

24" Marvel Professional High-Efficiency Single Zone Wine Cellar

Model # MP24WSG0

Performance

- Up to 2x more efficient than leading competitors
- Dynamic Cooling Technology™ delivers the industry's best temperature stability and rapid cool down, safely bringing wine to temperature without compromising integrity
- Vibration Neutralization System™ protects wine from agitation, allowing it to come to full maturation
- Heavy-gauge wine racks are shaped to safely cradle each wine bottle
- Full-extension ball bearing smooth-glide shelf system prevents jarring
- Thermal-efficient cabinet ensures optimum preservation and energy efficiency while maximizing capacity
- Argon-filled, UV-resistant tinted dual pane glass door protects contents from damaging ultraviolet light, while conserving energy
- Now even quieter operation thanks to exclusive design enhancements to buffer and minimize sound

Storage Capabilities

- 5.2 cu. ft. capacity, stores 48 bottles of wine total
 - Includes (5) 8-bottle smooth-glide full wine racks
 - Includes (2) 4-bottle smooth-glide half-depth wine racks

Touchscreen Controls

- Multifunction Marvel Intuit™ Integrated Controls allow you to select a precise cabinet temperature from 40° F to 65° F
- Vacation mode conserves energy during times when unit is not in use

Aesthetics

- Ideal for freestanding or built-in applications
- Professional styling: stainless steel framed glass door, sturdy full-length handle, sleek stainless steel shelf fronts and stainless steel toe kick adjustable to 4"
- Two-stage, soft blue theater-style LED lighting and sophisticated midnight black interior
- Finish options: stainless steel

Additional Convenience

- Close Door Assist System™ gently and automatically draws door to a close, ensuring door is never accidentally left ajar
- Door lock provides added safety and security
- 3-year parts and labor warranty, 5-year sealed system parts warranty

If necessary to gain clearance inside the rough-in opening a hole can be cut through the adjacent cabinet and the power cord routed through this hole to a power outlet. Another way to increase the available opening depth is to recess the power outlet into the rear wall to gain the thickness of the power cord plug. Not all recessed outlet boxes will work for this application as they are too narrow, but a recessed outlet box equivalent to Arlington #DVR1W is recommended for this application, (see Figure 8).
