# FLEX DUO™ RANGE WITH DUAL DOOR NE59J7850WS/AA

1

## FLEX DUO™

Cook two dishes at two different temperatures simultaneously

- Removeable Smart Divider splits oven into two separate cavities with independent temperature controls
- Smaller oven for everyday use; larger oven for holiday feasts
- Virtually no transfer of smell or taste from dish to dish

2

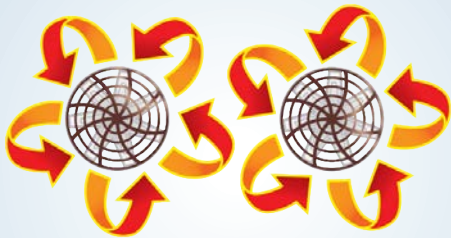

## DUAL DOOR

Access two ovens at once with the unique hinged design

- Choose one door or two with just the push of a button
- No more wasted energy, use only the oven space you need

3

## DUAL CONVECTION

Cooks faster and with better results

- Circulates airflow for more even cooking
- Saves up to 30% cooking time
- Designed for both the single and double oven

4

## SOFT-CLOSE DOOR AND WIDE-VIEW DOOR

Quiet door design with extra-wide viewing window

- Extra-quiet door designed not to slam shut
- Easily check cooking progress

5

## 5.9 CU. FT. LARGE CAPACITY

Large enough to cook your entire holiday feast

- Designed to cook multiple dishes at once
- Three racks of oven space
- Flexible top rack adjusts to accommodate oversized cookware

6

## FLEXIBLE COOKTOP

Largest cooking area with temperature-precise burners

- Multiple burner sizes to accommodate all of your pots and pans
- Triple burner allow you to go from a rapid boil to a true simmer
- Bridge capability creates an extra large cooking surface for oversized pots and pans
- Sleek, ceramic surface cleans easily

7

## WARMING DRAWER

Keep food at ideal temperature until ready to serve

- Choose from three temperature options
- Keeps food warm when entertaining
