# *Clean More*

**THAN YOU EVER THOUGHT POSSIBLE**  
larger loads • broader range of fabrics • different types of items

*Shown Stacked in Biscuit • Model number: GHW9250MT*

**Whirlpool® home appliances** are dedicated to solving the riddle of your busy life. Using breakthrough innovations, premium performance, streamlined technology, and environmental savvy, all Whirlpool appliances are designed to help you not merely manage tasks, but enjoy more of each day.

Every Whirlpool appliance fuses form with function by adding a splash of designer panache to your home. Our laundry systems are no exception. Whether you're shopping for a washer, a dryer, or a matching pair, choose from a wide assortment of top-loading or front-loading models with electronic or rotary controls. Capacity, fabric care, and ease of use are promises among all. Seldom can a manufacturer offer the perfect fit for your home like Whirlpool brand does. Your preferences are our priorities.

**For a top-loading washer and dryer, select the color that complements your decor:**

**WHITE WITH SILVER METALLIC**

**BISCUIT WITH GOLD METALLIC**

**WHITE-ON-WHITE**

**BISCUIT-ON-BISCUIT**

*See page 3 for front-loading washer and dryer color options.*

*As always, thank you for considering Whirlpool brand for your next appliance purchase.*

Use this easy to follow Whirlpool® washer and dryer reference to find the models and features ideal for your home.

Each washer and dryer belongs to either the Front-Loading Whirlpool® Duet® series, Top-Loading Whirlpool Gold® series, Whirlpool® Ultimate Care™ II series or Whirlpool® traditional series of models. As you learn about Whirlpool features and discover the ones that are most useful to you, simply refer to the details highlighted on the border of the page. This can help you find the model series that has the feature(s) you want.

The **Front-Loading Whirlpool Duet®** series is our feature-rich premium line of washers and dryers with a European-inspired design that saves water and energy while providing outstanding cleaning performance.

The **Top-Loading Whirlpool Gold®** series also features premium performance and fabric care innovation like Calypso® wash motion and Catalyst® cleaning action.

The Whirlpool **Ultimate Care™ II** series includes a wide variety of cleaning and fabric care features.

The **Whirlpool traditional** series is a popular mix of feature-filled products designed for years of reliable fabric care and cleaning.

Imagine owning a washer that cleans virtually all washable fabrics in your home...from silks to stuffed animals...a revolutionary system with a higher intelligence and the capacity to match. **Wash your world clean** with a Duet® or Duet HT® fabric care system.

# Clean up to 16 pairs of jeans\*

# IN ONE LOAD!

## CLEAN HUGE LOADS AND BULKY ITEMS RIGHT AT HOME

Meet the washer so big you can wash 16 pairs of jeans in a single load.\* Plus, save time by washing bulky items like washable blankets and comforters in your own laundry room instead of lugging them to the laundromat. The enormous wash basket and the new Bulky Items cycle (on Duet HT® washer only) ensure thorough cleaning of these big loads.

## CLEAN VIRTUALLY ANY WASHABLE FABRIC IN YOUR HOME

No need to panic when your favorite blouse isn't in the closet. The customized Silk and Wool cycles (on Duet HT® washer only) and the Hand Washables cycle with Cradle Clean™ technology keep your fine fabrics looking fine—at your convenience—and reduces those last-minute trips to the dry cleaners.†

The Duet HT® washer is the first washer in the USA certified by Woolmark for washable wools

FRONT LOADING WHIRLPOOL® FABRIC CARE

## SANITARY CYCLE (DUET HT® WASHER ONLY)

The "HT" stands for Heater, built into the washer. Fabrics stay safe, bacteria does not. The Sanitary cycle cleans items like baby bibs and blankets with temperatures up to 153°F, destroying 99.999% of certain bacteria.\*\*

Virtually forget about time spent looking for stains and manually pretreating them. With continuous Catalyst® cleaning action detergent is premixed at the beginning of the cycle to break down protein- or oil-based stains. The result? Stains and heavy soils are removed without pretreating.

