

Premium Undercounter Refrigeration

ENGINEERED FOR ENJOYMENT

The perfect choice for professional-style kitchens.

Quality... you know it when you see it. Clean lines. Elegant styling. Attention to detail and smart design. It just feels right.

This new line of premium, professional-style products is the result of 120 years of leadership in the refrigeration market. You'll see it in accents like the striking stainless steel drawer fronts. You'll feel it in our flawless fit and finish and the smooth, solid mechanics of our drawer glides and door hinge systems. And you'll experience it with advanced cooling systems and controls that keep your wines, beverages, and food at just the right temperature.

Our household products are manufactured to the same stringent standards as those we design for our medical, scientific, and industrial customers. You can be confident that your Marvel is built for long-lasting performance.

Marvel Professional. Built proudly in the USA, and designed for your enjoyment.

EXCLUSIVE FEATURES

Smart and stylish, inside and out.

ABOVE: 24" glass door models can be ordered to accept a wood overlay for seamless integration with adjacent cabinetry.

1 Dual Pane UV-Resistant Glass Doors

Ultraviolet rays can cause wine to age prematurely and damage quality and flavor. Marvel's wine cellar doors are constructed of argon-filled, dual-pane, tinted UV-resistant glass to ensure that your collection is both protected and properly displayed.

2 Vibration Neutralization System™ (VNS)

Marvel's VNS protects wine from damaging vibration without sacrificing cabinet capacity. Our compressors are isolated from the wine storage cavity, and vibration-isolating compressor mounts offer a second layer of protection. In addition, a vibration dampening mat is inserted on each shelf.

3 Close Door Assist

The "Close Door Assist" is designed into our hinge system, and draws the door closed when it is accidentally left ajar.

4 Elegant LED Interior Lighting

Glass door models feature a soft-blue interior accent light for a subtle yet unique presentation of your wine and beverages.

5 Maximum Storage Capacity

Marvel Professional shelves and wine racks are engineered to make the most of your storage space

6 Easy Access

Marvel doors open and close within the width of the refrigerator body and allow a flush fit with adjoining cabinetry. Our specially designed door closer hinge incorporates a physical "stop", preventing the door from swinging past 160°

7 Professional-Style Details

The full-length handle and stainless steel toe kick perfectly complement pro-style ranges, refrigerators and dishwashers.

8 Stainless Door Frame

Stainless steel door frames are embossed and have recessed glass. Wood overlay door frames are also available for 24" glass door models.

9 Stainless Drawer Fronts

A beautiful accent that adds to the professional look and feel.

10 Full Length Glide-Out Shelves. Full extension with smooth and quiet operation.

11 Standard Door Locks (Not available on ice machines)

WINE CELLARS

Marvel pioneered the premium undercounter wine category, and our decades of experience are on display in the Marvel Professional series. Dual Zone model is equipped with our Dynamic Cooling™ Technology for precise temperature control, fast temperature recovery, and ultra-efficient air circulation to keep temperatures even throughout the cabinet. All Marvel Refrigeration wine cellars are equipped with the exclusive Vibration Neutralization™ System™ (VNS) to protect your wine from damaging vibration.

The Marvel Professional Dual Zone is a true dual zone. Two independent compartments, each with their own temperature control, set-point and display allow you to provide either the perfect long-term storage temperature or the ideal serving temperature for both red and white wine in either compartment. The temperature range for each zone is 40°F through 65°F.

24" Dual Zone Wine Cellar

Model No: MPRO6DZE-BS

- True dual zone, with two zones independently controlled and monitored for perfect wine storage
- Audible and visual alarms for door ajar, power outage, and high/low temp for each compartment
- 5.45 cu. ft. interior stores 44 bottles
- Upper zone: 24 bottles
- Lower zone: 20 bottles
- Embossed stainless steel door with recessed glass
- Overlay frame glass door accepts customer supplied wood frame overlay rails, stiles and handles (model MPRO6DZE-BD)
- Dual-pane tinted and UV-resistant door glass protects wine
- Blue LED interior lighting display and temperature controls
- 6 glide-out wine racks with 1" stainless steel fronts
- Standard door locks
- 33⁷/₈" minimum H x 23⁷/₈" W x 23⁷/₈" D
- Height adjustment up to 1" with leveling legs
- Specify right or left hand door swing when ordering
- Three year warranty

