and effort.

FULL-LENGTH STORAGE DRAWER
Convenient space for kitchen utensils and oven accessories.

PORTOFINO RANGE

a charismatic identity

The kitchen is one of the most extensively-used environments in the house, where people come together to dine and share a space throughout the day. The technological developments introduced by SMEG serve to simplify everyday tasks. The company strives to understand and anticipate the needs of its users, who are demonstrating increasing interest in taking full advantage of the kitchen space.

Available in three different dimensions from 30 inches wide to 48 inches, SMEG Portofino ranges satisfy every space requirement.
Range ovens have different capacities, from 1.45 cu ft capacity to an ample 4.5 cu ft.

DUAL ULTRARAPID BURNER

The dual ultrarapid burner consists of a double crown, which combines an ultrarapid burner with an auxiliary burner reaching a maximum of 20,000 BTUs.

The burners are uniquely designed with different flame arrangements, and offer superior performance. From the smallest to the most powerful ultrarapid burner, the Portofino range can be used for a host of applications.

FULL-WIDTH GRATE

The gas cooktops are equipped with solid, heavy-duty cast-iron grates, covering the complete surface of the range. This extends the support surface to a maximum, providing an aesthetic, functional solution, which is perfectly aligned with the countertop, as well as sitting flush with other modular units to create a streamlined effect. This linear and ergonomic design helps provide the range with both a professional look, and a professional approach to cooking.

PORTOFINO RANGE

boundless italian style

This colorful range, inspired by the rich tones of the Mediterranean, offers superb performance, and is characterized by the clean lines typical of professional kitchen design. The new PORTOFINO range is available in 8 different colors and 2 different configurations, all-gas and dual-fuel.

TRIPLE-FAN TECHNOLOGY

The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance.
The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.

ISOTHERMIC-PROOF CAVITY

This new cavity is characterized by its unique shape, with rounded corners and smooth, uniform walls, for maximum thermal insulation and optimal energy performance.
The perfect insulation of the cavity also helps reduce pre-heating time. The multifunction version, for example, reaches a temperature of 392°F in just 6 minutes, a time saving of 50% compared to a standard oven.

5 COOKING LEVELS

The different cooking levels enable maximum flexibility of use, and allow different courses to be cooked simultaneously. This enables users to optimize the time spent cooking, preparing multiple courses quicky and efficiently while preserving distinctive flavors.

COOKING ON STONE

Portofino ovens can be equipped with a large refractory stone for quick and easy baking, which is ideal for cooking healthy homemade pizza and bread, as well as fish and vegetables.
By activating the Turbo function, you can cook two pizzas simultaneously, in just 4 minutes.

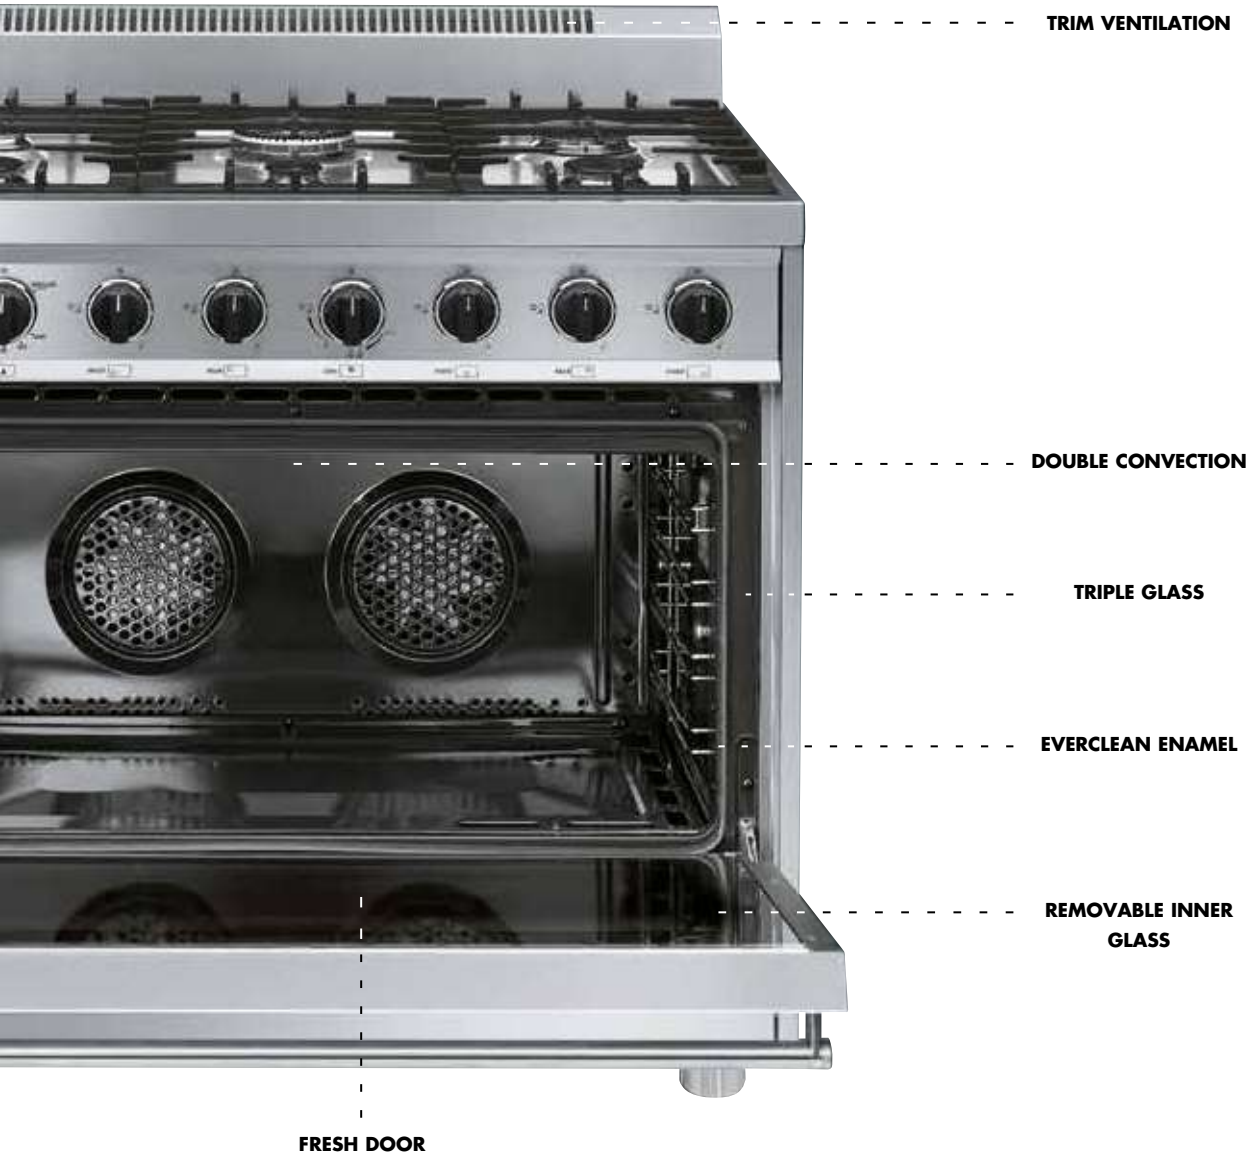
SOFT CLOSE

The oven door is equipped with a Soft Close system which closes the door in a silent, soft motion, with no need to push it.

PRO-STYLE RANGE GAS OVEN SERIES

for foodies who love to bake and roast

Ideal for baking and roasting most types of food, the flame on a gas stovetop lights immediately, giving you instant heat, and you can control the heat level with precision. When you turn the flame off, the food can stay on the range without worry of overcooking because the elements cool rapidly. The C-Series are available in sizes from 24'' to 36''.



OPERA

timeless elegance

SMEG ranges are icons of design, combining classic SMEG style with outstanding performance. Inspired by the ranges favored by the world's great chefs, SMEG offers products where style and elegance meet versatility for people who genuinely love to cook.

SUPER BURNER
Central double-inset super burner 15,000 BTU.

TRIM for ventilation.

ELLIPTICAL BURNER for irregular cookware.

ANTI-OVERFLOW COOKTOP
This feature avoids spills of liquid, thus protecting the kitchen furniture on either side.

