Features & Benefits

Fresher Food for Longer

Fruit and vegetable quality can be maintained at the right humidity and temperature level. The Humidity Control System, together with the cool and consistent temperature delivered by ActiveSmart™ Foodcare, creates the perfect microclimate in each produce bin. Two humidity control slides offer settings for both fruit and vegetables to retain optimal moisture and freshness.

Easy Living

These refrigerators adapt to suit your lifestyle by streamlining food preparation and organization with SmartTouch controls, flexible shelving and storage options and slide out bins and trays.

Sized to Suit

Available in multiple widths, these refrigerators are sized to suit families and kitchens, large and small. Designed to fit easily in your kitchen, they can sit flush with your counter top. Concealed hinges on many models add to a clean, refined appearance.

Ergonomic

Uninterrupted wide-open spaces and numerous shelving options enable easy customization for different uses. Quality extension runners allow you to slide out trays fully for easy loading and unloading in the refrigerator and freezer. The storage bins are also removable, making food preparation and cleaning easier.

Easy Cleaning

Removable, spill safe glass shelves are easy to clean and contain drips and spills. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.

Efficient

Alarms on the refrigerator and freezer alert you if the door has been left open. Adaptive defrost means that there is no need for 'holiday mode' settings. ActiveSmart™ will select the best time to defrost based on how the appliance is being used. When you are away, it will recognise lower levels of use and defrost less often, therefore requiring less energy.