\*Various sizes  
 \*\*K. pneumonia, P. aureginosa and S. aureus  
 †Always follow manufacturer's care instructions

**EXCEEDS 2007 FEDERAL ENERGY STANDARDS!**

The built-in heater (Duet HT® only) means less energy is needed from your home's hot water heater. Automatic water leveling determines just the right amount of water needed for each load.

**DUET® FABRIC CARE SYSTEMS USE 68% LESS WATER†† AND 67% LESS ENERGY!††**

††Savings compared to average conventional washers, normal cycle, 10 loads per week.

**GHW9250M — Duet HT® WASHER**

The Duet HT® washer includes all the same features as the GHW9100L, plus:

- + Built-In Heater
- + 1100 RPM Maximum Spin Speed
- + Special Cycles: Bulky, Sanitary, Quick Wash, Silk, Wool
- + Porcelain-on-Steel Top
- + 4-Tray Dispenser System (Prewash, Detergent, Bleach and Fabric Softener)
- + Prewash and Auto Soak Options
- + Delay Start

**GHW9100L — DUET® WASHER**

- Catalyst® Cleaning Action with Direct Inject
- Ultra Capacity Plus Stainless Steel Wash Basket
- AccuWash™ Temperature Control
- 900 RPM Maximum Spin Speed
- Special Cycles: Whitest Whites, Heavy Duty, Hand Washables, Add-a-Garment
- 3-Tray Dispenser System (Detergent, Bleach and Fabric Softener)

**GE/GW9200L — DUET® DRYER**

- Senseon™ Drying System
- AccuDry™ Sensor
- Dry Rack Included
- On/Off Wrinkle Shield™ Plus Option (120 minutes)
- Interior Drum Light
- Porcelain-on-Steel Top
- Quiet Dry™ Plus Sound Insulation
- 4-Way Venting

The Duet® dryer features a reversible side-swing door with a manufacturer's exclusive door window. You can learn about Duet® dryer features listed to the left on pages 11-14.

**The Duet HT® pair is now available in three colors:**

- Biscuit
- Pewter
- White with Dove Grey

Shown with optional pedestals. For complete Duet® feature packages, see page 18.

FRONT LOADING WHIRLPOOL® FABRIC CARE

## CALYPSO® WASH MOTION

It's the only washer that gives you the capacity, performance, and efficiency of a front-loading machine in a traditional top-loading design. Calypso® wash motion replaces a conventional agitator with the ingenious Calypso® wash plate, making room for larger loads and bulky items. Plus, the Calypso® washer dances fabrics through a shower of detergent and water lather, followed by 100% fresh waterfall rinses. It's far less stress to garment fibers so fabrics look new longer.

# Clean larger loads and more fabric types

WHIRLPOOL® CALYPSO® WASHER AND DRYER

## NO ONE OFFERS MORE USABLE CAPACITY IN A TOP-LOADING WASHER\*

Without an agitator in the center of the wash basket, you'll clean and care for items you never thought possible. That's because the Whirlpool® Calypso® washer is equipped to clean large loads thoroughly and bulky items safely. Use the Bulky Items cycle to save time by cleaning virtually any oversized washable item you used to take to the laundromat or dry cleaners.

*\*Among leading brands*

## VERSATILE FABRIC CARE

Treat your silks, lingerie, nylons, workout-wear, and other fine delicates to Calypso® wash motion. It's so gentle, you can safely clean virtually any washable fabric right at home. You might even decide to clean items you never thought to wash before, like sheer curtains.

For items you've always washed at home, like denims and cottons, you'll notice they're cleaner and brighter than ever. There's never been such a complete top-loading fabric care system with so many customized and convenient cleaning options, including a **Whitest Whites** cycle.

## TRIPLE DISPENSER SYSTEM AND AUTOMATIC WATER LEVEL

Load virtually any type of washable fabric in your Calypso® washer and let it do the rest. The Triple Dispenser System holds detergent, bleach, and fabric softener until it releases each one at the precise moment during the cycle. There's no need to return for mid-cycle adjustments. And regardless of load size, the built-in water level sensor knows just the right amount of water to use. There's no worry that you've selected too much or too little water to clean.

