

# LARGER LOADS MEAN FEWER LOADS

WASH HUGE LOADS, BULKY ITEMS AND WASHABLE WOOL SWEATERS RIGHT AT HOME\*

**DUET® WASHERS  
& DRYERS**

*Shown: GHW9250MT (Biscuit)*

## The Capacity to Clean

### > Clean 16 Pairs of Jeans\*\* or a Single Silk Scarf

The Duet HT® washer is so big, you can clean up to 16 pairs of jeans in a single load\*\* and so gentle you can wash one silk scarf without worry. Automatic water leveling ensures just the right amount of water is used. Wash what you need, when you need it.

### > Incredible Capacity for Bulky Items

Save time by washing bulky items like blankets and comforters in your own laundry room instead of lugging them to the laundromat. The enormous wash basket and the new Bulky Items cycle (on the Duet HT® washer only) ensure thorough cleaning of these big loads.

The first washer in the USA certified by Woolmark for washable wools

## Trusted & Efficient

### > Multiple Gentle Cycles

No need to panic when your favorite blouse isn't in the closet. The customized Silk and Wool cycles (on Duet HT® washer only) and the Hand Washables cycle with Cradle Clean™ technology keep your fine fabrics looking fine—at your convenience—and reduces those last-minute trips to the dry cleaners.\*

### > Catalyst® Cleaning Action

Virtually forget about time spent looking for stains and pretreating them. Continuous Catalyst® cleaning action premixes detergent at the beginning of the cycle to break down protein- or oil-based stains. The result? Stains and heavy soil are removed *without* pretreating. The Duet HT® model even includes a heater for sanitary cleaning.

## Clean with Conservation

### > Use 68% Less Water and 67% Less Energy Every Year†

Duet® and Duet HT® washers exceed 2007 federal energy standards.

## The Duet® fabric care system works best as a pair

### Duet® Senseon™ Dryer

No other dryer can keep up with the speed, capacity and performance of the Duet® washer like a matching Duet® dryer. Dry loads in the same time it takes to wash them††—now, that's productivity!

*Shown with optional pedestals*

\*Always follow manufacturer's care instructions \*\*Various sizes †Savings compared to average conventional washers, normal cycle, 10 loads per week. ††Based on a 15 lb. load using Senseon™ HIGH cycle