CAST-IRON PAN STANDS
Strong cast-iron grates and matte black burner caps.

STORAGE STEEL DRAWER
Full-width stainless steel drawer ensures that all of your useful cooking accessories are within arm's reach.

ELECTRIC BARBECUE-GRILL
For convenient indoor grilling.

Gas double convection mode
Broil mode
Defrost mode
Fan option for static gas
EverClean enameled oven interior
4 shelf positions
Air-cooled triple-glazed removable door
2 halogen oven lights
Oven capacity: 4.4 cu ft

GAS RANGETOP:
Heavy-duty cast-iron grates
Full-width grates
Sealed burners
Automatic electronic ignition
Safety valves
LP gas conversion kit included

6 GAS BURNERS:

Front-right:	6,200 BTUs
Back-right:	10,000 BTUs
Front-center:	3,400 BTUs
Back-right double-inset super burner:	15,000 BTUs
Front-left:	6,200 BTUs
Back-left:	3,400 BTUs

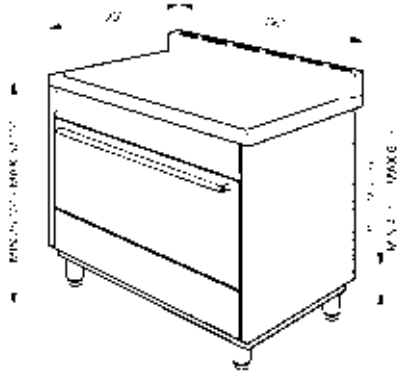
SAFETY:
Gas safety valves
Ventilated door with cooling system to prevent overheating
Anti-tilting norms satisfied
Suitable for built-in applications

Connected load nominal power: 120V
Amp supply required: 120V - 1.2 Amps
Voltage rating: 120V 60Hz
Gas inlet location: back top-right

ACCESSORIES INCLUDED:
1 baking tray
1 chrome shelf
1 wire rack
1 wok ring
1 moka ring

OPTIONAL ACCESSORIES:

KITI36XU	Island trim
8MCCU	"Classic" control knob kit



For technical drawing in metric, see page 174

Programmable timer with touch display
Air-cooled double-glazed removable door
True European Double convection
EverClean enameled oven interior
5 shelf positions
2 oven lights
Oven capacity: 4.5 cu ft
Bake element 1.2 kW
Broil element 1.8 kW
Convection element 2.9 kW

GAS RANGETOP:
Heavy-duty cast-iron grates
Full-width grates
Sealed burners
Automatic electronic ignition
Safety valves
LP gas conversion kit included

5 GAS BURNERS:

Front-right:	3,400 BTUs
Back-right:	6,200 BTUs
Central double-inset super burner:	14,000 BTUs
Front-left:	9,000 BTUs
Back-left:	6,200 BTUs

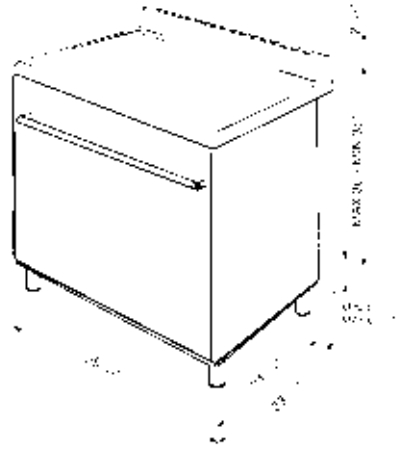
SAFETY:
Gas safety valves
Ventilated door with cooling system to prevent overheating
Anti-tilting norms satisfied
Suitable for built-in applications

Connected load nominal power: 240/120V – 3.7kW
Amp supply required 240/120V 15 Amps
Voltage rating: 240/120V 60Hz
Gas inlet location: back top-right

ACCESSORIES INCLUDED:
1 baking tray
2 chrome shelves
1 moka ring

OPTIONAL ACCESSORIES:

KITI9XU	Island trim
KITPS9U	Stainless steel toe kick



For technical drawing in metric, see page 174

COOKING ACCESSORIES

SMEG offers a variety of accessories for ovens, cooktops, and ranges, which enhance the appliances, and provide added flexibility.

GT1T-2

1-LEVEL TELESCOPIC SHELF - TOTAL-EXTRACTION

Pair of fully-extractable telescopic guides.
ALSO AVAILABLE: GT1P-1 Telescopic shelf set with 1 partially-extractable level.

DICAR

SIMMER PLATE

5pc simmer plate pack suitable for use on all SMEG ranges and gas cooktops.

PRTX

PIZZA STONE WITH HANDLES

Refractory pizza stone with handle, suitable for use with SF399XU. With the oven set at 250°, the pizza stone allows you to cook a very Italian pizza in only 4 minutes.

GO120

CAST-IRON OPEN GRIDDLE FOR BARBECUE

The GO120 is intended to replace the plate on A3XU7 ranges with the electric griddle, to convert it to a barbecue.

TPKTR9

TEPPANYAKI GRILL PLATE

Stainless steel grill plate designed for cooking teppanyaki dishes. Suitable for Portofino 36" and Victoria series.

WOKGHU

CAST-IRON WOK SUPPORT

The WOKGHU offers additional stability when using a wok. Suitable for most ranges and cast-iron gas cooktops, except for all "Classic" front control 24" gas cooktops.

MODEL/DESCRIPTION/COMPATIBLE WITH:

TPKCPF30	Teppanyaki grill plate suitable for Portofino 30"	CPF30
BGTR9	Cast-iron grill plate suitable for Victoria and Portofino 36"	CPF36

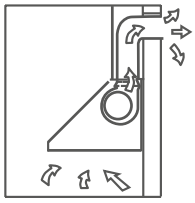
Nominal power: 445 W

OPTIONS:

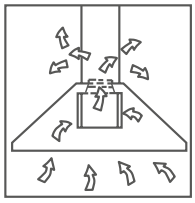
FLTK-1	Charcoal filter
KITCMNKPU	Cream chimney extension
KITCMNKXU	Stainless steel chimney extension
KITCMNKBU	Black chimney extension

VENT OUT RECIRCULATION

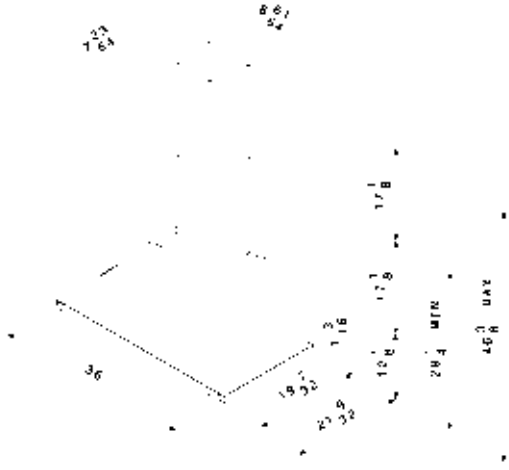
SMEG hoods can operate in either a ducted or recirculation mode. Best performance is achieved in the ducted mode, the preferred choice wherever possible.



Extractor hood: extracts the cooking fumes and expels them outside, using a vent kit. The diameter of the ducting hose should match the vent outlet of the hood.



Filter hood: extracts the cooking fumes and passes them through active charcoal filters, recirculating the cleaned air into the room.