### USES 50% LESS WATER\*

The Calypso® washer never deep fills, so it uses dramatically less water in every load. Save approximately 10,300 gallons of water per year.\*

### USES 66% LESS ENERGY\*

The AccuWash™ temperature control system ensures consistent wash and rinse temperatures for maximum performance and energy efficiency.

### SAVE OVER \$100 A YEAR!\*

With such significant water and energy savings, dollar savings naturally follow. Reduce your monthly utility costs and save up to \$100 a year.

\*Savings compared to average conventional washers using average water, sewer and electric rates, and electric hot water heat, normal cycle, 10 loads per week.

### GVW9959K — CALYPSO® WASHER

- Calypso® Wash Motion with Continuous Catalyst® Cleaning Action
- Ultra Capacity Stainless Steel Wash Basket
- Variable Speed Motor
- Multiple Wash/Spin Speed Combinations
- Multiple Factory Pre-Set Cycles and Options
- Automatic Water Level Control
- Special Cycles: Whitest Whites, Wool, Jeans/Darks, Delicate/Casual, Bulky Items, Hand Wash
- Porcelain Top and Lid

For best results, use only high-efficiency detergent designed for low-water washers, like Tide® HE.

### GE/GW9868K — MATCHING DRYER

- Senseon™ Drying System
- Ultra Capacity 7.4 cu. ft.
- 11 Cycles
- 6 Temperatures
- Dry Rack
- Interior Drum Light
- On/Off Wrinkle Shield™ Plus Option (120 min.)
- SpillGuard™ Porcelain-on-Steel Top
- 4-Way Venting

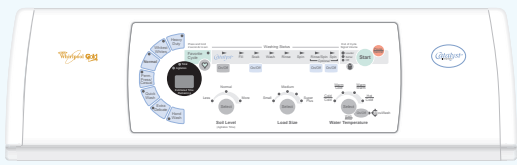

For Calypso® matching dryer feature descriptions, see pages 11-14.

Choose a Calypso® washer and dryer pair in the white, biscuit or striking pewter color option.

For complete washer feature package, see pages 18-19. For complete dryer feature package, see pages 20-21.

**GSX9885J**

- Catalyst® Cleaning Action  
*(see page 2 for a description of this pretreating feature)*
- Super Capacity Plus White Porcelain-on-Steel Wash Basket
- True 3-Speed Motor with Multiple Wash/Spin Speed Combinations
- Multiple Factory Pre-Set Cycles and Options
- Special Cycles: Whitest Whites, Extra Delicate, Hand Wash, Quick Wash
- 8 Temperatures
- 5 Water Levels
- Triple Dispenser System

Available in White and Biscuit

See matching dryer on page 11.

**GST9679L**

- Super Capacity Plus White Porcelain-on-Steel Wash Basket
- True 3-Speed Motor with 6 Wash/Spin Speed Combinations
- Xtra Roll Action™ Plus Agitator
- Smart Bleach™ Dispenser
- 27 Cycles
- Special Cycles: Handwash/Wool, Knits/Blends, Quick Wash, Pretreat
- 6-Position Fabric Select Control
- Variable Water Levels
- Stepped Spin
- Quiet Wash™ Plus Sound Insulation

Available in White with Silver Metallic Console and Biscuit with Gold Metallic Console

For complete washer feature packages, see pages 18-19.

# Clean twice the average size load!\*

## XTRA ROLL ACTION™ AGITATOR

Dirty laundry piles disappear with the Super Capacity Plus Wash Basket and Xtra Roll Action™ Plus agitator. Dual agitation consistently and gently circulates all wash items to the bottom of the basket where cleaning takes place. **Completely clean twice the average size load.\***

## NO OTHER PORCELAIN WASH BASKET IS LARGER

The Super Capacity Plus white porcelain-on-steel wash basket provides the room needed to clean larger loads, allowing you to reduce time in the laundry room. Plus, it resists scratches, stains, chips and odors. Fabrics have less chance to catch or snag. White porcelain-on-steel wash baskets are guaranteed with a **Limited Lifetime Warranty.\*\***

## SMART BLEACH™ DISPENSER

Spend time doing other things rather than waiting to add bleach to the wash. The Smart Bleach™ Dispenser transforms one cup of liquid chlorine bleach into a whitening powerhouse by waiting until the optimal moment in the cycle to release it. You'll notice the difference in your whites when dirty socks start to dazzle.

