TECHNOLOGY THAT'LL BLOW YOU AWAY

Looking for some real cooling power? How about 25,000 BTUs with a 9.4 Energy Efficiency Ratio? This is our most powerful window unit yet, and can take on up to 1560 square feet with three cooling and fan speeds. Plus, with Auto Restart, if the power goes out, your unit automatically turns on after it is restored. Easy breezy.

3 Cooling & Fan Speeds with Auto Cool

Three powerful cooling and fan speeds allow you to control the temperature of your room at your pace.

4-Way Air Direction

Enjoy the cool air even more with our 4-way air direction. By adjusting the deflection, air is directed up, down, left or right. So you can move the air where it's needed most.

Power Failure Auto Restart

Living isn't always easy in the summer. There are storms, high winds and extreme heat that can lead to power outages. Keep yourself covered with Auto Restart, which automatically turns the unit back on when power is restored.
