INVCH is a simple yet sophisticated wireless charger that enables devices to charge by simply placing them on a work surface. Perfect for the home or the office, INVCH's compact design subtly attaches to the bottom of a desk or tabletop to keep mobile devices powered throughout the day. No touchpoints—simply place your mobile device on the table to charge. Wirelessly charge up to 10W of Qi-compatible devices. Can penetrate all kinds of desktop except metal, the distance up to 50mm

Key Features:

- Compatible with Qi-BPP 5W, iPhone 7.5W and Samsung 10W
- Supports all Qi standard mobile-phones
- Used for 10~50mm charging distance through non-metallic solid material between the mobile-phone and the charger available
- Easy installation
- Booster pad increases the efficiency and speed of charging
- Over-current/Over-temperature/ Over-voltage
- Meets FCC, CE and UKCA requirements
- Meets UL and RoHS requirements
- Great for the Kitchen, Bedroom, outdoor Kitchen, Wet/Dry bar & Desks
- Works with Porcelain, Granite, Quartz, Wood & Glass counters

Optional Booster Stickers when thicker than 20mm Material