For technical drawing in metric, see page 175

KTU36P hood with TRU36GGP range

KD120XU

120 CM (APPROX. 48") VENTILATION HOOD,
STAINLESS STEEL

"Classic" Design
Wall-mounted ventilation
Stylish ergonomic control knobs
Premium-quality stainless steel
Front-mounted controls for lights and vent speeds

1 twin fan motor 240 W
4 speeds
2 halogen bulbs (2x20W)
4 dishwasher-safe stainless steel grease filters

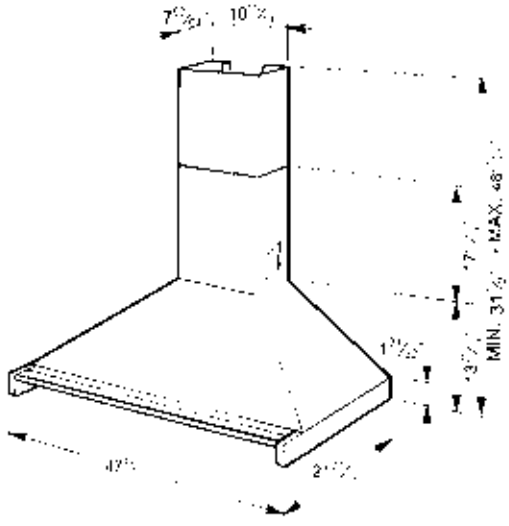
Vented or recirculating

770 CFM max setting
Vent duct size: 6"

Voltage rating: 120V/60Hz/4.5 Amps
Nominal power: 485 W

OPTIONS:

FLTK1	Charcoal filter
KITCMNKD	Chimney extension
KITREDCFM	CFM reducer



For technical drawing in metric, see page 175

KD90XU

For technical drawing in metric, see page 175

KSM36XU

90 CM (APPROX. 36"), VENTILATION HOOD,
STAINLESS STEEL

Flat Design
Wall-mounted ventilation hood
High-quality stainless steel
Front-mounted controls for lights and vent speeds

1 motor
Vented or recirculating
4 speeds
3 halogen lights (3x20W)
3 dishwasher-safe grease filters

600 CFM max. setting
Vent duct size: 6"
Voltage rating: 120V/60Hz/4.5 Amps

OPTIONS:
KITFC161 Charcoal filter
KITSMNKSM Chimney extension

FEATURES AT A GLANCE

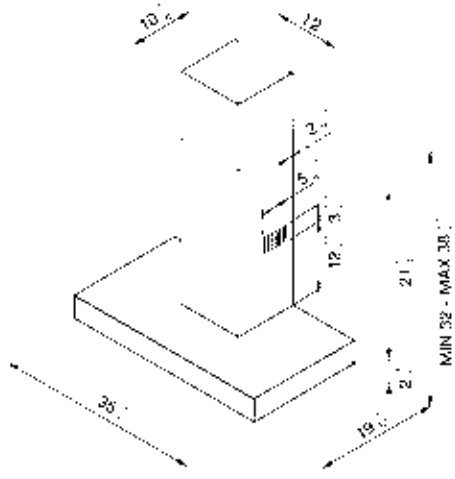
To assist in the selection of the right hood, a number of symbols appear beneath each model, and help to check and compare the products on offer. Some examples are shown here, but details of the full range of symbols can be found at the back of the catalogue.

Electronic display to give a visual reminder of the options selected

Touch control panel, all options selected at the touch of a fingertip

Intensive/turb setting, when extra-fast extraction is required

Warning light(s), to advise when filters need changing



For technical drawing in metric, see page 175

KSM30XU

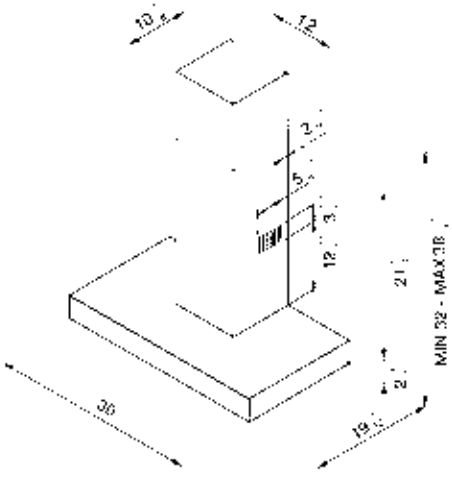
30" VENTILATION HOOD,
STAINLESS STEEL

Flat Design
Wall-mounted ventilation hood
High-quality stainless steel
Front-mounted controls for lights and vent speeds

1 motor
Vented or recirculating
3 speeds
2 halogen lights (2x20W)
2 dishwasher-safe grease filters

600 CFM max. setting
Vent duct size: 6"
Voltage rating: 120V/60Hz/4.5 Amps

OPTIONS:
KITFC161 Charcoal filter
KITSMNKSM Chimney extension
KITREDCFM CFM reducer



For technical drawing in metric, see page 175

KSM24XU

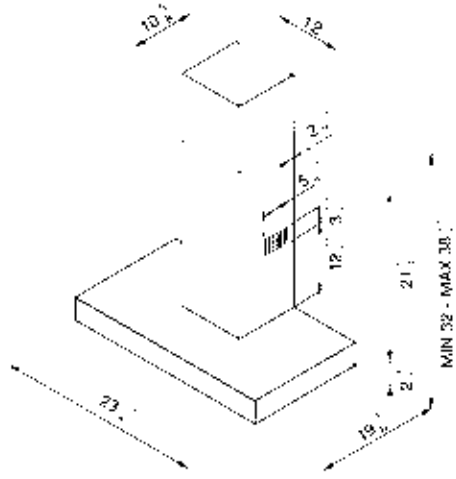
60 CM (APPROX. 24"), VENTILATION HOOD,
STAINLESS STEEL

Flat Design
Wall-mounted ventilation hood
High-quality stainless steel
Front-mounted controls for lights and vent speeds

1 motor
Vented or recirculating
4 speeds
2 halogen lights (2x20W)
3 dishwasher-safe grease filters

600 CFM max. setting
Vent duct size: 6"
Voltage rating: 120V/60Hz/4.5 Amps

OPTIONS:
KITFC161 Charcoal filter
KITSMNKSM Chimney extension
KITREDCFM CFM reducer



For technical drawing in metric, see page 176

KUC48X

48" PRO-STYLE, UNDER-CABINET HOOD, STAINLESS STEEL

Pro-Style
Under-cabinet hood
High-quality stainless steel
Pro-Style and Portofino knobs

1 motor
Vented or recirculating
4 speeds
2 halogen lights (2x20W)
3 dishwasher-safe grease filters

600 CFM max. setting
Vent duct size: 6"
Voltage rating: 120V/60Hz/4.5 Amps
Nominal power: 455 W

OPTIONS:
FLTK-1 Charcoal filter

KUC36X

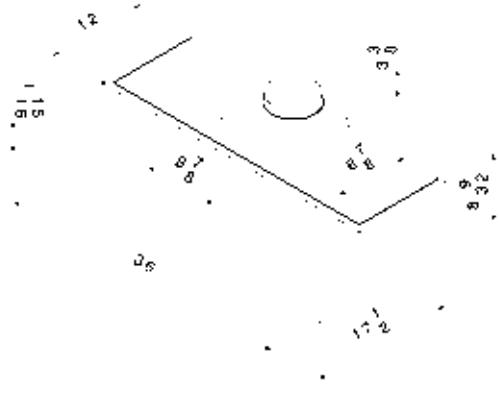
36" PRO-STYLE, UNDER-CABINET HOOD, STAINLESS STEEL

Pro-Style
Under-cabinet hood
High-quality stainless steel
Pro-Style and Portofino knobs

1 motor
Vented or recirculating
4 speeds
2 halogen lights (2x20W)
3 dishwasher-safe grease filters

600 CFM max. setting
Vent duct size: 6"
Voltage rating: 120V/60Hz/4.5 Amps
Nominal power: 455 W

OPTIONS:
FLTK-1 Charcoal filter



For technical drawing in metric, see page 176

KUC30X

30" PRO-STYLE, UNDER-CABINET HOOD, STAINLESS STEEL

Pro-Style
Under-cabinet hood
High-quality stainless steel
Pro-Style and Portofino knobs

1 motor
Vented or recirculating
4 speeds
2 halogen lights (2x20W)
2 dishwasher-safe grease filters

600 CFM max. setting
Vent duct size: 6"
Voltage rating: 120V/60Hz/4.5 Amps
Nominal power: 455 W

OPTIONS:
FLTK-1 Charcoal filter

KUC24X

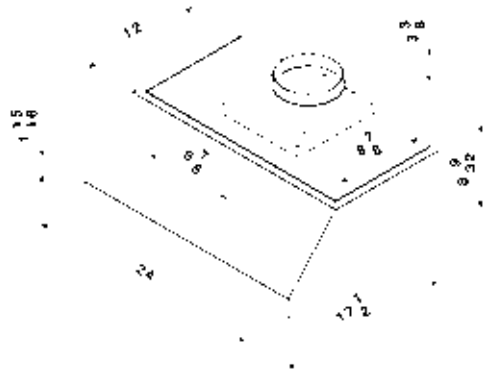
24" PRO-STYLE, UNDER-CABINET HOOD, STAINLESS STEEL

Pro-Style
Under-cabinet hood
High-quality stainless steel
Pro-Style and Portofino knobs

1 motor
Vented or recirculating
4 speeds
2 halogen lights (2x20W)
2 dishwasher-safe grease filters

600 CFM max. setting
Vent duct size: 6"
Voltage rating: 120V/60Hz/4.5 Amps
Nominal power: 455 W

OPTIONS:
FLTK-1 Charcoal filter



For technical drawing in metric, see page 176

OVENS

Exceptional materials, state-of-the-art technology, and an uncompromising approach to aesthetics are the guiding principles behind SMEG's acclaimed built-in ovens.

