

# Looking for cutting-edge technology and unparalleled design? You're getting warmer.

## Introducing the new Warming Drawers from Dacor®

### Precision is now at hand.

Forget dials. Our new electronic touch control puts four temperature settings right at your fingertips.

### Bigger than a bread box.

One day it's a small get-together, the next, a dinner party for 10. Thanks to our increased capacity (our 30" model is 16% larger), an unexpected guest is more than welcome.

### No detail too small. No innovation overlooked.

An innovative moist-crisp slide delivers on its promise. It keeps moist food tender and juicy, and crisp food firm and delicious. So the dishes you create make it to the table, just right.

### Timing is everything.

Four timing settings (1, 2, 3, and 4 hours) plus an Infinite Mode let you orchestrate the meal to perfection. So from appetizer to dessert, every dish can be timed the way you intended.

### Complement the chef.

In addition to our integrated models that match your existing cabinetry, you'll find a dazzling array of styles, colors and options to install throughout your kitchen, in your bath or by the outdoor barbeque.

Epicure® 30" Warming Drawer

Dacor® Warming Drawers

**dacor**  
The Life of the Kitchen.®

The precision you demand. The control you require.

For the gourmet, the perfect kitchen companion.

We know you're passionate about cooking. And we doubt you overlook a single detail. From the precise temperature of your soufflé to the best moment to serve a warm apple pie. At Dacor®, we share your passion for perfection. It's why we've engineered our warming drawers with unique touches you'll only find in the world's finest professional-grade kitchens. Like electronic touch controls that put precision at your fingertips, and let you decide exactly how warm (or hot) you want your food to be. So a five-course meal comes out smoothly and deliciously—even with the unexpected preparation pause. And, of course, you'll find our legendary Dacor styling that coordinates with the rest of your Dacor kitchen. So you can be as passionate about the look as the performance.
