Certifications & Warranty

Industry's Largest-Capacity Compact Front Load Washer*

Spacious 2.7 cu. ft. capacity lets you easily wash winter coats, bath towels, or queen-size sheets in a single load—all within a compact footprint.

*Based on 2.7 cu. ft. capacity compared to other Front Load compact washers. Comparison based on publicly available manufacturer specifications at time of analysis.

Perfect Pairing

When paired with the matching dryer—which includes a bracket for vertical stacking—the front faces of both units perfectly align to create a flat, seamless surface.

Space-Saving Solution

This 24" laundry pair can be stacked vertically in small spaces to put everything within easy reach.

PowerMix™

Pre-mixes water and detergent into a rich foam that penetrates fabrics to lift tough stains.

5-Level Digital Display

Intuitive controls allow you to adjust water temperature, soil level, and spin speed for a custom clean.

Quick Wash

Cleans small loads and lightly soiled clothes in under 15 minutes.
