

INSIGHT·PRO®

The Sharp Insight Pro® Microwave Drawer® is the **world's first 24-inch Microwave Drawer**. It places the microwave at a very convenient height for frequent use. Now microwave cooking is easier for every cook in the family, with no need to remove the dish from the oven to check, stir or turn the food. For even greater convenience, the new Easy Open Microwave Drawer opens automatically with a gentle pull of the handle. Just push it gently and it closes automatically, even if your hands are full.

Sharp's advanced sensor technology eliminates the guesswork often associated with microwave cooking. The Microwave Drawer is large enough to hold a 9" x 13" oblong dish, and the Auto-Touch™ control panel is angled so it is more convenient and easier to use. With fresh thinking into how consumers really use their kitchens, Sharp puts innovation and cooking convenience at your fingertips. The Insight Pro Microwave Drawer: it's the most exciting idea yet for where to place the microwave.

Design Flexibility

The world's first 24-inch Microwave Drawer is built-in ready for easy installation without the need for an additional kit. It eliminates awkward installations and cluttered countertops, making it ideal for open-plan kitchens and islands.

Innovative Technology

The Microwave Drawer provides superb access, placing the microwave at a very convenient height. Its microwave sensor technology eliminates guesswork when cooking or reheating.

Convenience and Accessibility

The angled touch controls are convenient and easy to use. In addition, there is no need to remove the dish from the oven to check, stir, or turn the food. For even greater convenience, a gentle pull on the handle opens the Microwave Drawer automatically. Just push it gently and it closes automatically, too.

Sophisticated Style

The large viewing window, along with an integrated handle and angled touch controls, results in a sleek, sophisticated appearance that's an ideal complement to any kitchen decor.
