Front Panel Information

G2000 Integrated Models

Custom Panel Installations

Some Miele dishwashers do not come equipped with a front panel. These dishwashers are designed to accept a custom door panel supplied by the cabinet maker. Miele has a unique panel integration system which allows the dishwasher to align with the surrounding cabinets.

Panel size is determined in the following manner:

Width: 23 7/16" in all cases

Thickness: 3/4" in all cases

Height: Determined using the following calculation:

$$\text{Panel Height} = \text{HTC} - \text{CPH} - \text{TKH}$$

HTC = Height to the underside of countertop

CPH = Control panel height (Note 1)

TKH = Toe-kick height

Note 1: Control Panel Height is determined by the height of the drawers in the cabinets. This height is adjustable between 4 5/8" and 5 7/8" with spacer strips provided.

Maximum panel height: 27 1/4"

Minimum panel height: 21 1/4"

Maximum panel weight:

White / Black 23 Pounds

Stainless Steel 19 Pounds

GDU Kit Installations

In lieu of a custom front, Miele offers a decorative panel system called a GDU kit. GDU kits vary depending upon the model chosen. Each GDU kit contains a front panel and a toe-kick cover.

GDU 60/65-1

Exposed toe-kick

This GDU accepts a custom insert:

Height: 25 11/16"

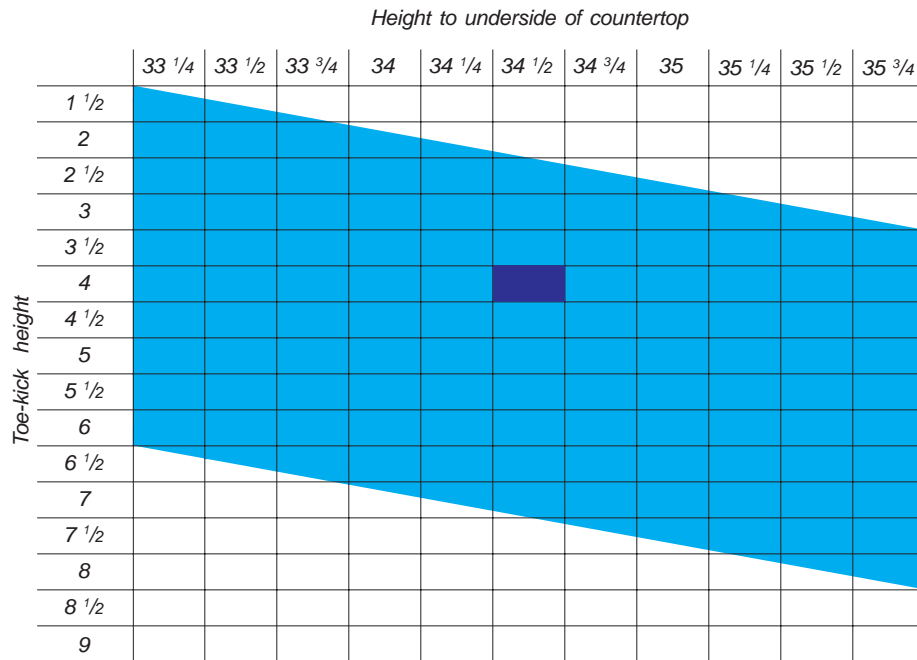

Width: 23 1/8"

Thick: 1/8"