SFU7302TVX

CLEANING MADE SIMPLE

maximum attention to hygiene

VAPOR-CLEAN

The eco-friendly Vapor-Clean function facilitates cleaning through the use of steam. This steam is generated by inserting a small amount of water into the groove in the cavity, with no need for chemical additives. This process also uses less energy.

SELF-CLEANING

This automatic cleaning function works by heating the inside of the oven to 930°F to burn off any grease and dirt. For a safer environment, all self-clean ovens feature quadruple-glazed door, and Fresh Touch door.

TILTING GRILL

The grill can be easily unhooked to move the heating element away, and clean the roof of the appliance in one simple step.

EVERCLEAN ENAMEL

The enamel finish of the oven cavities have a special lining that helps to reduce the amount of dirt and grime that adheres to the surface.

EUROPEAN CONVECTION

Many SMEG ovens feature true European convection, where an additional heating element heats the air as it comes through the convection fans, allowing for more-even and more-efficient heating.

FRESH TOUCH DOOR

All pyrolytic ovens feature a Fresh Touch door, which means that during the pyrolytic cleaning cycle, the outer glass will become no hotter than 130°F. A special device also locks the door for the duration of the process, which along with quadruple-glazed doors, provides total safety.

REMOVABLE INNER DOOR

The single flat surface of the inner glass door is totally removable, to make cleaning an easy task.

SPECIAL FUNCTIONS

a truly Italian pizza in 4 minutes

REFRACTORY STONE

A pizza stone accessory placed at the base of the oven cavity above the lower heating element allows for a perfect pizza to be cooked in just 3 to 5 minutes.

Some SMEG wall ovens are equipped with a special system which places the heating element in direct contact with a pizza stone accessory, allowing you to create perfect, delicious, evenly-cooked pizzas in just 3 to 4 minutes, or 5 minutes with toppings. They can also provide excellent results when cooking breads, pies, and more, even vegetables, and fish in foil without having to dry them out.

SFU6104TVS

60 CM (APPROX. 24") LINEA DESIGN
MULTIFUNCTION OVEN, MYSTIC GRAY GLASS

Linea Design
Multifunction oven with 10 cooking modes

Touch screen controls

COMPACT OVENS AND COFFEE MACHINES

Small space appliance engineering meets multi-tasking cooking technologies to create state-of-the-art kitchen appliances that truly deliver fine cuisine and delightful beverages right at home.

SU45VCX1 atop CMSU6451X

COMPACT APPLIANCES

personality and style

SMEG offers design-coordinated compact appliances with multiple functions for your kitchen, allowing for the creation of a small, efficient work area for the cook that has an eye for personality and style.

COMBINATION STEAM OVEN, A HEALTHY LIFESTYLE

The combination steam oven offers a variety of cooking solutions in one appliance for maximum user flexibility. It can be used either as a steam oven, or as a traditional oven, or alternatively the two methods can be combined allowing the user to cook the tastiest dishes in the healthiest way possible.

The oven is also equipped with a broiler to brown food at the end of the cooking time and give it a delicious crispy finish. Steaming is also ideal for cooking different foods simultaneously that require different cooking times, because the natural ingredients absorb only enough water as is necessary.

SMEG offers a warming drawer which circulates warm air in order to heat up plates quickly and evenly. The base of the drawer is fitted with a non-slip mat to prevent plates and dishes from sliding when the drawer is opened or closed.

INNOVATIVE WATER FILLING SYSTEM

The water is drawn in through a flexible tube which disappears into the cavity when it is not used. This discrete system has no impact on the volume of the cavity or the oven's interior or exterior aesthetics, meaning that the SMEG combi-steam oven has one of the largest compact cavities and is one of the best looking ovens on the market.

COFFEE MACHINES

a perfect beginning

SMEG offers built-in machines to complete your kitchen, to make professional espresso and cappuccino in the comfort of your home. The built-in coffee machine utilizes a 15 bar pressure pump. This maximizes the flavor extraction from the coffee beans, optimizing the pour, resulting in a delightful crema for a perfect cup of coffee every time.

You can use either **ready-ground coffee or beans** (with an adjustable grinding function at 13 levels) and prepare **one or two cups** at the same time.

All coffee machines featured in our current range have **clear and easy-to-use displays.** Some models feature touch control displays with large, clear, intuitive menus.

5 adjustable coffee lengths, **5 levels of coffee strength** (Extra-Light, Light, Medium, Strong & Extra Strong) and 3 adjustable coffee temperatures.

An **accurate cleaning process** starts every time the machine switches on or switches off to guarantee maximum performance.

All SMEG coffee machines have an **automatic cappuccino-maker** that will whisk milk into a delicate foam directly into the cup.

SFU4104VCS COMBI STEAM

60 CM (APPROX. 24") LINEA DESIGN
BUILT-IN STEAM COMBINATION OVEN, MYSTIC GRAY GLASS

Linea Design
Steam combination oven with 14 cooking modes

Touch screen controls
Mystic Gray glass finish
Color TFT touch screen display
50 automatic cooking programs
10 customizable recipes
Electronic temperature control

60 CM (APPROX. 24''), FULLY-AUTOMATIC COFFEE MACHINE WITH MILK FROTHER, FINGERPRINT-PROOF STAINLESS STEEL

"Classic" Design
Fingerprint-proof stainless steel finish
Colour TFT soft touch-screen display
Coffee function: regular or double coffee
(1 or 2 cups at the same time)
Automatic cappuccino maker with separate tank for milk
Hot water function for tea or other hot drinks
Rinsing function and descaling function
Coffee intensity adjustable (5 levels):
Extra-Light, Light, Medium, Strong, Extra-Strong
Coffee length adjustable (5 levels)
Adjustable coffee temperature (3 levels)
Adjustable coffee grinder (13 levels)
Programmable automatic switch-on
Automatic energy saving stand-by
Programmable multi-language display
Coffee bean container
Separate container for ground coffee
Removable water tank
Removable container for coffee grounds
Frothing nozzle for cappuccino
Adjustable coffee dispenser (for tall or short cup)
Drip tray
4 lights
Telescopic guides with Soft Closing
Semiprofessional stainless steel conical grinder
Stainless steel 0,5 L thermal carafe with autoclean system

Capacity of water tank: 81 oz
Capacity of coffee bean container: 0.77 lbs
Pump pressure: 217 psi
Connected rating (nominal power): 1,350 W - 11 Amps
Tension/frequency: 120V 60 Hz
Pump pressure: tension/frequency: 120V 60 Hz

WINE COOLERS

Italy has the largest and most diversified wine production in the world. The charm of the wine world and the importance of its preservation have inspired SMEG to develop this range of wine coolers.

Designed for those who love to entertain or have a real passion for wine, these are must-have kitchen appliances. Wine is stored at optimum temperatures and ideal humidity conditions to ensure it matures properly, so you can enjoy your favorite bottle to its fullest.

CVIU318RX
atop CPS315X

WINE COOLERS

wines stored with the utmost care

SMEG presents wine coolers developed for conserving fine wines and impressing guests. Equipped with spacious shelves finished in untreated wood, they store different shapes and sizes of bottles, from classic Bordeaux blends to Magnums.

PERFECT PRESERVATION

Finished with UV-ray resistant glass, **protecting against harmful UV rays which can damage the quality of the wine,** and a motor/ compressor designed with particular care, the wine cooler protects bottles from harmful vibrations.

SHELVES

Made from **Slavonian Oak,** used traditionally by Italian winemakers to make barrels as it is known for its tight grain, low aromatics and medium-level tannins. **Some shelves are telescopic,** so wines can be removed with ease, safely and conveniently.

