

# EURO-STYLE 30" ELECTRIC DOWNDRAFT RANGE

## Signature Features

### DOWNDRAFT VENTILATION

Developed and refined by JennAir®, downdraft ventilation uses proximity ventilation to capture smoke, steam and odors at the cooking surface, whisking them down and out for a fresher, cleaner kitchen.

### TELESCOPING GLIDE RACK

This roll-out rack lets you easily position and remove dishes.

### DUAL ZONE ELEMENT

Offers the option of two sizes at one position for outstanding flexibility, matching the element to cookware size for more efficient cooking.

### AQUALIFT® SELF-CLEANING TECHNOLOGY

An oven cleaning technology designed to minimize the time, temperature and odors that typically come from standard self-cleaning ovens.

### TRUE CONVECTION

True convection uses a heating element behind the convection fan in addition to the bake and broil elements to provide even heat distribution throughout the oven.
