

Forno Espresso / FFSEL6011-30WHT

30" / 4.4 CF Electric Range, True Convection

The Forno Paolo 30" Freestanding Electric Range in white, the ultimate kitchen upgrade. This stunning range merges style and top-tier performance with an elegant white finish, complemented by a stainless steel surround on the ceramic glass cooktop. This design ensures even heat distribution across its 5 radiant elements with a total output of 7,800 watts. The oven features a powerful 1,200-watt true convection system, combined with a total bake and broil output of 3,800 watts, delivering faster, more even cooking results. The hidden bake element simplifies maintenance by preventing spills from burning onto the element, reducing odors, and making cleanup effortless. The bright halogen interior oven lighting and large viewing window allow you to monitor your cooking progress without opening the door and losing heat. Additionally, the range includes a 100-watt warming zone to keep dishes at the ideal serving temperature, and a dual-element broiler for precise, high-heat cooking. Elevate your kitchen with this timeless, user-friendly range that combines durability with sophisticated design. Cook with confidence and embrace efficiency and style with every use.
