

24" Top Control Dishwasher with STRAWash™

WOW Features

STRAWash™
Bottle Wash Zone
TruDry Drying
System

Midea's 24" Top Control Dishwasher is the first dishwasher to feature STRAWash™, which keeps reusable straws secure in a specialized basket while precision jets deep clean their interiors. The Bottle Wash Zone provides the same thorough cleaning for bottles and tumblers, so you can relax knowing that any combination of dishes, straws, and bottles will come out perfectly clean and dry.

STRAWash™

This dishwasher is the first to include a dedicated system designed to deep-clean reusable straws. A specialized basket holds straws securely in place, while five precision jets clean the inside, removing residue so they're ready for your next drink.*

*STRAWash™ is designed for use with reusable straws only. Do not place disposable straws in the dishwasher.

TruDry Drying System

Our innovative drying system uses three steps to ensure your dishes come out perfectly dry:

- 1. Extended Dry:** Gives dishes extra time to dry, ensuring cabinet-ready results for plastics and other hard-to-dry items.
- 2. Auto-Open Door:** Releases steam to remove excess moisture from inside the dishwasher.
- 3. Air Dry:** Fresh air enters the tub to keep dishes dry, spotless, and odor-free.

Bottle Wash Zone

Four powerful, precision-aimed jets deep clean bottles and tumblers, removing residue from hard-to-reach areas.

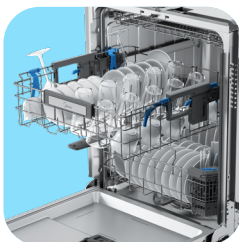

44 dB

Runs quietly while delivering reliable cleaning performance.

Two LED Tub Lights

Illuminate the dishwasher's interior for greater visibility while loading and unloading.

3-Level Height Adjustable Rack

Easily raise and lower the middle rack by 1 to 2 inches to create space for taller items on the rack below.