CONTROLS ON THE EXTERIOR

The touch control display on the glass door allows you to set temperature and humidity parameters without the door opening. It is possible to independently adjust the humidity level, as well as the temperature in order to ensure the appropriate environment for different bottles. The temperature can be set between 41° and 68°F, guaranteeing optimal conditions for each bottle of wine.

Under-counter models can **hold** up to 38 wine bottles.

TAILOR-MADE PROFESSIONAL CONSERVATION

a wine enthusiast's dream

The new SMEG wine coolers use the latest technology to correctly store and age wine. The materials used have been carefully selected, in cooperation with expert sommeliers, who have helped create a range of excellent technical and high-quality products.
SMEG wine coolers are entirely made in Italy, as the result of the know-how and attention to detail that only an Italian company with a long and consolidated experience can guarantee.

HUMIDITY CONTROL

In order to preserve wine for a long time, it's essential to maintain the correct level of humidity within the wine cooler. If the level of humidity is lower than 50%, the wine cooler is too dry, and this can cause the corks to become brittle, and trigger wine oxidation. On the other hand, a level of humidity higher than 85% can cause the formation of mold on the labels, which can spread to the corks, and the wine cooler itself. With a level of humidity between 60% and 80%, SMEG wine coolers guarantee optimal preservation of wine.

LIGHT

Solar light, and UV rays in-particular, can alter the wines (organoleptic structure), ruining its balance and flattening its scent; red wine loses its tone, while white wine takes on a yellowish color.
Thanks to the SMEG wine coolers "Eclipse" black-glass technology, the wine is perfectly shielded. The layered glass is a result of careful stylistic and qualitative research, and it enhances the wine coolers function: from a technological point of view, it protects from damaging light, and from an aesthetical point of view, it has a great visual impact, and gives maximum transparency when the light is on, and complete darkness when the light is off.
The choice of using cold LED lighting, which can be turned on from the outside without opening the door, maintains a constant temperature, and provides perfect visibility on the racks.

CVIU338RX

60 CM (APPROX. 24") BUILT-IN UNDER-COUNTER
WINE COOLER

"Classic" Design
Right-hand hinged
Fingerprint-proof stainless steel and black glass finish
Compact LCD display
Maximum storage capacity: 38 bottles
2 fixed wooden shelves
3 removable wooden shelves with telescopic guides

COOKTOPS

High-quality materials and uniquely-designed grates and burners distinguish SMEG cooktops.

PGFU30X

PU75ES

72 CM (APPROX. 28") PIANO DESIGN GAS COOKTOP, POLISHED STAINLESS STEEL*

Piano Design
5 burners

Rear-Left:	8,000 BTUs
Front-Left:	3,500 BTUs
Center double-inset super burner:	12,300 BTUs
Rear-right:	5,500 BTUs
Front-right:	3,500 BTUs

Stainless steel base
Stainless steel control knobs
Stainless steel grates
Stainless steel burner caps
"EverShine" invisible finish on burners and grates protects against heat tarnish
Automatic electronic ignition
Safety valves
Adaptable for LP gas
Gas inlet/power supply location: back-right

Voltage rating: 120V 60Hz 0.1 Amps

OPTIONS:
GP75ES Set of st/steel grates and burner caps

*Note for cooktops with polished stainless steel pan stands: when exposed to a direct flame, all polished stainless steel will tarnish. EverShine invisible finish on the burners and grates of the PU75ES and the PU64ES will reduce heat tarnish.

PU64ES

60 CM (APPROX. 24") PIANO DESIGN GAS COOKTOP, POLISHED STAINLESS STEEL*

Piano Design
4 burners

Rear-left:	8,000 BTUs
Front-left:	5,500 BTUs
Rear-right: rapid burner	10,000 BTUs
Front-right:	3,500 BTUs

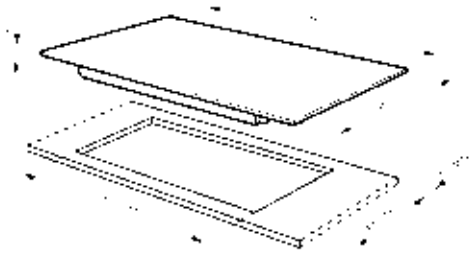
Stainless steel base
Stainless steel control knobs
Stainless steel grates
Stainless steel burner caps
Automatic electronic ignition
"EverShine" invisible finish on burners and grates protects against heat tarnish
Safety valves
Adaptable for LP gas
Gas inlet/power supply location: back-right

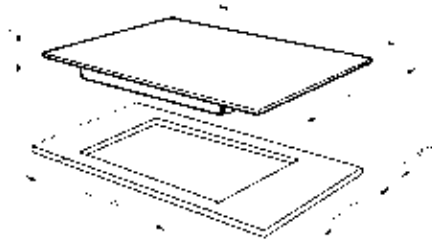
Voltage rating: 120V 60Hz 0.1 Amps

OPTIONS:
GP64ES Set of st/steel grates and burner caps

EVERSHINE: PERFECT GLOSS FINISH

The polished stainless steel burner caps and pan stands of the 24" and 28" cooktops have been coated with a special transparent EverShine treatment that makes them highly resistant to heat. The treatment also attenuates tarnishing when in direct contact with the gas flame.





For technical drawing in metric, see page 176

Melting/low-temperature cooking function
Indication of minimum pan diameter

Residual heat indicator for each zone
Protection against accidental start-up
Automatic safety cut-out
Individual timer for each zone
Child safety lock

Voltage rating: 240/208V 60Hz
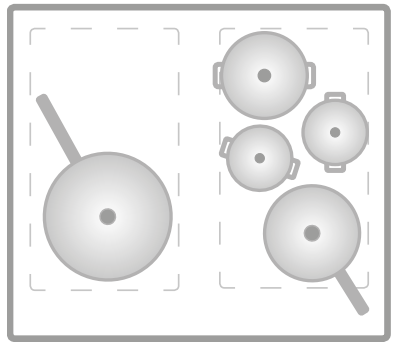
Connected load (nominal power): 11.10 kW - 46 Amps
Electrical - single phase 3 or 4-wire cable required, 60 Hz, fused on both sides of line with ground

For technical drawing in metric, see page180

BRIDGE ZONE



Unlike standard induction cooktops which are divided into different cooking zones where size and position is restricted, these cooktops have large bridge zones which can be divided into front and rear zones.
The bridge zone detects the size and position of the pots and pans, and heats up the exact spots where they stand, providing optimum heat distribution and efficiency. This allows several pans to be used at once, large or small, offering freedom of placement, and greater flexibility.

SEU365ETB

90 CM (APPROX. 36") CERAMIC COOKTOP, BEVELED

5 high-light radiant zones:

REFRIGERATORS

SMEG's '50s Retro Style line is a combination of technology and aesthetics, functionality and style, which evokes the unmistakable shapes and atmospheres of the '50s stylosophy.

Bright colors, rounded lines and retro styling are reinterpreted with a modern view to create products which become the stars of the kitchen.

FAB28UITR1

SMEG REFRIGERATION

exuding technology

A variety of refrigerators, freezers, and combinations are available in different sizes and splits, freestandings or built-in.

BUILT-IN

FRENCH DOOR

SPECIAL FEATURES

high performance

NO FROST

In "No Frost" appliances, forced air is circulated though the fridge and freezer sections separately using 2 evaporators, **preventing ice from forming on the sides, and meaning that you don't have to manually defrost.**

LIFE PLUS

Some models have a special compartment that is kept at a **controlled temperature of 0°C/32°F,** so that perishable foods can be preserved for longer.

FAST FREEZING

This option is particularly useful when you want **to freeze a large quantity of fresh food**. Activating the fast freeze function a couple of hours before introducing fresh food, the freezer gets ready to work on full power, bringing the temperature rapidly down.

AUTOMATIC DEFROST

This system is a time saving device that works by automatically defrosting at regular intervals, eradicating the need to defrost altogether.

SMEG FIAT 500

two Made in Italy leaders, one outstanding idea

GOOD DESIGN

Born from an exciting collaboration between **FIAT 500 and SMEG**, a relationship that dates back to the 1950's, is an exculsive project which brings together two brands synonymous with the world of vintage style, design, and technological know-how. The eye-catching outcome from this merger of form and function is an extraordinary line of beverage coolers that are hand made with genuine FIAT 500 parts!