24" Wine Cellar

Model No: MPRO6WCM-BS

- 6 glide-out wine racks with 1" stainless steel fronts
- 6.4 cu. ft. interior stores 54 bottles
- Blue LED interior lighting display and temperature controls
- Audible and visual alarms for door ajar and high/low temperature
- Full length professional-style handle and stainless steel toe kick
- Embossed stainless steel door with recessed glass
- Overlay frame glass door accepts customer supplied wood frame overlay rails, stiles and handles (model MPRO6WCM-BD)
- Dual-pane tinted and UV-resistant door glass protects wine
- "Close Door Assist" hinging system
- Standard door lock
- 33³/₄" minimum H x 23⁷/₈" W x 24⁵/₁₆" D
- Height adjustment up to 1" with leveling legs
- Specify right or left hand door swing when ordering
- Three year warranty

15" Wine Cellar

Model No: MPRO3WCM-BS

- 6 glide-out wine racks with 1" stainless steel fronts
- 3.0 cu. ft. interior stores 24 bottles
- Blue LED interior display lighting and temperature controls
- Audible and visual alarms for door ajar and high/low temperature
- Full length professional-style handle and stainless steel toe kick
- Embossed stainless steel door with recessed glass
- Dual-pane tinted and UV-resistant door glass protects wine
- "Close Door Assist" hinging system
- Filler kit available for 18" wide opening
- Standard door lock
- 33³/₄" minimum H x 14⁷/₈" W x 23¹/₂" D
- Height adjustment up to 1" with leveling legs
- Specify right or left hand door swing when ordering
- Three year warranty

REFRIGERATOR/BEVERAGE CENTER

A refrigerator, beverage center, and wine cellar in one elegant package... our most versatile and popular product is a great addition to any kitchen, wet bar, or home office. The half-width shelf allows vertical storage of tall items, and the two full-width shelves convert to wine storage, each holding seven bottles. All shelves are cantilevered and adjustable so you can configure your storage space to suit your needs.

24" Glass Door Refrigerator/Beverage Center

Model No: MPRO6GARM-BS

- Dynamic Cooling™ Technology for accurate temperature control between 35°F and 43°F
- 5.6 cu. ft. interior with adjustable shelves for storage of up to 20 wine bottles or 134-12 oz. cans
- Two full-width adjustable cantilever glide-out shelves
- One half-width cantilever shelf allows for tall and/or open bottle storage
- Black fixed position wine cradle at bottom of cabinet holds six bottles
- Blue LED interior display lighting and temperature controls
- Full length professional-style handle and stainless steel toe kick
- Audible and visual alarms for door ajar and high/low temperature
- Embossed stainless steel door with recessed glass – right or left hinge
- Overlay frame glass door accepts customer supplied wood frame overlay rails, stiles and handles (model no: MPRO6GARM-BD)
- Dual pane tinted and UV resistant door glass protects wine
- "Close Door Assist" hinging system
- Standard door lock
- 33⁷/₈" minimum H x 23⁷/₈" W x 23⁷/₈" D
- Height can be increased 1" with factory installed leveling legs
- Specify right or left hand door swing when ordering
- Three year warranty

REFRIGERATORS

Marvel Professional refrigerators are a marriage of performance and style. Our advanced Dynamic Cooling™ system provides superior temperature control. Even with frequent usage, temperature recovery times are fast and temperatures are consistent from top to bottom. We've designed a shelving configuration that provides unmatched storage capacity and flexibility... you can even store tall 2-liter bottles in the door. And the stainless steel door, toe kick, and professional-style handle are the perfect match for your kitchen suite.

