Unit Type	Cool Only
Room Air Conditioner Features	Electronic Control Energy Saver Filter Reminder Function On/Off Timer Power Interruption Restart Remote Control

- Cools Large Rooms - It's important to pick an air conditioner based on the room size of the room (or rooms) to be cooled. This air conditioner cools LARGE rooms up to 700 sq ft
- Smart Product - Connected functionality to full control your air conditioner from the convenience of a smart device
- Connected Peace of Mind - Monitor, schedule and control your air conditioner while home or away with the GE Appliances app
- Connected Performance - Monitor your unit's energy consumption with reports that show you how much energy you've used and help you maximize your savings
- Connected Convenience - Turn your air conditioner on and off, check the status or change temperature settings with your favorite Bluetooth enabled voice assistants
- Do It Yourself Installation - GE Appliance air conditioners come with an easy mount window kit for installation assistance
- Digital Thermostat - Our electronic digital thermostat helps you maintain your cool and comfort
- Maximum Cool - Choose from three cooling modes and fan speeds for a cooling combination that's your own
- Energy Star - This Energy Star certified unit means we've mastered how to give you the same great cooling while using less energy and reducing your utility bills
- Clean Filter Reminder - Your unit runs best when you have a clean filter, so we'll remind you when it needs to be cleaned

- Power at Your Fingertips - Our fully functioning, easy to use remote allows you to adjust the fan speed, temperature and mode options from anywhere in the room
- Window Dimensions - This air conditioner fits most windows 24"- 40" wide and 18 1/4" high
- Voltage Type - This unit comes with a 3-prong cord and works with a standard 115-volt outlet
