## LSRE307ST

### Premium Free Standing Electric Range

#### 5.6 Cubic Capacity

With one of the largest oven capacities available, LG's ranges provide more space for cooking large meals for families.

#### Dual True Convection System

Two fans combined with two built-in heating elements provides a 30% faster preheat time\* with the added benefits of even heat distribution for overall uniform baking and roasting.

#### WideView™ Window

Allows you to easily check the progress of a meal in the oven without having to open the door.

\*Based on testing results comparing a standard LG convection range to the dual convection range (325°F) mode.