24" Solid Door Refrigerator

Model No: MPRO6ARM-BS

- Dynamic Cooling™ Technology for accurate temperature control between 33° and 45° F
- Blue LED temperature controls
- Audible and visual alarms for door ajar and high/low temperature
- Bright white daylight incandescent interior lighting
- Two cantilever slide-out spill safe adjustable glass shelves and 1/2 width flat glass shelf
- Three door shelves for storage of tall 2-liter bottles
- Full length professional-style handle and stainless steel toe kick
- Solid stainless steel door
- Stainless steel toe kick
- "Close Door Assist" hinging system
- Standard door lock
- 33 7/8" minimum H x 23 7/8" W x 23 7/8" D
- Specify right or left hand door swing when ordering
- Three year warranty

REFRIGERATED DRAWERS

Long-lasting freshness and large capacity – our Refrigerated Drawer units deliver both beautifully. Full extension, self-closing drawer glides give you easy access from above, with everything in view and within easy reach. Extra deep bottom drawers allow most 2-liter and opened wine bottles to be stored vertically. Bright white incandescent lighting and white interiors provide the perfect environment for fresh food storage, and our Dynamic Cooling™ Technology gives you quick temperature recovery even with frequent usage.

Solid stainless steel doors, two professional-style handles and a stainless steel toe kick complete the professional look.

24" Refrigerated Drawers

Model No: MPRO6RDE-BS

- Dynamic Cooling™ Technology for accurate temperature control between 34° and 42° F
- Extra-deep lower drawer stores most 2-liter and wine bottles standing up
- Solid stainless steel drawer fronts
- "E-Z" Storage system and adjustable drawer dividers also available
- Full-width professional-style handles and stainless steel toe kick
- Audible and visual alarms for door ajar, power outage, and high/low temperature
- Self-closing drawer glides prevent drawer bounce back
- Bright white LED interior light
- Blue LED temperature controls
- Standard drawer lock
- Sabbath mode
- 33³/₄" minimum H x 23⁷/₈" W x 24⁵/₁₆" D
- Three year warranty

ICE MACHINES

Simply freezing water will also freeze impurities, altering the taste of any beverage it touches. That's why Marvel Professional ice machines utilize a specialized process that removes impurities during the freezing process. The result is crystal clear, gourmet ice that chills beverages perfectly and preserves their flavor. Marvel's ice machines produce 34.5 lbs. of ice cubes in 24 hours, and store up to 30 lbs. The stainless steel ice cutter sizes and shapes cubes that cool your beverage quicker while taking less room in your glass.

We've also engineered our Clear Ice Machines to be extremely quiet and dependable. Our newly designed drain pump motor and impeller reduces startup and operational noise, and our sound buffering ice deflector makes Marvel Professional the quietest ice maker on the market.

Clear Ice Machine

Model No: MPRO30iMT-BS

- Stainless steel ice cutter for best-in-class clear ice with consistent cube size and shape
- High efficiency, low maintenance condenser design for built-in (zero clearance) installations
- Produces up to 34 lbs. and stores 30 lbs. of clear ice cubes in 24 hours (ice scoop included)
- Equipped with cleaning mode
- Low noise ice deflector reduces cube impact noise
- Full length professional-style handle and stainless steel toe kick
- Solid stainless steel door front
- "Close Door Assist" hinging system
- 33³/₄" minimum H x 14³/₄" W x 24.0" D
- Available with factory-installed pump - model number MPRO30iMT-BB-P
- Height adjustment up to 1" with leveling legs
- Specify right or left hand door swing when ordering
- Three year warranty

STACKING COMBINATION UNITS

Make maximum use of your entertainment space with these beautiful stacked units. Combine wine cellars and refrigerators to serve your wine, beverages, and food in one convenient and attractive location. Think of it as having all the Marvel Professional style and performance features times two!

Marvel Professional wine cellars include our exclusive Vibration Neutralization™ System™ (VNS) to protect your wine from damaging vibration. Dual zone wine cellars, refrigerators, and refrigerated drawers all incorporate Dynamic Cooling™ Technology for accurate temperature control and quick cooling recovery. And as with all Professional series products, our combination units are backed by a three year warranty.

