# Front Panel Information

## G2000 Fully Integrated Models

### Custom Panel Installations

*Some Miele dishwashers do not come equipped with a front panel. These dishwashers are designed to accept a custom door panel supplied by the cabinet maker. Miele has a unique panel integration system which allows the dishwasher to align with the surrounding cabinets.*

*Panel size is determined in the following manner:*

**Width:** 23 7/16" in all cases

**Thickness:** 3/4" in all cases

**Height:** Determined using the following calculation:

$$\text{Panel Height} = \text{HTC} - \text{TKH}$$

**HTC** = Height to the underside of countertop

**TKH** = Toe-kick height

**Note:** Control panel is along the top edge of the unit. It is not visible when the unit is closed.  
A handle **MUST** be located on the front panel in order to open the unit

**Maximum panel height:** 31 7/8"

**Minimum panel height:** 27 3/16"

**Maximum panel weight:** 21 Pounds

### GFVi Installations

*Miele offers pre-fabricated stainless steel panels for all fully integrated units. These panels are designed for various toe-kick heights and offer a choice of handle options.*