For even less time spent in the laundry room, look for models with the **Triple Dispenser** system that automatically dispenses detergent, bleach, and fabric softener. You only need to load and unload, the rest is done for you.

\*Average size load is 7 lbs. \*\*See dealer or Use & Care Guide for details.

### TRUE 3-SPEED MOTOR WITH 6 WASH/SPIN SPEED COMBINATIONS

Skip a trip to the cleaners and wash more types of washable fabrics at home. Three true wash speeds provide fast, slow and extra slow wash actions. Care for a variety of fabrics, from denims to delicates, safely and completely.

The **Hand Washables cycle** goes a step further with an extra slow agitate and soak progression and a slow speed spin for the ultimate protection against fabric damage.

## Save time, water & energy

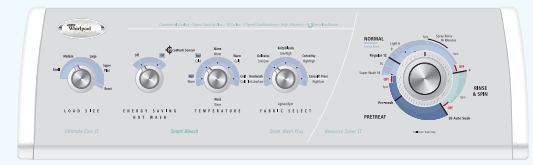

### WATER AND ENERGY SAVING MODELS

Clean your largest loads while still saving water and energy.

Water-saving spray rinses in model GSW9559L **save up to 9,700 gallons of water a year.\*** Or choose model GSW9650L which uses an advanced temperature control system for 38% less energy in every cycle.\* Make your choice for capacity and conservation.

*\*Savings compared to average conventional washers, normal cycle, 10 loads per week.*

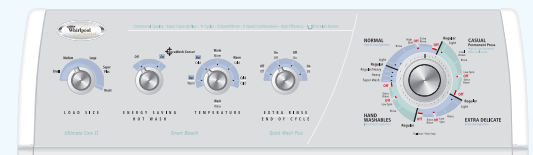

### GSW9559L

- ENERGY STAR® Qualified — Save 9,700 Gallons of Water a Year\*
- Resource Saver® II Wash System
- Super Capacity Plus White Porcelain-on-Steel Wash Basket
- 2-Speed Motor with 5 Wash/Spin Speed Combinations
- Xtra Roll Action™ Plus Agitator
- 18 Cycles
- Smart Bleach™ Dispenser
- 5-Position Fabric Select Control
- Handwash/Wool Cycle
- Variable Water Levels
- Quiet Wash™ Plus Sound Insulation

*Available in White with Silver Metallic Console*

### GSW9650L

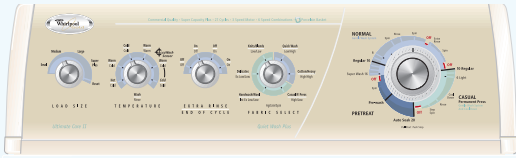

- ENERGY STAR® Qualified — Use 38% Less Energy in Every Cycle\*
- Super Capacity Plus White Porcelain-on-Steel Wash Basket
- True 3-Speed Motor with 6 Wash/Spin Speed Combinations
- Xtra Roll Action™ Plus Agitator

- \* Quiet Wash™ Sound Insulation

Available in White with Silver Metallic Console and Biscuit with Gold Metallic Console

For complete washer feature packages, see pages 18-19.

# Shorten your laundry day

### NEW FABRIC SELECT CONTROL

Simply match the type of load you're cleaning with one of the selections on the Fabric Select control and let the washer do the rest. No speeds to select, no errors to make. From cottons to wools, there's a setting for virtually every garment you'll wash.