SPACE FOR STYLE

SMEG '50s retro-style

Appliances that embody the glamor and smooth forms of the 1950s. SMEG '50s retro-style refrigerators have become recognized around the world as cult objects.

This aesthetic line is composed of the FAB5 mini cooler, the one-door FAB28 fridge, and the combined, frost-free, FAB32 refrigerator with bottom freezer (shown below in pastel blue).

Contemporary design, functionality, and low energy consumption combine to create this desirable-but-essential household object.

2 adjustable thermostats
Refrigerator: 8.2 cu ft capacity
3 adjustable glass shelves and 1 fruit and vegetable container
1 bottle storage shelf
Door: 3 adjustable balconies
Frost-free Freezer: 3.5 cu ft capacity
1 compartment with pull-down flap
Fast-freezing compartment

With a frost-free freezer, and nearly 76" of height, it is useful in every kind of kitchen; available in 8 colors

INGENIOUS STORAGE SOLUTIONS

'French door' style

Large capacity refrigerators are much-in-demand in today's busy world, and it is important to choose the right one to match your lifestyle. SMEG offers large models in both the 'French door' and 'side-by-side' styles to suit diverse needs, and all have timesaving frost-free freezers, with no need to defrost, along with extra-cool compartments in the refrigerator section.

A maxi refrigerator-freezer with two doors and two drawers, combining large capacity, cutting-edge design and styling with sharp, clean lines.
Innovation and flexibility are the distinctive features of the new SMEG high tech line of refrigerator-freezers, where large storage capacity, high performance and low power consumption are combined with an attractive, stylish design.

ODOR FILTER
A special device neutralizes odors by filtering the cold air that circulates inside the refrigerator.

LIFE PLUS DRAWERS
Kept at the controlled temperature of 32°F, perishable foods can be preserved for longer.

MULTIZONE
This interchangeable compartment can be used as either a fridge or freezer.

FAB5URNE MINI COOLER

APPROX. 16'' '50s STYLE MINI COOLER, BLACK

FAB5URO
Orange

FAB5URP
Cream

FAB5URR
Red

FAB5URUJ
Union Jack

ABSORPTION COOLING

MINI COOLERS use an ABSORPTION COOLING system in place of the usual compressors which are found in other SMEG refrigeration units. The great advantage of this system is that it has an EXTREMELY LOW OPERATIONAL NOISE LEVEL. In fact, the FAB5 running at 29 dB (A) RE 1 pW is hardly heard at all. MINI FRIDGES have been used traditionally in hotel bedrooms, but are now available for home use, too.
The FAB5 may be the tiniest model in the SMEG '50s Retro range, but there is still plenty of space for a selection of drinks and snacks.

Capacity 1.5 cu ft
Available with right and left hinge

Absorption cooling = ultra-low noise level
Automatic defrost
LED internal light
2 adjustable shelves
Door storage: 1 balcony shelf, 1 bottle shelf

ELECTRICAL CONNECTION:
Voltage: 120V 60Hz
Current: 1.0 Amps

VERSIONS:

CB300U

DISHWASHERS

Essential and distinguished, SMEG dishwashers utilize numerous features and program options, ensuring efficiency and convenience.

Thoroughly researched and developed, SMEG dishwashers exemplify high-quality construction with energy-saving features, resulting in excellent performance.

STU8647X

MAXIMUM WASH PERFORMANCE

SMEG wash systems

Excellent wash results are ensured by the SMEG-patented wash systems which have revolutionized dishwashing, delivering optimum wash results while maintaining low consumption of water and energy. Spray arm jets on each dishwasher are perfectly shaped to direct water with precision so that the noise level is kept as low as possible.

PLANETARIUM WASH SYSTEM (24" MODELS)

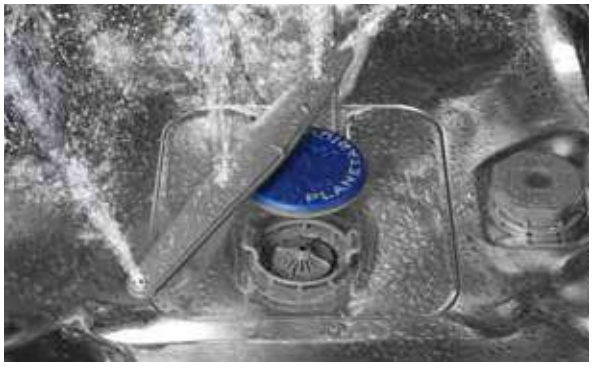
The NEW Planetarium wash system, patented by SMEG, ensures maximum wash coverage within the dishwasher by using an innovative double motion of the spray arm.
For every revolution of the main arm, it turns clockwise with a planetary movement around one axis, while at the same time the stem of the arm moves in the opposite direction, operating on a second axis. This spiralizing directional wash sprays water evenly in a 360° sweep. The rotation speed is approximately 65rpm, giving the best wash results available.

ORBITAL WASH SYSTEM (24" MODELS)

The Orbital Wash System in 24" dishwashers consists of a double spray arm-with contra-action rotation, which distributes water evenly throughout the cavity.

SHUTTLE WASH SYSTEM (18" MODELS)

The Shuttle Wash System on 18" dishwashers consists of a lower spray arm which is shuttled from front to back on a secondary supporting arm, ensuring optimum water distribution throughout the rectangular-shaped-tub.



WATER LEAK PROTECTION

All models have an electronic device fitted to the water intake hose, which monitors water levels in the machine. It detects leaks in the hose and switches off the water supply immediately if necessary.

FLEXIDUO CUTLERY BASKET

The third cutlery basket; the SMEG Flexi Duo, consists of 2 separate and movable sections which can be adjusted individually or even removed entirely depending on your loading needs. An intelligent solution that makes room for tall glasses below or deep utensils above.

PLACE SETTINGS

The range also includes an 18" dishwasher with 10 place settings, a great solution for singles, small kitchens, bar areas, or for use as a secondary dishwasher. This machine allows smaller daily wash cycles to be run efficiently in comparison with a 24" model, where the same load size would leave wasted space.

LOAD FLEXIBILITY AND INTELLIGENT LOAD

designed to optimize efficiency

SMEG's unique dishwasher baskets are made from stainless steel and covered in plastic to lower the noise level during the wash. They have been carefully designed to optimize the use of the available space. The "open space" design increases wash and load efficiency, while various adjustable flip down spike rails, racks, and cutlery baskets can be employed to customize the layout of the basket. Intelligent load, available on some models, allows you to wash a reduced load, saving energy, water, and time, and there are no restrictions on where the items are placed.

full-size tub

24" SMEG dishwashers for the US market all have a full-size tub – with plenty of space for large dishes or saucepans. The upper basket has a 3-position adjustment to accomodate taller dishes (from 11" up to 13 ¾" in diameter). 18" dishwasher baskets have the possibility of being adjusted to 2 separate heights.

AQUATEST

The 18" SMEG dishwasher has an Aquatest feature. A specially-developed infrared sensor measures the clarity of the water in the tub at regular intervals, and decides whether to heat the water for the pre-wash cycle, or to move on to heat the water for the wash cycle. The aquatest feature is incorporated in the AUTO cycle(s) - it keeps consumption of water and energy to a minimum, depending on the degree of food and oil on the dishes.

SANITATION AND FAST DRY

A special final 10 minute rinse at 158°F is added to the end of at least one wash program to ensure the highest-possible standards of cleanliness and hygiene. SMEG dishwashers are ETL sanitation-certified. A fast dry option for a better dry is available on some models.

ENERGY STAR AND ISO14001 CERTIFIED

The SMEG production process is carefully managed in order to keep the impact upon the environment as low as possible. The process is checked and certified by Independent International bodies IQNET and CISQ (SMEG complies with the standard ISO14001).

All SMEG dishwashers are ENERGY STAR qualified. Energy efficiency is important to SMEG, and our technicians are constantly working to keep the energy and water consumption of each dishwasher as low as possible.

