

## LG REFRIGERATION

## LMWC23626S

## 4-Door French Door Refrigerator

Counter Depth  
 Sleek Design  
 Double Freezer  
 Internal Water Dispenser  
 Door Cooling +  
 Smart Cooling System  
 SmartDiagnosis™  
 ENERGY STAR® Qualified

## CAPACITY

Refrigerator (cu.ft.)	15.50
Freezer (cu.ft.)	7.20
Total Capacity (cu.ft.)	22.70

## ENERGY

Energy Consumption (kWh/Year)	593
ENERGY STAR® Qualified	Yes

## WATER &amp; ICE SYSTEM

Ice & Water Dispenser	Water Only
Dispenser Type	Internal Water Dispenser
Daily Ice Production (lbs)	2.5 lbs
IcePlus™ Production (lbs)	2.7 lbs
Ice Storage Capacity (lbs)	3.5 lbs
Ice System	Factory Installed
Water Filter	LT1000P

## COOLING

Linear Compressor	Yes
Smart Cooling™ System	Yes
Door Cooling+	Yes
Multi-Air Flow™ System	Yes
Temperature Sensors	5
Evaporator	1

## CONVENIENCE

Display Type	Membrane / White LED
Temperature Controls	Electronic/Digital
Auto Closing Door Hinge	Yes
Sabbath Mode	Yes
LoDecibel™ Quiet Operation	Yes

## REFRIGERATOR

No. of Shelves	4 Split
Canilevered Shelves	Yes
Shelf Construction	Spill Protector™ Tempered Glass
Crisper Bins	2 Humidity Crisper
Glide N' Serve™ Drawer	Yes
Refrigerator Light	Ceiling LED (Frameless)

## REFRIGERATOR DOOR

No. of Bins	6 Total (2 Adjustable Gallon Sized)
Door Bin Construction	1 Piece (Clear)

## FREEZER

Door Type	Pull Drawer
Drawers	2-Tier Organization
DuraBase™ Solid Drawer Base	Yes
Drawer Divider	Yes
Freezer Light	Premium LED
Freezer Handle	Vista

## Smart Features

SmartDiagnosis™	Yes
-----------------	-----

## MATERIALS AND FINISHES

Contour Door	Yes
Hidden Hinges	Yes
Surface	Smooth
Fingerprint & Smudge Resistant Exterior	Yes
Handles	Matching Commercial Handles
All Available Colors	PrintProof™ Stainless Steel

## DIMENSIONS/CLEARANCES/WEIGHTS

Depth with Handles	31 1/4"
Depth without Handles	28 5/8"
Depth without Door	24 3/4"
Depth (Total with Door Open)	43 3/8"
Height to Top of Case	68 3/8"
Height to Top of Door Hinge	69 3/4"
Width	35 3/4"
Width (Door Open 90° with Handle)	44 1/4"
Width (Door Open 90° without Handle)	39 1/4"
Door Edge Clearance with Handle	4 1/2"
Door Edge Clearance without Handle	1 1/3"
Installation Clearance	Sides 1/8", Top 1", Back 2"
Weight (Unit/Carton)	265lbs /289lbs

## LIMITED WARRANTY

Parts & Labor	1 Year
Sealed System (Parts & Labor)	5 Years
Compressor (Parts & Labor)	5 Years
Linear Compressor (Parts Only)	6-10 Years

## UPC CODES

## PRODUCT DIMENSIONS

## CLEARANCES

## CONNECTING POWER AND SECURING SPACE FOR WATER SUPPLY PIPE

- ⚠ Make sure the location of the water supply pipe is within the marked range.
- ⚠ Before connecting the power, always make sure to ground the product. (If the product is not grounded, the user may be able to feel the electricity due to the minute leakage current when touching the refrigerator door handle or side corner even when there is no issue with the product.)
- ⚠ Do not ground the product to gas pipe, plastic water pipe or telephone wire etc. It can cause electric shock and explosion.

## Power connection

The location of the 115V 60Hz power connector must be located on the rear side of the product as shown in the picture.

When installing the product, make sure to check whether the cord is hung on the hook on the rear side so that it is not pressed on the refrigerator. Damaged power cord can cause a fire.

## Installation space for water supply pipe

Place the water hose for ice maker and water dispenser as shown in the picture, and prepare hose to come up from the floor. (Copper pipe with diameter of 5/16\" (8mm) is recommended for the water hose.) If the water pipe and water hose is located far from the product, bury the water hose on the floor and provide appropriate treatment.

## CHOOSING THE PROPER LOCATION

## WATER

Select a place where a water supply can be easily connected for the automatic

## NOTE

- The water pressure must be 20 – 120 psi or 138 – 827 kPa or 1.4 – 8.4 kgf/cm². If the refrigerator is installed in an area with low water pressure (below 20 psi), you can install a booster pump to compensate for the low pressure.

## ELECTRICITY

The refrigerator should always be plugged into its own individual properly grounded electrical outlet rated for 115 Volts, 60 Hz, AC only, and fused at 15 or 20 amperes. This provides the best performance and also prevents overloading house wiring circuits which could cause a fire hazard from overheated wires. It is recommended that a separate circuit serving only this appliance be provided.

## WARNING

- To reduce the risk of electric shock, do not install the refrigerator in a wet or damp area.

## FLOORING

To avoid noise and vibration, the unit must be leveled and installed on a solidly constructed floor. If required, adjust the leveling legs to compensate for the unevenness of the floor. The front should be slightly higher than the rear to aid in door closing. Leveling legs can be turned easily by tipping the cabinet slightly. Turn the leveling legs to the left to raise the unit or to the right to lower it.

## NOTE

- Installing on carpeting, soft tile surfaces, a platform or weakly supported structure is not recommended.

## AMBIENT TEMPERATURE

Install this appliance in an area where the temperature is between 55°F (13°C) and 110°F (43°C). If the temperature around the appliance is too low or high, cooling ability may be adversely affected.
