## **ELEGANCE WITH GREAT CONVENIENCE**

Now you can keep your refrigerator organized instead of just wishing you could. With 25 cubic feet to work with, you get lots of great space and two ice makers to keep plenty of ice on hand for the family reunion. Plus, our Smart Cooling technology is designed to help keep all your food fresher, longer.

#### Slim SpacePlus™ Ice System

Ice makers are great, but not if it means you can't fit all of your food in the fridge. The Slim SpacePlus™ Ice System provides more shelf space and allows even more space for door bins.

#### **Smart Cooling System**

Smart Cooling system is designed to maintain superior conditions within the refrigerator. The Linear Compressor reacts quickly to temperature fluctuations and helps keep your food fresher, longer. Meanwhile, strategically-placed vents in every section surround your food with cool air no matter where you put it.

#### 10 Year Warranty on Linear Compressor

When you buy a refrigerator, you don't want to worry that it won't last. Because the Linear Compressor motor uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a 10-year warranty.