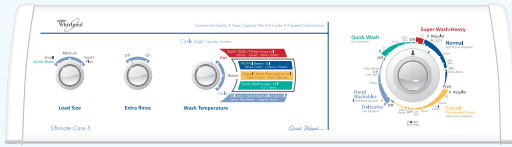

### ACCUWASH™ TEMPERATURE CONTROL

Do you know the temperature of your wash water? Of course not, but AccuWash™ temperature control does. It automatically keeps cold washes above 70°F, the recommended temperature to help dissolve detergents, and warm washes from exceeding 100°F, to help control shrinking and bleeding.

### PERMANENT PRESS CYCLE

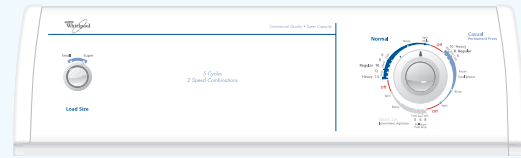

A cool-down process at the end of the Permanent Press cycle stops wrinkles where they start (in the washer). Clothes are ready to wear without ironing. Some models offer a unique stepped spin feature to help reduce wrinkles while removing more water from the load.

**LSQ800L**

- Cycle Logic™ Color-Coordinated Controls
- Super Capacity Plus White Porcelain-on-Steel Wash Basket

ULTIMATE CARE™ II AND WHIRLPOOL® WASHERS

For complete washer feature packages, see pages 18-19.

*Imagine drying time that flies*

# Meet your match with a time-saving dryer

## SENSEON™ DRYING SYSTEM

The laundry room can seem more like a waiting room when wet clothes are sitting in the washer and the previous load is still drying. Get your laundry day up to speed with the Senseon™ drying system that **gently dries fabrics in the time it takes to wash them.\*** Moisture sensing strips and temperature sensors know how fast clothes are drying, how hot the air should be, and when clothes are dry. *It's our most accurate drying system ever.*

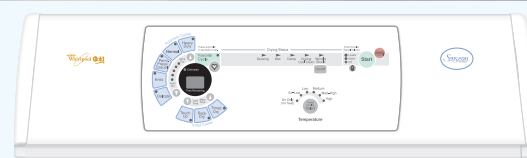

## DELICATE CYCLE

If you think any of your fine garments are too delicate to go into the dryer, think again. Whirlpool® Senseon™ dryers offer the gentle care of a Delicates Cycle. Ultra low temperatures never exceed 140°F, as recommended by a leading consumer magazine, to protect fabrics and help prevent damage. *(Always check manufacturer's care label for instructions.)*

## RESOURCE SAVER® DRY CYCLE

**Save over 30% in energy usage\*\*** without sacrificing drying performance. The Whirlpool® Resource Saver® cycle uses a dual temperature heating element. High power boosts heat to the desired temperature before the lower wattage element kicks in to maintain it. **It's the most energy-efficient drying cycle in the industry.†**

\*Based on a 15 lb. load using Senseon™ Heavy Duty  
\*\*As compared to our automatic dry cycles  
†Electric model only

Available in White with Silver Metallic Console and Biscuit with Gold Metallic Console

Super Wide Side-Swing Door

For complete dryer feature packages, see pages 20-21.

**WRINKLE SHIELD™ PLUS OPTION**

It's a fact ... when the dryer quits, wrinkles set in. When you can't unload the dryer right away, choose the Wrinkle Shield™ Plus drying option. Once the cycle is over, Wrinkle Shield™ Plus automatically continues to tumble the load on and off, without heat, for up to 120 minutes. With less chance that wrinkles will set in, you save time ironing.

**ACCUDRY™ SENSOR**

Save time and effort when you're not returning to the dryer to check and re-check progress. The AccuDry™ sensor monitors remaining moisture and automatically stops the cycle when a load is dry. Prevent overdrying while saving time.

**DRY RACK**

Give the laundry line a rest and dry "lay flat" items in the dryer instead. Select models include a dry rack which gives you the freedom to quickly and safely dry hand washable and delicate items in the dryer without tumbling them.

**INTERIOR LIGHT**

Perfect for dark basements, hallways or closets. Interior drum lighting illuminates the entire drum so you have an easier time loading and unloading, no matter where the dryer is located.

