- Door Alarm
- LoDecibel™ Quiet Operation
- BioShield™ Anti-Bacterial Seal

ENERGYSTAR® qualified models use at least 15% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

PANORAMA™ FRENCH DOOR

External Ice & Water Dispenser

Convenience? Style? You've come to the right place. Not only can you enjoy the benefits of a Side by Side fresh food compartment with a Bottom Freezer, but LG has enhanced the French Door package by adding a filtered Ice and Water dispenser on the outside. The self-contained ice system produces 4.0 lbs. of ice a day in 3 sizes that can be dispensed either crushed or as crescent-shaped cubes. The ice storage bin is also removable for portability and easy cleaning.

SmoothTouch Digital Temperature Controls

Ensure precise temperature control in the refrigerator and freezer compartments.

Located on the outside of the refrigerator, the touch-sensitive digital controls also allow you to use the IcePlus™ accelerated freezing function, monitor room temperature, and reset the water filter.

Tilt-A-Drawer™

The freezer door tilts downward approximately 45 degrees for easy access to the entire freezer compartment.

Multi-Air Flow Cooling

Vents are located on every shelf for even air distribution and longer lasting food freshness.

OptiBin™ Crisper

Optimizes humidity, extending life of most fruits and vegetables with the innovative Magic Crisper grid. The crisper lid lifts out of the way to better accommodate larger items.

BioShield™ Anti-Bacterial Seal

Unique feature prevents mold and mildew from building up on the door seal.
