## DRINKING WATER OPTIONS

Taste does not equal health or quality. If it did, then McDonalds fries and Oreos would be health foods. (LOL) Built in the USA to offer protection from toxic contaminants like chlorine, chloramine, VOCs, THMs, pesticides, pharmaceutical residues, and more.

The result is water that not only tastes good, but is good for you and your family. These systems filter the water at the point of use (usually a kitchen sink) and provide filtered water for cooking, drinking, coffee, tea, ice, etc. EWS has systems to suit all preferences, concerns, water conditions and budget.

Due to its advanced filtration and crisp mineral water taste, about 80% of families choose the Drinking Water Options over reverse osmosis.

**ESSENTIAL MAX FLOW** Best Selling Model #: SS-2.5  
The most versatile and best choice if you cannot or do not want to have a separate dispenser or hole in your sink or counter. Install in 5 minutes and filter chlorine, chloramine, 1,000's of other contaminants, lead and cysts.

**ESSENTIAL DRINKING WATER SYSTEM**  
The DWS removes chlorine, chloramine, and thousands of other contaminants and offers the additional safeguard of reducing lead and removing 99.99% of cysts (cryptosporidium and giardia). **Model #: DWS.**

**ESSENTIAL DRINKING WATER SYSTEM WITH UV**  
Our most popular upgrade provides the same great benefits of the DWS, with an upgrade to our patented 99.99% effective UV safeguard. Kills bacteria, viruses, E.coli and other microorganisms. Ideal for people with compromised immune systems. **Model #: DWS-UV.**

## REVERSE OSMOSIS OPTIONS

Reverse osmosis (RO) is ideal for those who are allergic to the fluoride in city tap water or on water that does not meet EPA limits for heavy metals. RO is generally used in conjunction with salt softeners (takes the salt out the softener puts in) or where there is a preference for a more stripped down or "flatter" or distilled taste to their water.

In about 80% of homes, the ESSENTIAL Drinking Water Systems (see left) is the proper choice, due to its highly advanced filtration, conservation of minerals for a crisp mineral water taste, and no need for a water storage tank or wasted water to the drain.

**ESSENTIAL THREE-STAGE REVERSE OSMOSIS**  
Our ESSENTIAL RO3 uses a high-performance, 50 gallon per day membrane which removes inorganics, heavy metals, fluoride, naturally found minerals, lead, and cysts (cryptosporidium and giardia). **Model #: RO3.**

**ESSENTIAL THREE-STAGE REVERSE OSMOSIS W/ UV**  
Our ESSENTIAL RO3-UV is the same system found above which also includes our patented UV upgrade that kills 99.99% of bacteria, viruses, E.coli and other microorganisms. Ideal for people with compromised immune systems. **Model #: RO3-UV.**

Four-stage (RO4) and five-stage (RU500T35) reverse osmosis options (not shown) are available for particulate water and difficult well water applications.
