FF2200 - Pull Out Faucets

Franke reliability in the perfect faucet for all kitchens.

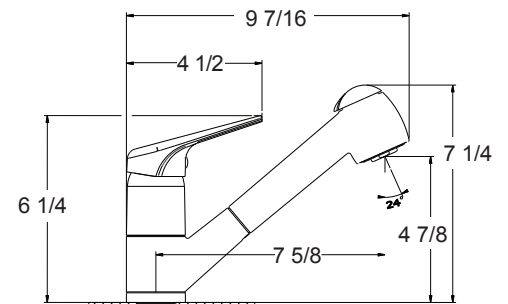

This multi-purpose, pull-out faucet design is a familiar one for Franke and has been one of our most popular designs ever. We have listened to your needs and are pleased to introduce this updated classic faucet in both chrome and satin nickel. This versatile design is compatible with traditional as well as transitional and contemporary kitchens and bars

The FF2200 and FF2280 faucets are the ideal size and work with any kitchen sink and are perfect for bar/prep sink applications, as well.

The loop handle is easy to grip and turn and the pull-out sprayhead toggles easily between the stream and spray function, with lock-in-place function for the spray.

All of these features in a Franke quality faucet are guaranteed to provide years of reliable service.