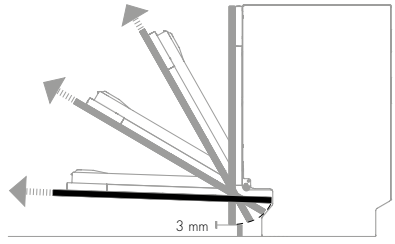
SLIDING DOOR SYSTEM

Models equipped with the new FlexiFit hinge are able to be installed in kitchens with a toe kick from 2" up to 8"1/2. This revolutionary hinge allows the panel to slide from the bottom to the top, avoiding any possible interference of the panel with the toe kick. Another practical SMEG innovation!



ACTIVE LIGHT

Useful function which projects a red spot onto the floor beneath the dishwasher when the appliance is in-use. This makes it immediately obvious that the appliance is running, so that the door is not accidentally opened before the wash phase has finished.

SMEG

SMALL DOMESTIC APPLIANCES

SMEG ‘50s Style line was born from the fusion of technology and aesthetics, functionality and evocation of the unmistakeable shapes and atmosphere of ‘50s Style.

Rounded and retro lines and colors are reinterpreted with a modern twist to become heros of the kitchen.

From the iconic FAB28 fridge, to the latest generation of Small Domestic Appliances, the ‘50s Style line is composed of unique, versatile, anti-conformist products, and is dedicated to those who love being surrounded by objects with a strong character, without losing sight of high-quality performance.

SMEG

ESPRESSO COFFEE MACHINES

italian style

The Italian coffee making tradition finally conquers the domestic space, enchanting all the espresso lovers. SMEG Espresso Coffee Machine can be used with both ground coffee and paper pods, allowing you to choose among your favorite coffee roasters. Bring home all the taste and aroma of the coffee served at your favorite coffee shop.

USER FRIENDLY CONTROL PANEL
3 buttons to adjust preferred settings and select single/ double espresso or the activation of steam function.

THERMOBLOCK SYSTEM & 15 BAR
A unique single Thermoblock heating system speeds up activation time and rapidly heats the water, and 15 bar pressure helps create the very best experience.

DESCALE INDICATOR
The machine will alert you when descaling is required.

REMOVABLE CUP TRAY
The steel cup tray can be removed for easy cleaning and to accommodate taller glasses.

CAPPUCCINO SYSTEM
Mix steam, air, and milk in a small beaker to prepare a thick and rich foam for your cappuccino. The wand can be adjusted in different positions.

FILTER HOLDER
Stainless steel filter holder with 3 filters included (single, double, paper pods).

DRIP COFFEE MACHINE

style has a new flavor

Filter (or 'Americano') coffee is a pleasure to be savored slowly, and is often associated with the idea of a long, relaxing break: the ideal companion for a day at work with your cup on your desk, to be enjoyed at breakfast or lunch, or to take with you when you leave the house - a pleasant companion to combat the hustle and bustle of your day.

10-CUP CAPACITY

AROMA INTENSITY
For a coffee suitable for every need, choose the intensity of the desired aroma, to enjoy a delicate coffee or a more-intense taste.

FULL-METAL, PAINTED HOUSING AND LID

KEEP WARM
Function that ensures optimal coffee temperature, so you can enjoy a cup a little while after you have prepared it.

LED DIGITAL DISPLAY AND CLOCK/TIMER
Simple and intuitive to program and customize the functions of the machine, with excellent results for every need.

AUTO START FUNCTION
For setting the time for the machine to switch-on automatically: enables the various features of the machine to be fully personalized, with excellent results in all cases.

4-CUP FUNCTION
Allows you to brew a small amount of coffee, corresponding to approximately 4 cups.

KETTLE

quick to the boil

With its mix of technology and slightly retro style, the '50s Style kettle makes every moment special, from breakfast, to afternoon tea, from a quick break, to relaxing in the evening. It boils water quickly, precisely, and efficiently.

LIMESCALE FILTER
Removable and washable stainless steel filter that filters out natural limescale present in water.

1.7L CAPACITY, APPROXIMATELY 7 CUPS
Large 7-cup jug capacity with a water gauge that shows the water level in both liters and cups.

STAINLESS STEEL BODY
Enamelled stainless steel surface ensures excellent heat conduction.

SOFT OPENING
A gentle opening when you push the lid open button, prevents hot water from splashing, or steam from coming out when opening.

360° SWIVEL BASE
Base with non-slip feet including electrical connection and a safety system that, in the absence of water, interrupts the operation of the unit.

variable-temperature

7 TEMPERATURE LEVELS
It is possible to regulate the temperature from 50°C to 100°C, depending on what you want to heat the water for.

KEEP-WARM OPTION
A function that enables the water to be kept at the selected temperature for up to 20 minutes.

TOASTERS

clever toasting

The SMEG toaster combines ergonomics, functionality, and aesthetic balance. Breakfast, lunch, brunch, or just snacking - when you fall in love with the SMEG '50s Style' toaster, you'll find every available excuse to use it.

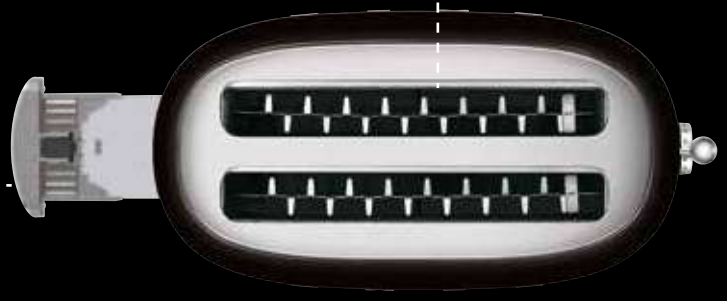
2x2 slice toaster

AUTOMATIC POP-UP
When the selected toasting time has finished, the slices pop-up automatically.

4x2 slice toaster

2 LARGE COMPARTMETS
Self-centering racks in the compartments to ensure even toasting of slices of bread, whatever size they may be.

CRUMB TRAY
Stainless steel tray, removable for easy cleaning.



4x4 slice toaster

2 MULTI-FUNCTION INTERFACES
Select REHEAT to heat toast or slices of bread, or to continue toasting if the result was not satisfactory, DEFROST is useful for frozen slices of bread, and BAGEL will only brown one side of the bread without toasting the other.

CITRUS JUICER

color and energy

Citrus fruits are a great source of concentrated energy to help manage stress, fatigue, and seasonal changes. Drinking freshly squeezed juice is a real pick-me-up thanks to its abundant supply of vitamins which activate our immune deficiencies and help fight aging. Enjoy the pleasure of fresh and healthy juice alone or in company.

UNIVERSAL AND PREMIUM REAMER AND STRAINER
Stainless steel and anti-corrosive components ensure complete squeezing form both small and large fruit.

ANTI-DRIP SPOUT
The stainless steel spout dispenses the juice directly into the glass or cup. Lift up to interrupt the flow and prevent dripping.

Tritan™ cover to protect from dust when the product is not in use. Can be used as a bowl for fruit and peels.

PREMIUM JUICING BOWL
Made in Tritan™ BPA-free, impact resistant, easy to remove.

80W MOTOR & AUTOMATIC ON/OFF
Powerful 80 W motor with built-in sensor: the juicing process starts once there's pressure on the reamer, for easy and effortless use.

SLOW JUICER

ultimate healthy living

The SMEG slow juicer extracts juice from fruits and vegetables, seeds and nuts by crushing and then pressing them. It squeezes the ingredients without producing much heat, and keeps more of the fresh ingredients' nutrients intact, delivering a natural taste, and high nutrition standards. Whether you are sporty, interested in healthy living, want better nutrition and dietary habits, or are simply curious to try new 'real tastes', the SMEG slow juicer is a must-have item for your kitchen.

150W AC MOTOR
Strong and durable AC motor with low noise and low vibration to enhance user stability.

PREMIUM MATERIALS AND DESIGN
High quality materials (Tritan™ and Ultem™) and excellent design for safe and convenient results and easy cleaning.

EXCLUSIVE SLOW SQUEEZING TECHNOLOGY™
Second-generation technology ensures the best juice extraction experience. Slow-squeezing speed at 43 RPM preserves the taste and nutrients.

LARGE CHAMBER
Chamber built to squeeze a large amount of juice up to 500ml.

CONTROL LEVER
To adjust the thickness of your juice, and mix ingredients inside the chamber.

STAND MIXER

in the mix

A cake to offer to your friends, the unique scent of home baked bread, fresh pasta that will amaze your dinner guests - recipes take shape thanks to the SMEG '50s Retro Style stand mixer, a reliable, robust, and efficient assistant in the kitchen.

