

E Series Built-In Single Ovens

Wolf E Series built-in ovens come with the classic stainless steel finish and are offered in two different door styles—framed and unframed. The E Series built-in design allows the front of the oven to be installed flush with surrounding cabinetry for a more integrated look or used in the standard application, where the oven trim will overlap the cabinet face. With the dual convection fans, E Series ovens offer ten different cooking modes.

Model SO30-2U/S shown with Model WWD30 warming drawer with E Series trim.

Installation Specifications

Standard Installation

IMPORTANT NOTE: Unless you are using cabinets deeper than 24" (610) for a standard installation or 25" (635) for a flush inset installation, it is recommended that the electrical supply be placed in an adjacent cabinet within reach of the conduit. Choose the location shown in the illustrations that best suits your installation.

Flush Inset Installation

Installation Notes

Wolf E Series built-in ovens may be used in a standard installation, where the face trim overlaps stiles and rails, or in a flush inset installation with the front of the oven flush with surrounding cabinetry.

Complete installation specifications can be found on our website, wolfappliance.com.

Dimensions in parentheses are in millimeters unless otherwise specified.