### ULTRA CAPACITY

Clothes dry faster and with fewer wrinkles when they have more room to spread out. The largest capacity Whirlpool® dryer ever, the Ultra Capacity dryer measures an enormous 7.4 cubic feet for your largest laundry demands. It's perfect for drying bulky items like comforters, pillows, and rugs.

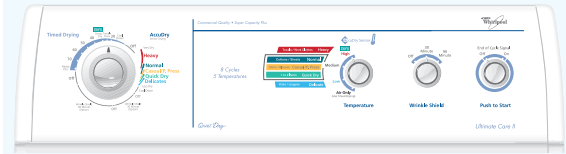

### ADDITIONAL CAPACITY CHOICES

In addition to Ultra Capacity, Whirlpool brand offers a variety of other dryer capacities to meet your fabric care needs. Super Capacity Plus dryers offer a 7.0 cubic foot drum to dry large, family-size loads with fluffy results. Other size options include a 6.5 cubic foot Super Capacity drum and a 5.9 cubic foot Extra-Large size. A larger capacity equals fewer wrinkles and less time spent ironing.

### GENTLE HEAT SYSTEM

Unload the dryer as soon as the cycle is over. Virtually every Whirlpool® dryer features the Gentle Heat System which lowers the temperature to the lowest setting for the last five to seven minutes, followed by a cool-down period. Loads are never too hot to handle and there's less risk of fabric damage.

### LE/GQ8000J

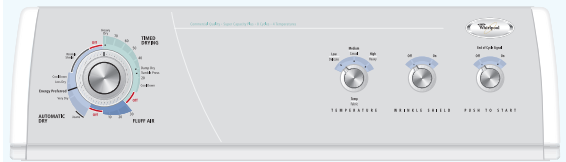

- AccuDry™ Sensor
- Cycle Logic™ Color-Coordinated Controls
- Super Capacity Plus 7.0 cu. ft.
- 8 Cycles

## Venting Information

### Exhaust Information

Service Check: The back pressure in any exhaust system used must not exceed 0.6 inches of water column measured with an incline manometer at the point that the exhaust duct connects to the dryer.

\*Min. top and bottom air openings for closet door. \*\*External exhaust elbow requires additional space. \*\*\*Wall, door and floor molding may require additional spacing.

# WHIRLPOOL® DRYER VENTING REQUIREMENTS

## 27" & 29" DRYER VENTING REQUIREMENTS

# of 90° turns	4" Hood	4" Hood	2 1/2" Hood	
0	64 Ft.	64 Ft.	58 Ft.	Maximum length of 4" diameter rigid metal duct
1	54 Ft.	54 Ft.	48 Ft.	
2	44 Ft.	44 Ft.	38 Ft.	
3	35 Ft.	35 Ft.	29 Ft.	
4	27 Ft.	27 Ft.	21 Ft.	
0	36 Ft.	36 Ft.	28 Ft.	Maximum length of 4" diameter flexible metal duct
1	31 Ft.	31 Ft.	23 Ft.	
2	27 Ft.	27 Ft.	19 Ft.	
3	25 Ft.	25 Ft.	17 Ft.	
4	23 Ft.	23 Ft.	15 Ft.	

### Exhaust Information

All dryers require the equivalent of a 4-inch diameter exhaust duct. Rigid metal duct is recommended. Failure to properly exhaust the dryer will result in improper operation.

## LP GAS CONVERSION KITS ARE AVAILABLE

24" Thin Twin® and Compacts	10,500 BTU	#694580
27" Thin Twin®	16,000 BTU	#3392235

## 4-WAY VENTING FOR GE/GW9200L, GE/GW9868K AND GE/GQ9800L

The GE/GW9200L, GE/GW9868K & GE/GQ9800L offer 4-Way Venting Options.

4-Way Vent Kit Numbers:

White	279818
Biscuit	279925
Pewter	279969

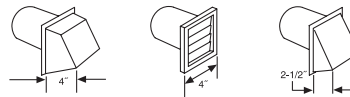

To order parts and accessories, call a Whirlpool representative at 1-800-253-1301 or visit our website at [www.whirlpool.com](http://www.whirlpool.com).

