

FREESTANDING ABSORPTION WINE CELLAR **E24WC160ES**

Freestanding Absorption Wine Cellar Specifications

- Product Weight – 189 Lbs.
- Voltage Rating – 120V/220W/60 Hz/1.83 Amps
- Electrical cable supplied.
- Single phase 3-wire, 120 Volt, 60 Hertz, AC only electrical supply with ground required.
- Allow minimum clearances of 1" from rear and side walls, 1-3/16" from floor and 3-15/16" above, to allow for adequate air circulation and ensure optimum performance.
- Leveling legs supplied to adjust height and level unit.
- Installation of steel bracket to back of Wine Cellar is critical to ensure correct distance to rear wall.
- Must be positioned on flat, level surface, capable of supporting entire weight when fully loaded.
- Do not position near any heat source to ensure optimum performance.
- Must be positioned to allow for 90° door swing, providing sliding shelves with necessary clearance.
- When installing next to wall where handle may make contact, allow 2" clearance between opened door and wall.
- Natural wood trim on wine shelves is factory sealed for protection, but can be stained.

Note: Refer to Product Installation Guide for detailed instructions on the web at www.electroluxusa.com.

Exclusive Absorption Cooling System

The absorption principle is a chemical process. It requires no motor or compressor so operation is completely silent and vibration free.

160-Bottle Capacity

The large interior of the Absorption Wine Cellar has a 160-bottle capacity but consumes only as much kitchen space as a refrigerator.

Digital Temperature Control

The digital temperature control allows you to set and change the temperature within a range of 50°F (10°C) to 59°F (15°C) depending on your personal preference.

Tinted, Thermal, UV-Resistant Glass Door

The tinted glass door blocks harmful ultraviolet light while allowing an unobstructed view of your wine collection.

Charcoal Filter

The charcoal filtration system keeps the air inside the wine cellar fresh and odor free. The long-lasting filter requires replacement every twenty-four months.

FREESTANDING ABSORPTION WINE CELLAR

Capacity	160 Bottles