PLANETARY MOVEMENT
Planetary action provides excellent coverage of the bowl for an even mix.

STAINLESS STEEL BOWL
The **ample 1 kg/35 oz stainless steel bowl** with ergonomic handle enables small and large quantities of mixtures to be prepared.

VARIABLE SPEED CONTROL
10 adjustable settings guarantee the greatest versatility. The numbers printed alongside the lever suggest the correct speed based on the attachment in-use. Additionally, thanks to the SMOOTH START, after function the machine starts at a reduced speed, preventing the ingredients from coming out.

METAL BODY
The robust metal structure of the stand mixer reduces vibrations, to work in total safety.

accessories offer possibilities

SMEG offers many useful accessories which are inserted on the front of the stand mixer to form different styles of pasta from cutting to stretching fresh pasta with the 3 piece pasta set. There is also a slicer and grater, multi food grinder, ravioli maker and spaghetti cutter after "maker" to provide more possibilities when using your stand mixer.

BLENDER

smooth and nutritious

At breakfast for a healthy fruit and yogurt smoothie, after a workout to revitalize yourself with a refreshing drink, at lunch to prepare a quick and simple velouté, the SMEG blender perfectly mixes ingredients of different consistencies, for each part of the day.

TRITAN ™ BPA-FREE JUG
Light, easy-to-clean jug with dishwasher-safe lid, measuring cup, and anti-splash spout. Tritan™ BPA-free plastic is also resistant to impacts, scratches and heat.

STAINLESS STEEL DUAL BLADES
Removable blades, adjustable 4 speeds (18,000 rpm) with soft start which guarantees the desired degree of mixing.

DIE-CAST ALUMINUM BODY
Robust and stable, with anti-slip feet and built-in cord wrap.

SMOOTH START & SAFETY LOCK
The SMOOTH START function begins slowly, to facilitate the mixing of the ingredients, and then accelerates to reach the selected speed. A safety lock feature prevents the blades from moving when the blender jug is not properly fitted.

3 PRE-SET PROGRAMS
ICE CRUSH to crush ice cubes, SMOOTHIE to produce dense and creamy textures, PULSE to increase the speed of the blender to your liking by pressing a button.

versatile and easy-to-use

STAINLESS STEEL BLADES WITH FLOWBLEND™
The design of the bell and the stainless steel blades creates an optimum flow that guarantees the perfect consistency of the blended ingredients with the best possible results.

STAINLESS STEEL BLENDING ARM
For maximum durability and safety. Can be easily removed to attach the accessories.

VARIABLE SPEED KNOB
The convenient speed control knob allows you to easily select the desired intensity, ensuring maximum versatility when cooking.

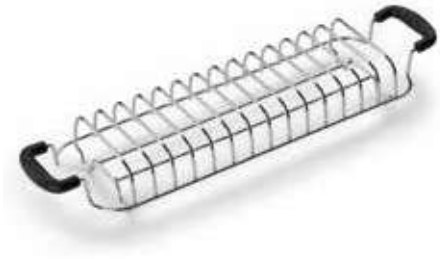
TSSR02 OPTIONAL ACCESSORY

SANDWICH RACK (4-SLICE TOASTER)

For TSF02 toaster.

TSBW02 OPTIONAL ACCESSORY

BUN WARMER (4-SLICE TOASTER)



For TSF02 toaster.

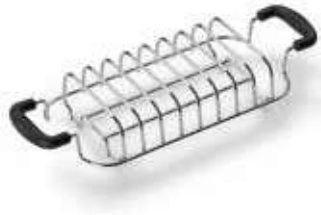
TSSR01 OPTIONAL ACCESSORY

SANDWICH RACK (2-SLICE TOASTER)

For TSF01 and TSF03 toasters.

TSBW01 OPTIONAL ACCESSORY

BUN WARMER (2-SLICE TOASTER)



For TSF01 and TSF03 toasters.

HBHD01 OPTIONAL ACCESSORY

HAND BLENDER HOLDER

Hand blender holder for HBF01 and HBF02.

BGF01 OPTIONAL ACCESSORY

BOTTLE-TO-GO

600 ml/ 20 fl oz BPA-free Tritan™ bottle.
Tritan™ bottle cover with grey silicon seal for spout.
BPA-free Tritan™ cap with spout, and grey silicon seal.
Detachable stainless steel blade with safety lock.
Body, cover, cap dishwasher-safe.

SMDH01 OPTIONAL ACCESSORY

DOUGH HOOK

Aluminum dough hook to combine and mix leavened doughs, such as those for pasta and pizza, in the best possible way.

SMFB01 OPTIONAL ACCESSORY

FLAT BEATER

Aluminum flat beater to combine dense mixtures such as those for cakes, frosting, biscuits, and purées.

SMWW01 OPTIONAL ACCESSORY

WIRE WHISK

Stainless steel wire whisk to whip up egg whites, yolks, cream, and make custards and sauces.

SMB401 OPTIONAL ACCESSORY

STAINLESS STEEL BOWL

1 kg/35 oz polished stainless steel bowl with ergonomic handle. Dishwasher-safe.

SMPS01 OPTIONAL ACCESSORY

POURING SHIELD

The pouring shield prevents splashes coming out, and, at the same time, its spout simplifies the addition of ingredients during mixing.

SMMG01 OPTIONAL ACCESSORY

MULTI-FOOD GRINDER

3 discs for mincing (coarse, medium, fine) and a silicon disc for cleaning. Body in aluminum alloy. 3 discs in stainless steel for mincing/grinding: Coarse Ø 8 mm, Medium Ø 4.2 mm, Fine Ø 3 mm.

SMSG01 OPTIONAL ACCESSORY

SLICER & GRATER

4 drums for slicing and grating. Body in plastic, drums in stainless steel.The rotor design allows you to grate and slice directly into a serving bowl.

SMPC01 OPTIONAL ACCESSORY

PASTA ROLLER AND CUTTER SET

Pasta roller, tagliolini cutter, and fettuccine cutter. Chrome steel body. Chrome steel.

SMPR01 OPTIONAL ACCESSORY

PASTA ROLLER

Thanks to the control knob, it is possible to select up to 10 different lengths in the rollers to stretch the dough into sheets 140 mm wide. Chrome steel.

SMRM01 OPTIONAL ACCESSORY

RAVIOLI MAKER

Thanks to its two rollers, it's even easier to prepare your own fresh ravioli in the comfort of your home. Chrome steel body.

SMFC01 OPTIONAL ACCESSORY

FETTUCCINE CUTTER

With this accessory it is possible to cut fettuccine 6mm wide. Chrome steel.

SMTC01 OPTIONAL ACCESSORY

TAGLIOLINI CUTTER

A useful tool to easily create tagliolini 1.5 mm wide. Chrome steel.

SMSC01 OPTIONAL ACCESSORY

SPAGHETTI CUTTER

With the spaghetti attachment, it is possible to transform fresh sheets of pasta into spaghetti just 2 mm in diameter. Chrome steel.

TECHNICAL DRAWINGS

Thank you for specifying SMEG major appliances! In this section, and throughout this brochure, you will find overall appliance and build-in measurement data. This information is provided as a guideline as you contemplate form, fit, and function. As with any printed matter, we are unable to communicate updates therefore we strongly urge you to visit our website, www.smegusa.com, to download the most up-to-date specifications before cutting countertops or finalizing your kitchen designs to ensure you have the most current specification.

Quality, Environmental, and Occupational Health & Safety Management Systems

All SMEG factories are ISO9001, ISO14001 and OHSAS 18001-certified, ensuring that the highest standards of quality are continually maintained, whilst actively responding to all environmental issues relating to manufacture. The materials and components used to produce SMEG products undergo strict quality control testing, and care is taken to source recyclable materials wherever possible. These management systems enable SMEG to provide complete assurance that all products meet superior standards while respecting the environment. The workforce is not forgotten – the occupational health and safety assessment scheme promotes a safe and healthy working environment, aids legislative compliance, and helps improve overall performance.

UNI EN ISO 9001 UNI EN ISO 14001 OHSAS 18001

Whereas every effort has been made to ensure that the information contained in our literature is correct at the time of going to print, this brochure should not be regarded as an infallible guide to current specification, nor does it constitute an offer for sale of any particular product.