## LE/GV4634J LONG VENT DRYER ONLY

# of 90° turns	4" Hood	4" Hood	2 1/2" Hood	
0	120 Ft.	120 Ft.	120 Ft.	Maximum length of 4" diameter rigid metal duct
1	119 Ft.	110 Ft.	110 Ft.	
2	100 Ft.	100 Ft.	100 Ft.	
3	90 Ft.	90 Ft.	90 Ft.	
4	80 Ft.	80 Ft.	80 Ft.	
5	70 Ft.	70 Ft.	70 Ft.	

The same length of vent can be used with any of the three exhaust hoods shown.

**Exhaust vent charts** list lengths by type of vent to be used. Use the chart that matches your vent type.

### When you use only one type of metal vent...

- Determine the number of elbows you will need.
- In the column listing the type of metal vent you are using (rigid or flexible), find the maximum length of metal vent on the same line as the number of elbows.

## MAXIMUM LENGTH OF RIGID METAL VENT OR FULLY EXTENDED FLEXIBLE METAL VENT (LE/GV4634J ONLY)

① Number of 90° elbows	① 4" dia. rigid metal vent	① 4" dia. flexible metal vent
0	120 Ft.	40 Ft.
1	110 Ft.	37 Ft.
2	100 Ft.	33 Ft.
3	90 Ft.	30 Ft.
4	80 Ft.	27 Ft.
5	70 Ft.	23 Ft.

The maximum length using a 2' x 6' rectangular vent with 2 elbows and transitioning into a 2-1/2' exhaust hood is 8 feet.

### When you use a combination of rigid and flexible metal vent...

- Determine the number of elbows you will need.
- Determine the length of **Flexible** metal vent you'll use. Find the column that has the nearest number of feet to what you will be using.
- In the shaded area of that column find the maximum length of **Rigid** metal vent on the same line as the number of elbows.

## MAXIMUM LENGTH OF FULLY EXTENDED FLEXIBLE AND RIGID METAL VENT (LE/GV4634J ONLY)

① # of 90° elbows	② length of Flexible metal vent						③ Length of Rigid metal vent
	0'	1-5'	6-10'	11-15'	16-20'	21-25'	
0	120 ft	105 ft	90 ft	75 ft	60 ft	45 ft	
1	110 ft	95 ft	80 ft	65 ft	50 ft	35 ft	
2	100 ft	85 ft	70 ft	55 ft	40 ft	25 ft	
3	90 ft	75 ft	60 ft	45 ft	30 ft	15 ft	
4	80 ft	65 ft	50 ft	35 ft	20 ft	5 ft	
5	70 ft	55 ft	40 ft	25 ft	10 ft	0 ft	

**Example:** ① You will need to use 2 elbows  
 ② You will use 5 feet **Flexible** metal vent  
 ③ The maximum length of **Rigid** metal vent you can use is 85 feet

# WHIRLPOOL® DRYER VENTING REQUIREMENTS

COMPACT VENTS			
# of 90° turns	4" Hood	4" Hood	2 1/2" Hood
0	43 Ft.	41 Ft.	36 Ft.
1	33 Ft.	31 Ft.	26 Ft.
2	23 Ft.	21 Ft.	16 Ft.
3	30 Ft.	29 Ft.	24 Ft.
4	24 Ft.	23 Ft.	18 Ft.
5	16 Ft.	15 Ft.	10 Ft.

Maximum length of 4" diameter rigid metal duct

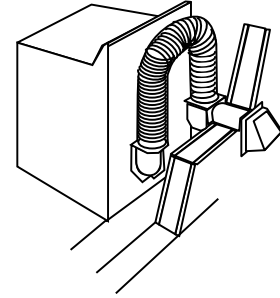

## SURE CONNECT™ VENT KIT

Part #4396028

- Provides 4-1/2" clearance between dryer and wall
- Snap-Lock fittings
- Total kit length: 8 feet
- Additional vent can be snapped between sections for longer runs

### Kit Contains:

- 2 - 4' vent sections with attached close elbows
- 1 - Wall plate for close clearance installations
- 2 - 4" clamps
