Fresh Living Tip
Expert bartenders insist that ice is the most important ingredient in making a great cocktail and choosing the right kind can make or break your drink. The purer the ice, the better a drink will taste as the ice melts. And, clarity is the best indicator for purity, as is the case with the Marvel Clear Ice Machine, considered the clearest, most pure ice available for residential use.

15” Marvel Clear Ice Machine
MLCP215/MLCL215

Storage Adaptability
• Large-capacity bin stores 35 pounds of clear ice, while preserving quality and assuring fresh ice production

Cooling Performance
• The quietest ice machine you can buy with an exclusive sound-buffering design
• Energy-saving options conserve water and energy
• Engineered to consistently produce pure, clear ice with unrivaled clarity, immediate cooling and slower melt
• Its uniform size and compact density prove to be the optimal shape to provide faster cooling, while taking up less space in your glass
• Produces up to 39 pounds of clear ice daily, the equivalent of nearly eight convenience-store bags of ice
• Streamlined componentry and single-connection water fitting for simple installation
• Thermal-efficient cabinet insulates cooling environment and ensures optimum energy efficiency while maximizing capacity

Convenient Controls
• Marvel integrated controls feature audible alerts and programmed cleaning reminders
• Eco Ice mode moderates ice production to conservative usage, saving 25% water (91 gallons monthly) and 25% energy ($45 annually) **
• Delay Start/Vacation option automatically postpones operation by 1/4/6/8 (hour or day) intervals, preventing wasteful water use

Fit & Finish
• Illuminice feature projects arctic white LED light through clear ice for a dazzling illumination effect
• Elegant midnight black monochromatic interior
• Easy-to-clean, hygienic interior surface
• Reversible door allows for right or left swing for adaptable installation
• Black toe kick adjustable to 4” with leveling legs

Warranty
• 1-year parts and labor warranty and 5-year sealed system parts warranty

*Based on national average of $0.12 kWh at 100% operation. Note: Ice production rate optimal when ambient air and water temperature is at or below 72°F.

Much like a fine chocolatier slowly tempers chocolate to a solid state for the best quality and flavor, Marvel Clear Ice employs a fractional freezing process to create high-density, slow-melting ice with the ultimate clarity and purity. As water runs over the cold plate, pure water freezes first. Dissolved solids are carried away into the water reservoir, giving you crystal-clear ice that cools your drinks without affecting the flavor.
