

BERTAZZONI MASTER SERIES

SINGLE CONVECTION SELF-CLEAN OVEN MASFS30XV

The Bertazzoni traditions of Italian design, engineering excellence and culinary expertise come together in the Master Series wall ovens. The exceptional, energy-efficient performance of the Bertazzoni Master Series wall ovens is enhanced by the intuitive and easy-to-use interface operated with large, round knobs and touch controls. The exclusive dual diagonal convection system and 7 usable shelf positions with telescopic glides ensure even heat roasting and baking on multiple levels with no flavor crossover. This beautiful oven installs flush with the cabinet doors and integrates seamlessly with specialty ovens and warming drawers in both vertical and horizontal combinations. Eleven cooking modes make this new Bertazzoni wall oven the perfect partner for the ultimate user experience in your kitchen.

INTUITIVE CONTROLS

Bertazzoni ovens use stainless steel metal knobs to select cooking modes and temperature, while the intuitive interface lets users program time and other functions.

DUAL DIAGONAL CONVECTION

Two large-blade fans positioned on the diagonal axis and subsidiary air vents at the top and bottom of the oven cavity provide balanced airflow and even heat distribution.

INTEGRATED DESIGN

All Bertazzoni ovens install flush with the cabinet doors and integrate seamlessly with specialty ovens and warming drawers in both vertical and horizontal combinations.

TO COOK BEAUTIFULLY

Voltage, frequency	120/208 Vac - 120/240 Vac, 60 Hz
Oven volume	4.1 ft³
Max Amp usage, power rating	30 A - 5500 W
Certification	CSA
Warranty	2 years parts and labor

Bertazzoni recommends to operate the appliance after it has been installed in a cabinet. The kitchen cabinets shall be made of materials capable of withstanding temperatures at least 117°F (65°C) above room temperature in order to avoid possible damage to the cabinets during oven usage. The appliance must be installed into cabinetry and be supported from underneath. The air intake opening at the bottom of the door must be left unobstructed. For a flush mount installation the surrounding cabinets doors should have the same thickness as the oven control panel. For installation of the oven in column please refer to the drawings view of model MO 30 STANE. For under counter installation refer to the cooktop or rangetop installation drawing in the specific sections of this document.

For any combinations of built-in models, please see related installation drawings
