

## LG REFRIGERATORS INSTALLATION GUIDE

**Avoid the hassle of returns!** Follow the tips below to make sure your LG appliance will fit in the space intended.

### Measure First!

Check model specific measurements online at [www.lgusa.com](http://www.lgusa.com)

**1** Measure the area where the product will be located and ensure there is enough clearance on all sides - height, width and depth.

**2** Measure the path of delivery to ensure the product will have enough clearance in all areas from delivery truck to final installation location

**3** Most product installers require a water shut off valve. Please consult your retailer for further information