Dual Zone Wine Cellar/Refrigerator
Model No: MPRO66DZAR-BS

Wine Cellar Features (Top):

- True dual zone with two independent temperature displays
- Provides ideal temperature for both red and white wine in either compartment
- 44 bottle capacity
- Temperature range for each compartment is 40° and 65° F
- Blue LED interior display lighting and temperature controls
- “Close Door Assist” hinging system
- Standard door lock

Refrigerator Features (Bottom)

- Two cantilever slide-out spill safe glass shelves, ½ width flat glass shelf, and three door shelves for maximum capacity and storage flexibility
- Solid stainless steel door and toe kick
- “Close Door Assist” hinging system
- Standard door lock
- Three year warranty

Wine Cellar/Refrigerated Drawer
Model No: MPRO66WDM-BS

Wine Cellar Features (Top):

- Blue LED interior display lighting and temperature controls
- Six glide-out wine racks
- Stores 54 bottles
- Accurate temperature control between 40° and 65° F
- “Close Door Assist” hinging system
- Standard door lock

Refrigerator Features (Bottom)

- Bright white LED interior light
- Accurate temperature control between 34° and 42° F
- Extra-deep lower drawer stores most 2-liter and wine bottles standing up
- Self-closing “soft-close” drawer glides
- Standard door lock
- Three year warranty

Wine Cellar/Wine Cellar
Model No: MPRO66WCM-BS

Wine Cellar Features (Top and Bottom):

- Blue LED interior display lighting and temperature controls
- Six glide-out wine racks (12 total)
- Stores 54 bottles (108 total)
- Accurate temperature control between 40° and 65° F for each unit
- “Close Door Assist” hinging system
- Standard door lock for each unit
- Three year warranty

Specify right or left door swing for top and bottom units when ordering

MORE PREMIUM PRODUCTS FROM THE EXPERTS IN UNDERCOUNTER REFRIGERATION

Style. Performance. Value. You *can* have it all.

Marvel Series

The Marvel Series is packed with style and convenience features to be the best value in premium undercounter refrigeration. Smart shelf designs and storage options give you maximum capacity and versatility, and natural maple rack facings and wood overlay options allow you to integrate with your cabinetry. As with all AGA Marvel undercounter products, the Marvel Series is manufactured to the same high standards as our medical and scientific products.

- Wine Cellars
- Beverage Centers
- All Refrigerators
- Refrigerated Drawers
- Beer Dispensers
- Ice Machines
- Stacked Combination Units
- ADA Compliant Products

Enjoy the elements.

Marvel Outdoor Series

Make the great outdoors even better with our new line of outdoor refrigeration products. Professional-style handles and stainless steel toe kicks add elegant yet rugged distinction perfect for outdoor living. Flexible shelving options give you total adjustability, and advanced cooling systems keep your beverages and food at the perfect temperatures. All are UL rated for outdoor use.

- Beer Dispensers
- All Refrigerators
- Refrigerated Drawers
- Ice Machines

ADA and Universal Design

Marvel provides refrigerators and ice machines sized to easily mount into undercounter openings only 32 inches high, perfect for ADA-compliant installations (Americans With Disabilities Act), universal design applications, and areas with limited space.

A 300 YEAR HERITAGE OF EXCELLENCE AND INNOVATION

Marvel was founded in 1932, when the company began creating undercounter iceboxes. But as part of AGA Rangemaster, our history of creating premium appliances for the home dates back to 1709 and the start of the Industrial Revolution in our Coalbrookdale UK foundry. From the development of cast iron cookware, to the creation of the original AGA Cooker, to today's full line of premium refrigeration and cooking products, ours is a story of innovation and manufacturing excellence.

The timeline below highlights some important milestones in our history. Today, AGA Marvel continues to stay at the forefront of refrigeration technology, providing products for the home as well as for life sciences, the military, and sports arenas. In fact, the Marvel undercounter product you put in your kitchen is designed and tested to the same stringent specifications as the refrigerators we supply to leading hospitals and laboratories.

Marvel products are built in the USA in facilities that have earned ISO Quality Management, Environmental Management, and Occupational Health and Safety Management certifications. Trust Marvel for the finest in premium appliances.

1709

Innovative smelting process patented by Abraham Darby makes Coalbrookdale the birthplace of the Industrial Revolution

1830

The "Kitchener" range cooker is developed in Lemington Spa

1890's

Ranney ice box production begins in Greenville, MI
